Qualitas quam quantitas. Edholm, Jeweler

To Recruit in Dakota.—A new sub-office of the local navy recruiting station has been opened at Lead, S. D., with John B. Zimmerman in charge.

Kept the Change.—A gray-haired man, shabbily dressed and about 60 years old, stopped at the home of Mrs. A. A. McMahon, 3224 Bristol street, and asked if she couldn't use some fresh farm made hominy. He displayed a well filled bucket of the maize product. She took pity on the old man, purchasing a quart. Having nothing less than \$1, she gave him that and requested that he bring back the change. She reported to the police that he never came back.

One of the Triplets Is Dead.—One of the triplets born to Mr. and Mrs. Tony Scapellato, 1215 Pierce street, died of malnutrition. The dead baby was a girl, named Sebastian.

Thieves Make Big haul—Safety razor blades, 130 dozen of them, were stolen from the Western Druggists' Supply company, 1808 Harney street, by thieves who entered through a rear window. In addition to the blades, the company reported the loss of a number of safety razors, 1,000 cigars, a number of water bottles, a Colts' automatic revolver, \$27 cash and medical sundries.

Live Stock Men to St. Joseph.—A party of something like a dozen of the south Omaha stockmen are en route for St. Joseph, Mo., where they go to attend the annual convention of the live stock commission men of the Missouri valley country. The convention convenes Monday and will continue over three days.

To Show Bird Slides.—Next Saturday evening in the auditorium of the high school building the Audubon association slides will be shown for the benefit of the pupils and all others who desire to attend the exhibition.

Dinner for Chestnut.—Charles Chestnut was tendered a dinner by friends at the Henshaw Friday evening. He has been local sales manager for the Western Electric company and is about to depart for Seattle where he will be district manager.

Count Zeppelin's Body is Removed to Stuttgart for Burial.
Berlin, March 10.—(Via London.)
—The Berlin press is filled with reviews of the life and achievements of Count Zeppelin, who shared with Field Marshal von Hindenburg the honor of national popularity. Count Zeppelin's fame, however, was established when the field marshal was practically an unknown quantity and Berlin today recalls the time not long gone by when airship rides from Düsseldorf to Berlin by way of Hamburg and Bremen were luxurious thrills to be enjoyed at 200 marks a head.

The obituary notices recall the devotion to the realization of his dream, which was not only manifested in matchless perseverance, but only in the sacrifice of his private fortune. The papers recall the emperor's tribute to the count on his seventy-fifth birthday, when he termed him "the greatest man of the twentieth century."

It is also recalled that at the time of the American civil war Count Zeppelin, then 25 years of age, shipped on a French corvette lying in New York harbor with the purpose of reaching the northern lines by way of Baltimore.

Count Zeppelin was ill for less than two weeks and the immediate cause of his death was pneumonia. His death shroud is his favorite Uhlan uniform, in which he was best known to the public. Of the long list of orders and decorations which were conferred on him he was probably proudest of the Iron Cross, which he won in 1870.

The massive oak and metal casket in which he will be buried was sealed this afternoon and taken to Stuttgart, where the funeral will take place.

Trade Commission Thinks Publishers Must Be Cautious
Washington, March 10.—News print paper price arbitration undertaken by the Federal Trade commission will succeed, in the opinion of the commission only if publishers practice the closest economy in the use of paper. Blank agreement forms sent to publishers throughout the country today inform them that to benefit by the price fixing plan they must not only consent to relinquish 5 per cent. of their paper requirements, but must agree to discontinue return privileges and must buy additional paper only to meet the most urgent needs.

The commission expects to go ahead with its plans as soon as enough publishers come into the arrangement to make it practicable. The price fixing proposal, as advanced by manufacturers, will be operative for six months. The commission has set a price of \$2.50, but in its notice to publishers says this price will be tried first for three months and then if found too low, will be readjusted.

To insure that small publishers get paper, the commission is working on a plan under which manufacturers will sell to them first the paper released by large publishers.

Kiel and Connitt Named For Mayor at St. Louis
St. Louis, Mo., March 10.—Complete returns from yesterday's primaries show that Mayor Henry W. Kiel was renominated by the republicans for mayor over Louis A. C. Connitt, with a plurality of 3,457, won the democratic nomination. In the race for comptroller Louis Nolte, republican, and Comptroller James Y. Player, democrat, were the successful candidates with pluralities of 2,389 and 9,160, respectively.

Bootlegger Says He Gave Gill Four Thousand Bribe
Seattle, Wash., March 10.—Logan Billingsley, chief witness for the government in the trial of Mayor Hiram C. Gill and others, charged with conspiracy to violate the United States statutes by importation of liquor into the state of Washington, swore today that he gave a bribe of \$4,000 in bills to Mayor Gill, in the mayor's office on August 30, 1916, and that the mayor turned over to him documentary evidence against Billingsley seized in the latter's drug store.

SOUTHERN PACIFIC
WINS CENTRAL CASE

Court of Appeals Rules It Need Not Sell Control of Line from Ogden to Frisco.

JUDGE CARLAND DISSENTS

New York, March 10.—The Southern Pacific company announced here today receipt of advice that the United States circuit court of appeals at Salt Lake City had rendered a decision in favor of the Southern Pacific in the suit of the government to compel the company to sell its control of the Central Pacific railway.

The opinion in the case was written by Judge Hook, it was said, Judge Sanborn concurring and Judge Carland dissenting.

The suit was brought in February, 1914, the government alleging that the operation of the two roads under the same management resulted in a violation of the Sherman law and of what is known as the Pacific railroad law passed by congress in 1862, designed to provide continuous connected lines from the Missouri river to the Pacific coast with equal advantage to all other roads.

"Conditions complained of by the government had been in existence for over thirty years," said J. P. Blair, general counsel of the Southern Pacific, in commenting upon the decision. "The communities which would have been injured if a violation of Sherman law was involved had never complained and testified that they were perfectly satisfied, and the Union Pacific, which would have been aggrieved if there should have been a violation of the Pacific railroad act, had never complained and was perfectly satisfied."

These I. W. W.'s Employ

Awful Language, He Says

Seattle, Wash., March 10.—Men on the steamer Verona, fired the first shots in the pistol battle at Everett, Wash., last November 5, between members of a free speech expedition, sent there aboard the vessel by the Seattle headquarters of the Industrial Workers of the World and members of a sheriff's posse on the dock, according to the testimony of Harry W. Shaw, a member of the posse, at the trial in the superior court here today of Thomas H. Tracy, who is alleged to have been one of the leaders of the expedition and who is charged specifically with the murder of Deputy Sheriff Jefferson Beard, one of the posse.

As the boat neared the dock men in the bow were singing and shouting. When it drew alongside, McRae, the witness said, shouted: "Who is your leader, boys?" Several men replied loudly: "We are all leaders by G—!"

The manner of the men Shaw asserted, was belligerent. The sheriff told them that their coming was unlawful and that they could not land. "The h— we can't!" came in a chorus from the boat, said the witness.

Children Play Truant to

Play in Moving Pictures

New York, March 10.—Investigation of absence of children from several of the city's schools has disclosed that some of the pupils are earning large salaries for acting in moving picture studios in New Jersey. It developed in court today when the Board of Education instituted legal action against the children's parents. One woman received \$30 a day for the services of six children, according to the investigators, and other boys and girls are earning from \$60 to \$75 a week.

Mrs. Margaret Hicks of Cleveland, admitting in court today that her 12-year-old daughter, Maxine, had been away from school here for twenty-nine days, said the child was receiving \$75 a week. Upon her promise to have a private tutor instruct the girl, the case was put over until March 30.

Unfilled Orders for

Steel Exceed Record

New York, March 10.—The unfilled orders of the United States Steel corporation on February 28 were 11,576,697 tons, breaking all previous records. The figures showed an increase of 102,643 tons over the report for January 31, last. The previous record was that for December 31, 1916, when the unfilled orders stood at 11,547,286 tons.

HEALTH TALKS

(By Dr. Burhorn.)

Chiropractic (pronounced Ki-ro-prak-tik), from the Greek word Kiro, signifying hand, and Pratik, meaning practice, is the science of locating the cause of disease and the art of removing same by adjusting the spinal vertebrae, which relieves pressure on the impinged nerve.

Chiropractic means adjusting by hand and nothing more.

The human body in normal condition is a perfect machine. As long as each part maintains a proper relation to every other part and is supplied with abundant nerve power, the result of its activities cannot be other than that of health.

In the face of criticism, interference and opposition, it is overcoming all obstacles because it is right. If it had no merit it could not survive, and being right it offers to all the opportunity to investigate its claims and study its works and methods.

The sick are not greatly interested in theories, but in anything that will make them well—a little inquiry will undoubtedly show that the good results claimed for Chiropractic adjustments can be accomplished in ninety-five per cent of human ailments without the assistance of any means except the Chiropractor's bare hands.

Consultation is free. Adjustments, \$1.00.

ST. PATRICK'S Day Novelties

Don't forget that St. Patrick's day is next Saturday and "that dinner" or "that party" will not be a success without some special St. Patrick trim.

Among some of the attractive novelties shown at Burgess-Nash are:

Jack Horner pies, containing 12 party favors; also desirable for table centerpieces.

Table covers, place cards and small table favors—all "a-wearin' of the green."

Satin-covered candy boxes in fancy shapes.

Burgess-Nash Co., Stationery Section.

CONGENIAL Employment for Capable People

In order to handle the steady increase of business in this store we need the services of intelligent, capable people.

Our Welfare Association is prepared to see that new employees coming from out of town are located in congenial surroundings and that their amusement and welfare is provided for.

We are doing everything to make the working conditions of our employees as near ideal as possible.

Just now we have openings for a number of salespeople. We also need bundle wrappers over 18 years of age.

A Display of Apparel that correctly foreshadows the coming vogue in

Coats, Suits, Dresses, Skirts

Awaits You at Burgess-Nash

EVERY day new additions to an already large and varied assortment of ready-to-wear arrive from the leading fashion creators.

The matron, the miss, the junior, the traveler or the "stay-at-home" alike will find correct, smart and appropriate apparel at moderate prices featured at Burgess-Nash.

New Coat Fashions

\$14.75, \$16.75, \$19.50, Upward
