Omaha Lid Still on, Wouldbe Oases Are Dried Up Suddenly

Omaha was a veritable desert Sunday. Seven places in Greater Omaha, 6 o'clock Sunday evening that beer tempted to bloom as oases, were dried up in quick order by the moral squad. Two places were raided as alleged disorderly houses.

Central station received a call about 6 o'clock Sunday evening that beer was for sale at 2007 Pierce street. Detectives Walker and Barta were sent to investigate. Knocking at the door, someone inside yelled, "try the other one." They did and arrested Frank Pevitore, proprietor and three inmates. Among those arrested was Amelia Smith, 1711 Leavenworth street, dressmaker. With her was Henry Barnes, Florence, 18 years old, who claimed to be her nephew. Officers seized several glasses which had been just filled with beer. Barnes will be turned over to the juvenile authorities.

At 9 o'clock, the morals squad raided Jesse Tailor's place, 1719 Charles street. Three inmates were arrested. She was charged with running a disorderly house.

At 3:40 Sunday morning, the Grand hotel was raided. Frank Kelley, clerk, and four inmates, one man and three women were taken to jail. The Grand hotel has been raided three times in the last two weeks.

Police to the Rescue Of Sheriff Clark

For half an hour Sunday evening Sheriff Clark tried in vain to make telephone connections from his home with the county jail. Fearing that the prisoners had broken out and cut the wires, he telephoned to the city jail, which sent two emergency cars loaded with officers to see what was wrong.

When the officers surrounded the building and were unable to attract the attention of the jailers and deputies upstairs, they became certain that something terrible had taken place.

Finally Sheriff Clark called up the station and said that he had located the trouble and had been able to communicate with the jail. The trouble was due to a "shot" battery.

Labor Makes Expression On National Defense Plans

Any specific declaration on such problems as universal military service are to be left to the conference and some leaders here today expressed the belief that there would be no action taken on details of any suggested national defense problem. More than 3,000,000 wage earners will be represented at the meeting.

Raiding Squad Pulls Six Alleged Disorderly Houses on South Side.

BONDS AMOUNT TO $1,200

Sergeant Hank Carey and a raiding squad composed of Detectives Allen and Zaloudek made six raids on alleged disorderly houses Sunday morning and afternoon. A total of fifteen inmates beside the six keepers were brought in and "booked" on the police blotter. Bonds for Saturday and Sunday released prisoners amounted to exactly $1,200 up to 11 o'clock last night.

The first raid was made at 8:30 a. m. on a saloon at Twenty-fifth and H streets. The place was in charge of Raymond Cottner, a bartender. Kearney Wants Capital Location Put to a Vote

Kearney people want a new state house, but they also want submitted to a referendum the question of its location. This is gained from the following telegram sent out from there last night:

"We favor building a new capitol for Nebraska. Its necessity is obvious. We heartily endorse the provision of a levy which would accumulate what the Richmond bill calls for. We are unqualifiedly against the sidestepping measure of the house finance committee for a levy which will raise but $700,000. We favor a capitol commission as set out by the Richmond bill. But the people of Nebraska should decide the location by a referendum. Wire your representative if you agree with us. Action must be taken immediately.

"We are sending this message to all the commercial clubs in the state, which belong to the state organization, in the belief that the business men will stand by the principle of the referendum."

Captain Fritzen Said to Be On Way to New York

Los Angeles, Cal., March 12.—Captain Albert Fritzen, German naval officer, was removed early yesterday in custody of federal officers from the city jail, where he has been held since his arrest last Friday, according to jail attaches, and had not been returned early today, so far as could be learned.

Inquiries at the county jail, where federal prisoners usually are held, met with the statement that "Fritzen had not been brought there."

Federal officers refused to discuss a rumor that Fritzen was being taken to New York, where he was indicted April 17, 1916, in an alleged conspiracy to destroy the Welland canal.

Autos Pass by Helpless Man Lying in the Street

A. J. Love of the insurance firm of Love & Haskell, living at the Blackstone, fell in the street at Fortieth and Harney streets with an injured knee late last night. He yelled at passing autos for help, but none stopped, though half a dozen sped by. Calls came to the police from people of the neighborhood that a man was creating disorder in the street. The officers investigated and found Love. He was taken to a hospital. Mr. Love wrenched his knee in an auto accident about a year ago and it was this knee which gave way again last night.

Case of Eggs Too Tempting To Man Boycotting Them

H. E. Payne, 504 South Tenth street, quit eating eggs when the high prices went into effect. He walked past the Union depot Sunday afternoon and there was a case by the building. Having boycotted the delicacies for such a long time, he just yearned for eggs, fried eggs, cooked eggs any old kind of eggs. He took the case and started home. An officer saw him and brought him to the station before he could gratify his desire.

Norris Says His Action In Senate Not Filibuster

Philadelphia, March 12.—United States Senator Norris of Nebraska, the principal speaker at a "fair play and free speech" mass meeting here tonight, declared he did not consider his action in the closing hours of the senate a filibuster against the armed neutrality bill.

"I wanted first," he said, "to see the senate appropriation bills passed, and if talking about the expenditure of over $100,000,000 was a filibuster, then I suppose I am guilty."

Bull Moose Chief Wants to Form League of Liberals

New York, March 12.—Announcement that negotiations are under way with progressive republicans and democrats, prohibitionists, socialists and representatives of other parties "to meet with a committee of progressives and discuss plans for the formation of a league of liberals," was made today by Matthew Hale, acting chairman of the progressive national committee, in issuing a call for a convention of enrolled members of that party in St. Louis April 12, 13 and 14.

Food Card System Aids In Tracking Criminals

Berlin, Feb. 26.—The food card system in Germany, however much of a nuisance it may be for housewives, has materially aided the police and military authorities in one respect. It has just occurred again—a thing that had often occurred before—that a man wanted in connection with a crime surrendered himself to the police because he had found it impossible to get enough to eat without a set of cards, and these he could not obtain without registering himself at the police station of his precinct.

HUGE FOUNT OF KNOWLEDGE

Bubbles Officially at Washington and May Be Had for a 2-Cent Stamp.

Do you want to know the height of the tide at Hong Kong on January 15, 1918, at 9 a. m.? Do you want to know how to build a rabbit hutch? Do you want to know the depth of the water in any lake, even of the alleged "bottomless" lake, which almost every state claims to possess? Do you want to know the safest way of handling gasoline? Do you want to know the best books to read on Shakespeare? Do you want to know how to cook oysters and fish in dozens of palatable ways? Do you want to know how to sell grapejuice in Madagascar or hacksaws in Singapore? Do you want to raise fish on your farm for profit, or terrapin, or frogs? Do you want to know how to sell vegetables, butter, eggs and apples by parcel post? Do you want to know what to do with the waste wood of your sawmill? Do you want to know how to keep books? Do you want to know the best kind of a boiler to put in your factory? Do you want to know the best plumbing system for your country home?

Ask ten thousand, even a million, such questions, and let them be never so bizarre in form or selfish in motive, and your Uncle Sam picks up his pen and answers them for you patiently, adequately and correctly. * * *

Uncle Sam unites in himself many lawyers, doctors, astronomers, biologists, bacteriologists, agricultural experts, foresters, chemists, geologists and other scientists. He has 10,000 eyes, ears, hands and brains.

I have asked the government how many birds there are on the Tortugas Keys of Florida; what is the best method of making a house earthquake proof; whether Cervantes is a greater satirist than Swift; how to make a volcano run a steam engine; whether our Indians are of Asiatic origin or not; and how the hieroglyphs of Yucatan ruins are to be interpreted.

Always there came a reply, very formal, very concise and very informative. Uncle Sam is as ceremonious in his dealings with you as if you were royalty itself. It is never "Dear Bill" or "Beloved Andrew" with your Uncle Sam, but always "Sir." A scratch of your pen and a 2-cent stamp is the "open sesame" to an immense store of knowledge, which is painstakingly gathered by an army of men stationed in all parts of the world and which is distributed gratuitously or at cost price.—McClure's Magazine.

To Avoid Dandruff

You do not want a slow treatment for itching scalp when hair is falling and the dandruff germ is killing the hair roots. Delay means—no hair.

Get, at any drug store, a bottle of zemo for 25c or $1.00 for extra large size. Use as directed, for it does the work quickly. It kills the dandruff germ, nourishes the hair roots and immediately stops itching scalp. It is a pure, reliable, antiseptic liquid, is not greasy, is easy to use and will not stain. Soaps and shampoos are harmful, as they contain alkali. The best thing to use for scalp irritations is zemo, for it is safe and also inexpensive.

OVER TEN MILLION FALL IN THE WAR

Table of Losses Show Allies to Have Suffered Almost Twice as Heavily as Foes.

RUSSIA THE HARDEST HIT

Washington, March 12.—More than ten million men are recorded as killed, wounded, captured or missing, in the European war in the first complete tabulation of official and authenticated semi-official reports of the various belligerents received here.

Among the military proper 4,441,200 are reported dead; 2,598,500 wounded, and 2,564,500 captured and missing. Among civilians, especially on the Russian and Balkan frontiers in Armenia another 400,000 are figured as either dead or wounded through the war.

Figures Not Exact.

These figures are admittedly only approximate and in some instances necessarily several weeks old. They are not called exact in any sense, but are known to be so nearly so as to give a fairly reliable picture of the war's results.

They depend for their accuracy first, on the official reports of the various belligerents which are certainly minimum figures and then on a careful rechecking with all available authentic information.

Allies Lose the Most.

The entente's losses are given as 6,318,400, as against 3,384,800 for the central empires. One reason for the great discrepancy between the two is believed to be the relative unpreparedness of the entente, the disastrous retreats in France at the beginning of the war, in Russia from the Mazurian lakes and the Carpathians and in Roumania.

The entente's dead total 2,890,400, against 1,550,800 for the central powers; the entente's wounded total 1,676,500, against 922,000 for their enemies, and their captured and missing 1,652,500, against 912,000 for the central powers. These losses are based upon the assumption that in Germany 90 per cent of the total wounded return to the front and 80 per cent in all the other countries.

Russia Greatest Sufferer.

Russia is infinitely the heaviest loser so far, with a grand total of 3,084,200 men. The bulk of these losses occurred in the Mazurian lake disaster and the two retreats from the Carpathians, when prisoners were taken by the tens of thousands.

Moreover, lack of communications and hospital facilities have made the death rate in Russia extraordinarily high. Their dead total 1,500,000, their wounded 784,200 and their prisoners and missing 800,000, which is said to be much lower than the probable number.

France has suffered the second highest casualties with a total of 1,810,800, largely because of the early retreat to the Marne and the terrific losses in the defense of Verdun. Its dead total 870,000, wounded 540,000 and missing and captured 400,000, though this last figure is believed here to be improbably light.

England's total falls far below, being about one-third of France's, and one-sixth of Russia's, owing, of course, to its late sending of a continental army. From now on, however, its losses are expected to keep fairly close to those of the French, who have seriously felt the drain on man power. England's total comes to 513,400, with 205,400 dead, 112,500 wounded and 107,600 captured and missing.

What It Cost Roumania.

Roumania, though entering the war only last summer, has lost 500,000 men through its fatal attempt to cross into Transylvania when the central powers were outflanking it through the Dobrudja. Its dead are given as 100,000, wounded as 150,000 and captured and missing about 250,000.

Italy has been saved from extreme casualties through the impossibility of open operations on its mountainous frontiers. Its total reaches 209,000, including 105,000 dead, 49,000 wounded and 55,000 captured and missing.

Belgium's Casualties.

Belgium and Serbia, the two smaller states overrun by the German machine after desperate resistance, have both lost very heavily in proportion to population. Belgium's casualties come to 112,000, with 50,000 dead, 22,000 wounded and 40,000 captured and missing. Serbia's dead come to 60,000, its wounded to 28,000, making a total of 88,000 with the number of missing and captured large, but unknown.

Germany, among the central empires, is given as by far the largest loser, its total casualties being 1,585,200, or 225,000 less than France's. Its dead come to 891,200, which is slightly higher than France's, while its wounded are set at 450,000 and its captured and missing 245,000, proportionately the lowest of the nations.

Heavy Losses in Dead.

Germany, because of its fighting on interior lines, without having suffered a bloody retreat and with highly efficient medical service, has lost very few in captured and wounded, but its offensives have led it into heavy losses in dead. Nearly one-third of its losses are estimated to have been suffered around Verdun.

Austria is only slightly less heavy a loser than Germany, with a total of 1,469,100. Its dead, however, only number 523,100 and its wounded 355,000. Its captured and missing run up to 591,000, owing to the heavy losses of prisoners in the two retreats before the Russians.

Turkey Heavy Loser.

Turkey also has been a heavy loser, having a wide sweep of front from Gallipoli through Syria, Arabia, Mesopotamia and Armenia with serious pressure from British, Russian and native armies. Its total is given as 307,000, with 127,000 dead, 110,000 wounded and 70,000 captured and missing.

Bulgaria is the smallest loser, with the meager total of 20,500, largely because the Serbian campaign was won merely by the threat of its entrance into the war. Its dead total 7,500, its wounded 7,000 and its captured and missing 6,000.

Special Election to Name Successor to Sulloway

Manchester, N. H. March 12.—Political circles here generally expect that a special election to fill the place made vacant by the death in Washington last night of Congressman Cyrus A. Sulloway, will be called early in April to enable the new congressman to participate in the organization of the house for the special session April 16. Mr. Sulloway had represented New Hampshire in congress for twenty years. He was a republican.

FOR CATARRH-CATARRHAL DEAFNESS OR HEAD NOISES YOU SHOULD TRY PARMINT

If you have Catarrh, Catarrhal Deafness or Head Noises caused by Catarrh, or if phlegm drops in your throat and has caused Catarrh of the stomach or bowels you should secure proper treatment at once. Don't neglect Catarrh! Don't let it make you into a worn-out, run-down Catarrhal wreck.

Remember Catarrh is more than a trifling ailment—more than a disgusting disease. It's a dangerous one. Unchecked it frequently destroys smell, taste and hearing. It clogs the nostrils and slowly but surely undermines the general health.

Sprays, salves and inhalers may bring you a temporary relief, but permanent results can only come from a constitutional treatment that will expel the Catarrhal poisons from your system.

If you are a victim of Catarrh and have not been able to find relief from your trouble, go to your druggist today and get an ounce of parmint, about 75c worth, take this home and add to it four ounces of sugar and ¼ pint hot water. Take a tablespoonful four times a day. It acts upon the blood and mucous membrane and has brought relief to those who thought there was no help for their trouble. Parmint has been used in the treatment of Catarrh throughout Europe for many years. A recent canvass of the American druggists shows that it is now being extensively used in this country, where it is producing satisfactory results even in localities where Catarrh is most prevalent.

To be able to breathe freely, to hear plainly, smell, taste and arise in the morning refreshed and strong and with head and throat free from phlegm are conditions that you should strive to secure.

For your own sake give Parmint a trial. Certainly you cannot enjoy and get the good out of life that you are justly entitled to so, long as you are afflicted with Catarrh.

Start with Parmint NOW, today. It may bring you a relief and give you a wider margin of health than you thought it possible to obtain.

Parmint is sold and recommended in this city by all first class druggists.—Adv.
