A popular member of the executive committee of the Fine Arts society is mentioned as the most probable candidate and that Mrs. Ward Burgess will continue as chairman of the exhibition committee next year is more welcome news, especially in view of the fact that next year the society will devote itself more fully to bringing an exhibit to Omaha, rather than an extensive lecture series. Besides the 300 paintings in the Franco-Belgian exhibit which will be shown here about April 20 under the direction of Mrs. Burgess, many pieces of sculpture will also be exhibited.

Mrs. Frederick H. Cole, General Federation chairman of civil service reform, will attend the council meeting at New Orleans, April 9 to 14. En route south Mrs. Cole will stop in Chicago to attend sessions of the Civil Service Reform association, on invitation of the president, William B. Hale.

**Casualty Building Sale Confirmed by Court Order**

Judge Day of the district court has confirmed the sale of the National Fidelity and Casualty company's building at Twelfth and Farnam streets to Reese Wilkinson of Lincoln. The building was sold to the highest bidder by the state insurance board to wind up the affairs of the company. It brought \$65,250. Some time ago the building was sold for \$45,000, but Judge Day refused to confirm the sale. Attorney General Reed and Auditor Smith filed the report of the sale as members of the state insurance board.

**Strike Hits Cupid's Plans For Railroaders' Union**

Because of the threatened railroad strike Elmer Lobb, fireman for the Missouri Pacific, could not get away even for an hour to take out a marriage license. The day of the wedding had been set, so the bride-to-be, Daisy Dixon, explained the situation to "Cupid" Stubbendorf, marriage license clerk, who gallantly issued the necessary certificate to her. The Lobbs will do their domestic railroading at 622½ South Nineteenth street.

# I Chose from the Dominant Ten

**I Based My Choice of Motor Trucks on Specifications**

My search was for strength---economy---high service achievement---durability---specialized mechanical development. Big buyers whose individual orders range from one to fleet equipment, who buy on proved specifications, confine their choice to ten big dominant manufacturers.

C. W. Francis.

**Definite Features of Advantage** And even among the ten dominant manufacturers, SERVICE trucks stand out with certain very definite features of advantage—the result of the most exhaustive investigation of motor truck requirements.

**Six Chassis---One to Five Tons** SERVICE motor trucks are designed in six chassis sizes. Each is as individual as though it were the only model built—each is refined—developed—individually built for the work it has to do.

**20% Super-Strength** Among the dominant ten manufacturers whose product finds biggest use among careful buyers, SERVICE Motor Trucks stand out with 20% super-strength. Frame, springs, motor, worm drive construction—the truck throughout shows super-efficiency—super-strength—super-development of manufacturing ingenuity. Yet with this super-strength—this super-design—SERVICE motor trucks are notably light, adding to wonderful road stamina, real remarkable economy.
