SHE MARRIES.

MRS. WARREN A DRUMMOND

Miss La Vivienne Hulshizer of Kansas City surprised her friends by slipping away, with her mother, and coming to Omaha Saturday to be married to Warren A. Drummond, a former Kansas City man, who is now connected with the Omaha National bank. The bride is a niece of Mrs. Karl A. Lininger, whom she visited last summer.

The marriage took place Saturday in the couple's apartments in the Traverton, Rev. Charles E. Cobbey of the First Christian church officiating.

The bride is the daughter of Mr. and Mrs. Godfrey Hulshizer. Mr. Drummond's parents, Mr. and Mrs. D. H. Drummond, also live in Kan-

SALESMAN PICKS **GROH AS PROSPECT**

SURPRISES FRIENDS WHEN Tells Him All About His Ma chine, Just as Though He Had Real Money.

HAS HIS SPIEL DOWN PAT

By A. R. GROH.

It was at the Auto show. Just why this young salesman picked me out as a good "prospect" for a car selling around \$2,000 I don't know. Maybe it was because I had my suit freshly pressed and my shoes shined in honor of the Auto show. Anyway, I appre ciated the compliment,

Almost before I knew it. I was seated in the driver's seat in a rakish Resta-Rickenbacher position with my hands on the wheel, the steering wheel, you understand. I noticed some little levers and things in the floor, so I put my feet on several of them.

them.
"Did you ever touch a clutch that
worked more easily than that one?"
the exquisitely tailored, collared and
barbered young man asked me.
I replied, with perfect truth, that I

had. "Notice that steering column," he continued. "Semi-irreversible worm and gear; horn button on top."

Asks Some Questions.

I couldn't see any use for a worm, semi-irreversible or otherwise, on an automobile; but I didn't say anything. I thought I ought to ask a question or two, so I asked:

"How about the transmission—is it of the, er, semi-vibratory type or—"

He looked at me in a queer manner, I be asked at me in a queer manner,

He looked at me in a queer manner, I thought.

"The transmission," he said, "is selective, three speeds and a reverse. The third speed is the direct drive. The car includes all standard equipment, less water, oil and gasoline, of course.

"Oh, of course, less those," I agreed, feeling that I was on safe ground here.

Salad Making—II.

The most familiar salad dressing found on the American table is some kind of cooked dressing. There are dozens of cooked dressing recipes in the cook sooks. The following is rather easily made, has very good keeping qualities, and is satisfactory in flavor:

| Salad Making—II. | Salad—Apples, celery and nuts in the cook sooks. The following is rather easily made, has very good keeping qualities, and is satisfactory in flavor: COOKED SALAD DRESSING.

tter 2 L sugar ir the weak vinegar stard 2 whole eggs or 2 egg yolks (4 T. if for fruit salad.)

E.T. flour
1. t. mustard
2. weak vinegar
1. t. mustard
2. whole eggs or
1. t. sait
4. T. if for fruit salad.)

Melt butter, add flour, then vinegar
and other dry ingredients. Stir to a
boil and boil three mustes. Remove boil and boil three minutes. Remove from flame, add eggs and beat five minutes with a Dover egg beater. This dressing may be cooked in a double holler so that there is a double holler so that there is a flame way.

In the same way.

Butterfly Salad—(ut a silee of pineapple in two place on a lettuce leaf with curved sides, touching to form the wings. Place a suffif dressing along conter to form the body and make the antennae of strips of green pepper. double boiler so that there is no danger of burning.

Before use, the dressing is thinned

The nice thing about salads is that there are immunerable possible combinations which are attractive and which use any available material to be found in the refrigerator. All salad materials must be fresh and cold, and crisp in the case of green vegetables; beyond these requirements the cook has free choice in handling the salad. If she has fine head lettuce, she will serve it in quarters, or form a bed of serve it in quarters, or form a bed of the leaves; if she has young and tender leaf lettuce, those leaves also can form a bed; if she has tougher head lettuce it may be cut into rib-bons, or torn, making an equally at-tractive nest for rest of the salad. For
