Feature of Trailing on Board and Closing **Drives.** Chicago, March 6.—Announcements that exports have been much larger than was generally supposed had a good feal to do with substantial upturns which took place in the wheat market today. Closing quo-tations were firm by to 20 Jbc net higher, with May at 8.96% gives, and July at 1.5% pl.0%. Eaclimates that yeniseday's sails to sourd samuanted to 15%,000 bushels were sound alow to be only haif as large as the atundant further bushes in excess of frade conspitations and that opports in January had been 3.38,000 bushes in excess of pride conspitations and that there was no way of teiling how much went all-rail into Canada. Reports of active purchasing in the mouthwest by Minnespolis miliers tonded jurtant ous terengthen the nurks, and so ind did he circumstance that cash pre-minum were the highest yet on the 150,000.

Searcity of wheat for immediate ship-ment was illustrated by the payment of 5.01 a tushes here today for NO. 2 red, such as a bonus of 1140 for spot delivery as against the May option. Goesip that American ships yould after all be either ammed or conveyed, or would otherwise be given some predection from submarines was a factor in making such values a reality. Anothor notable builten influence was the continued disquieting outlook for the do-mestice willier crop. Torm reached a new high level of prices, a result due in pair to a showing of en-larged exposite of corn as well as of wheat Besides, creeping breaking advances in the hog market, carried provisions upward.
