

ROBERTSON TRIES TO HURRY MATTERS

Senator From Holt Proposes That Members Kill Some of Own Pet Measures.

SHUDDER THROUGH HALL

(From a Staff Correspondent.)
Lincoln, Feb. 27.—(Special.)—Taking his cue from a story in The Bee Monday morning, Senator Robertson of Holt county, today attempted to carry out the idea that it was time for the legislature to get down to business and offered a motion that the 141 bills now on general file be cut down to thirty-three for immediate consideration. This he said would entirely eliminate the need of a sifting committee later on.

The senators were astonished to think that any member would get so radical as to want really to clean up business and take the burden of a wind jamming legislature off of the hands of the people so soon. Moriarty of Douglas, who has the distinction of having introduced more than 10 per cent of all the bills in the senate, offered an amendment to the motion making consideration of the matter a special order for next Wednesday morning.

Senator Robertson wanted each senator to pick one bill from the general file, the one he was most interested in which should be first considered in committee of the whole. At the same time each senator would be expected to kill one bill, that one to apply to a similar measure over in the house. The senator from Holt offered to set a good example by killing off two of the seven bills he had introduced.

A New, Harmless Way to Banish Hairy Growths

(Beauty Topics.)
By following this suggestion any woman can, in the privacy of her own home, remove every trace of hair or fuzz from her face. With this powdered delatone and the water mix enough paste to cover the not wanted hairs; apply and in 2 or 3 minutes rub off and wash the skin. This method is unfeeling, harmless and quick in results, but care should be employed to get the genuine delatone.—Advertisement.
