

SOLONS GUESTS AT MOTOR SHOW TODAY

Accept Invitation of Auto Trade Association to See Big Exposition.

DINE AT COMMERCIAL CLUB

Members of the Nebraska legislature will be guests of the Omaha Automobile Trade association at the Omaha automobile show today and this day will be officially known as Legislative day.

Clarke G. Powell, manager of the show, sent an invitation to the Nebraska solons to attend the show today and the lawmakers accepted. This week's session will adjourn today so the legislators can catch an afternoon train for Omaha.

At 6:30 tonight the solons will be guests of the Commercial club at a dinner at the Commercial club rooms. All members of the club are urged to attend. C. C. George will preside and Randall Brown, president of the club, will welcome the lawmakers. Governor Neville will also speak.

Society Night Abandoned. For the first time in history Thursday night was not society night at the show, and for old timers, who have seen all of the twelve Omaha expositions, the Auditorium was strange indeed last night.

In past years it was always the practice to cater to the exclusive set Thursday night. The admission price was doubled, the salesmen donned evening clothes, or at least Tuxedos, and an air of hauteur seemed to pervade the building.

But last night was just like any other night. Nobody put on any "dog" as one factory man called it. The success of the show last night means that society night will never again be restored to favor among the automobile men. As a matter of fact, the farmer is about the only person who will be honored with a special day at the show in the future.

Business is Brisk. For business yesterday and last night was exceedingly brisk. The attendance at the show was very gratifying and the number who attended was so great that more money went into the box office than would have if it had been society night and the admission price double the regular sum.

The attendance last night was almost as large as Wednesday and the number of sales made was larger than any day except Wednesday. The auto men rather looked for Thursday to be a dull day compared to the others, but they were fooled; it was an exceedingly good one.

Liquor Dealers Abolish Their Charity Society

Liquor dealers of Omaha, who were members of the Liberal Aid society, have rung their swan song and disbanded. But before voting to disband the men distributed \$788 remaining in the treasury. The Child Saving Institute, City Mission and Visiting Nurse association each got a check for \$50. The rest was dispensed among other local charities, ministers and priests.

During its two years of existence the Liberal Aid society has given away more than \$8,000 in cash and supplies to needy folks, the supplies being handled by order through the various Omaha stores.

JAIL ELEVATOR IS OUT OF COMMISSION

Two Conductors, but the Power Has Been All Shut Off.

PART OF JAIL FEEDING ROW

There is a jail elevator at the court house—but it isn't in operation. There are also two operators.

Commissioner Lynch ordered the power shut off for the jail elevator when he found that Sheriff Clark was breaking in a new man on the job.

The commissioner says that Jay Dudley, who was appointed by the county board, will run the elevator or no one else will.

Following the grand jury's recommendation that the jail elevator be under the jurisdiction of the sheriff's office, Sheriff Clark asked that Isaac Bailey be appointed.

Meanwhile the jail feeding row is still on. The county board has refused to allow the sheriff's claim for the feeding of the prisoners twenty-seven days in January, based on the 32 cents a day allowed by law. The commissioners have requested that Sheriff Clarke submit an itemized account, declaring that they will allow only what was actually expended for food.

Chamberlain's Cough Remedy a Favorite for Colds.

J. L. Easley, Macon, Ill., in speaking of Chamberlain's Cough Remedy says, "During the past fifteen years it has been my sister's favorite medicine for colds on the lungs. I myself have taken it a number of times when suffering with a cold and it always relieved me promptly."—Adv.

PROFESSOR TALKS WAR TO UNI CLUB

Harvard Man Says Exposition of German Plot Will Weld America's Strength.

DUTY OF UNIVERSITY MEN

Immediate and universal resentment by all Americans; prompt passage of congressional bills to arm merchantmen, preparation for war and the investment in the president of war powers and credits; vigorous support of the administration and willingness to serve the nation as needed, will result from exposure of Germany's latest war intrigue, according to Prof. James Hardy Kopes of Harvard university.

He is at Hotel Fontenelle and addressed the University club's noon luncheon on "The Duty of the University Man in the Present Crisis." Prof. Kopes is dean in charge of university extension for Harvard and is that university's western exchange professor, accredited to Grinnell, Colorado, Crliton, Beloit and Knox colleges.

Psychology of It.

"Within a few hours," he said, "the whole country will be boiling with resentment against Germany for fomenting the Mexican-Japanese alliance against the United States. Almost immediately, too, I look for congress to be aroused to the passage of the acts necessary to meet the crisis and be ready for war.

"President Wilson has made public, just at the psychological moment, the document that proves the alarming seriousness of the war crisis. I marvel at his being able to withhold the facts until now.

"In view of the latest facts, the people are sure to awake and join in vigorous support of the administration. They will be ready to respond in all ways for the protection and defense of the country."

Uni Man's Duty.

In his University club address, Prof. Kopes declared that the university man's educational advantages give him certain grave responsibilities, especially in the present serious crisis.

"First," he said, "the university man is able, and it becomes his duty, to realize the meaning of militarism and fight against it. Militarism means that a nation's aim is military glory or swashbuckling, and it also means that military officers are answerable

not to the civil courts, but to the military authorities in the performance of their duties.

"The university man ought also to recognize his capacity for rendering service in the business organization of war, and ought to place it at the nation's command. The commissary, finance and transportation organization of war is of the highest importance and it becomes the university man's duty to help in it, as well as in training to become a competent officer, so indispensable in modern warfare. Over 1,000 students at Harvard are engaged in such training.

"Furthermore, the university man's training makes him able to understand the state of mind of Americans who, because of foreign extraction, relatives and sympathies, do not wholly agree with the true patriotic American in these times of stress. With this understanding, the university man can be firm yet reasonable in attitude and expression. Upon this depends the close union of all Americans in support of our government, a desperate need in case of actual war."

Jews Will Honor Purim, Festive Day of Rejoicing

Purim, a joyous minor festival of the Jews, will be celebrated next Thursday, March 8, in commemoration of their deliverance from imminent destruction, as narrated with dramatic power in the Book of Esther. There will be no formal observance of Purim at Temple Israel, aside from a Purim play which will be given by the post-confirmation class Sunday, March 11, but in orthodox synagogues Purim will be observed by reading the Book of Esther from the traditional scroll.

The spirit of Purim is throughout more social than religious. It is a day of rejoicing, of sending gifts to friends and remembering the poor. Masquerades, plays, cantatas and other entertainments are general in connection with Purim.

An Open Letter to Former United States Senator Mason on Nuxated Iron And His Reply Thereto.

As a pioneer in Pure Food and Drugs Legislation and as a pronounced champion of all bills protecting the rights of the Great Masses of the American People as against trusts and combines, we believe

It is your duty, Senator Mason, to tell the public just what you think of Nuxated Iron and just what benefits you obtained from taking it at 65 years of age, when you were all run down, after the hardest fought political campaign of your life.

You, Senator Mason, are one of the really big men of America—you are a national figure—your work for four years in the United States House of Representatives and for six years in the United States Senate in securing legislation favoring labor and the great masses of people has written your name indelibly among the names of the great lawmakers and statesmen of our country.

Senator Mason, there are thousands of men and women in this country who need something to build them up and give them more strength, endurance, vigor, vitality and energy just like you did, but they do not know what to take—they do not all have your same advantage for consulting physicians and obtaining information on this subject.

When you were on the floor of the Senate you advocated and fought for Pure Food and Drugs legislation because you believed it to be for the good of the people—you were the father of the Rural Free Delivery system for the same reason—and as Congressman-elect for the people of Illinois, you are now advocating the eight-hour working law for the same reason.

Then, Senator Mason, is it not your duty to tell the people just what Nuxated Iron did for you at 65 years of age? No matter whether it is a remedy, a law or what not, if it is for the good of the people is it not your duty to help make it known to them?

WHAT SENATOR MASON SAYS

Chicago, Ill.

I have often said I would never recommend medicine of any kind. I believe that the doctor's place. However, after the hardest political campaign of my life, without a chance for a vacation, I had been starting to court every morning with that horrible tired feeling one cannot describe. I was advised to try Nuxated Iron. As a pioneer in the pure food and drug legislation, I was at first loath to try an advertised remedy, but after advising with one of my medical friends, I gave it a test. The results have been so beneficial in my own case, I made up my mind to let my friends know about it, and you are at liberty to publish this statement if you so desire. I am now 65 years of age and I feel that a remedy which will build up the strength and increase the power of endurance of one at my age, should be known to the world.

Yours very truly, Wm. E. Mason

weak. Then test your strength again and show me how you have gained. From my own experience with Nuxated Iron, I feel it is such a valuable remedy that it should be kept in every hospital and prescribed by every physician in this country."

Dr. E. Bauer, a Boston physician, who has studied both in this country and great European Medical Institutions, says: "There can be no strong, vigorous iron men and beautiful, healthy women without iron. Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20, and a full vigor, vim and vitality as a young man. In fact, a young man he really was, notwithstanding his age. The secret, he said, was taking iron—Nuxated Iron had filled him with renewed life. At 30 he was in bad health; at 45 he was careworn and nearly all—except at 50, after taking Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth."

Dr. Schuyler C. Jeanes, Visiting Surgeon, St. Elizabeth's Hospital, New York, says: "I have never before given out any medical information for newspaper publicity. I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself, and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, vigor and endurance will find it a most remarkable and wonderfully effective remedy."

Dr. S. Alphonsus Wallace, a physician of many years' experience in this country and who has been given many honorary titles in England, says: "I do not make a practice of recommending advertised medicinal products, but I have found Nuxated Iron so potent in nervous run-down conditions, that I believe all should know of it. The men and women of today need more iron in their blood than was the case twenty or thirty years ago. This because of the demoralized diet which now is served daily in thousands of homes and also because of the demand for greater resistance necessary to offset the greater number of health hazards to be met at every turn."

NOTE: Nuxated Iron which was used by Former United States Senator Mason at 65 years of age with such surprising and satisfactory results and which is prescribed and recommended above by physicians in patent medicines both in Europe and America. Unlike the older inorganic iron products, it is easily absorbed, does not irritate the stomach, makes them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 50 who lacks iron, and increase their strength 25 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Sherman's Mechanical Drug House and all good druggists.—Advertisement.

Advertisement for Redden Truck-Maker, featuring the Redden logo and text: "REDDEN TRUCK-MAKER. 10 Decisive Superiorities. Here are the FINAL FACTS that decide how lowest-cost hauling is attained. Place all 'truck attachments' side by side—these are the comparison facts as you'll find them: 1-Redden frame is extra strong—it overlaps Ford frame and bolts through it. This gives increased strength and rigidity. No side extension to allow 'weaving,' which, with other attachments, causes racking and rigidity. 2-Redden castings solid steel, instead of malleable iron, and part for part are larger and stronger than corresponding parts in any competing device. 3-Our hub flanges and wheels are extra heavy, and our tires are over size. 4-The Redden axle is the strongest—a regulation 2-ton axle, 2 1/4 inches square. 5-The 'Redden-Truck-Maker' is the ONLY ATTACHMENT using two shackle-bars; others have but one. 6-The 'Redden-Truck-Maker' is the ONLY attachment with solid steel, swivel jointed radius rods and they are extra heavy. 7-The 'Redden-Truck-Maker' is the ONLY attachment with 5 brakes—there are 2 extra large service brakes on rear hub drums—there are 2 brakes on the Ford hub drums, also the Ford service brake. Other attachments have only 3 brakes. 8-The 'Redden-Truck-Maker' can be attached in less time than any other, and does not necessitate any cutting of the Ford axle. 9-The 'Redden-Truck-Maker' is the ONLY attachment which conforms to the S. A. E. (Society of Automobile Engineers) standards. 10-Backed by manufacturing facilities and financial resources greater than any other concern in the business. If you are interested in keeping delivery costs down to the lowest figure you will take the time necessary to prove up these 10 decisive superiorities of the 'Redden-Truck-Maker.' \$350 and a Ford Makes a Guaranteed 1-ton Truck.
