

FIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

To Relieve Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed.

Persons who are troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness.

Secure from your druggist 1 oz. Perminol (Double Strength), about 15 cents worth. Take this home and add to it 1/4 pint of hot water and 1 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Perminol is used in this way not only to relieve the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form should give this recipe a trial.—Adv.

MOVIE ACTRESSES AND THEIR HAIR

Did it ever occur to you that every movie actress you have seen has lovely hair, while the most popular curlers of their curls are their chief beauty?

In fact, many are leading ladies just because of their attractive locks. In inquiry among them discloses the fact that they bring out all the natural beauty of their hair by careful shampooing, not with any soap or make-up, but with a simple mixture by putting a teaspoonful of catrox (which they get from the druggist) in a cup of hot water and applying this instead of soap.

This full cup of shampoo liquid is enough so it is easy to apply it to all the hair instead of just the top of the head. After its use, the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. The hair is so fluffy that it looks much heavier than it is, while its luster and softness is delightful.—Advertisement.

Alkali Makes Soap Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Advertisement.

A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole

And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain.

Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest (it often prevents pneumonia). Nothing like Musterole for croupy children. Keep it handy for instant use.

MUSTEROLE

ALLCOCK PLASTERS

The World's Greatest External Remedy. Rheumatism, Lambo Back, Any Local Pain.

Timber Wolves Kill Colt.

Lyons, Neb., March 19.—(Special.)—A valuable colt, belonging to Clinton Phillips, who lives north of town, was killed by two large timber wolves last week.

Nebraska TODAY IS CAPITOL DAY IN HOUSE

Final Vote on Proposition to Build One Wing Will Be Taken During Day

SOME PREFER OTHER PLAN

(From a Staff Correspondent.) Lincoln, March 19.—(Special.)—Tuesday will be state house day in the lower branch of the Nebraska legislature and the proposition of a new state house will be voted on.

As the house recommended the bill for passage in committee of the whole by a vote of 38 to 37 there is not much danger but what it will go through, although it is rumored that some of the members, who voted for it for third reading may change and vote against it on final passage.

However, it is known that some who voted against it in committee of the whole have said that as it appears to be the sentiment that a new state house has got to come soon, they may vote for the bill in its present form, though they are not exactly satisfied that the wing can be erected and the other part joined on successfully.

They do not like the "piecemeal" proposition of building the state house and would prefer to vote for an appropriation large enough to build the building all at one time.

Speaking of the matter this morning, Representative James Craddock of Douglas, who is an architect and who has had a great deal of experience in matters of this kind, said that there was nothing to be feared along the line of inability to make a success of the matter of building the new building.

"The members who fear that the building might not be joined together successfully if built in sections," said Mr. Craddock, "should get over that idea. It is only necessary to call attention to the building of additions to the Lincoln postoffice building, the Omaha high school building and many other buildings in this state. One can go and examine those buildings today and would never be able to discover where they had been joined or that they had ever been built except all at one time."

Resolution by Howard.

However, there may be a chance for Senator Norris to get before the legislature as Jerry Howard offered a resolution this morning empowering the chief clerk of the house to send a letter of invitation to the senator to address the house.

The resolution was as follows and was adopted: "Whereas, it seems that the general public has no means of their own, thereby permitting others to do their thinking for them—particularly the commercial class, alias the captains of industry, and

Whereas, an independent patriotic American citizen is being misled and misled by the organs of the commercial interests for performing his sworn duty as he sees it.

Therefore, I move that the chief clerk be instructed to invite Hon. G. W. Norris, United States senator, to address the members of this house on an early day as possible. JERRY HOWARD.

All House Bills in Hands of Standing Committees Killed

(From a Staff Correspondent.) Lincoln, March 19.—(Special.)—All house bills in the hands of standing committees at noon today, 200 or 300 of them, became indefinitely postponed under the Regan blanket resolution last week.

Just whether any of them are really of much consequence remains to be discovered when the matter is a little older.

The house unanimously concurred in the action of the senate in adding the emergency clause to the bill passed appropriating \$1,200 for the State Railway commission to pay expenses of the car shortage investigation.

The emergency clause was defeated a week ago by the same body.

First Municipal Show Given at North Platte

North Platte, Neb., March 19.—(Special.)—Two thousand persons crowded the auditorium in the Franklin building here—Nebraska's finest junior high school building—for North Platte's first municipal entertainment.

The program consisted of readings, instrumental and vocal solos, music by a male quartet and by the high school girls' glee club, and a short address by a member of the Board of Education.

So enthusiastic was the audience's reception of the program that a series of municipal entertainments, to occur fortnightly, are being planned. The next entertainment will be an old-fashioned spelling bee between teams of men and women.

Table Rock Notes.

Table Rock, Neb., March 19.—(Special.)—Worrd has reached here of the recent death at his home in Lebanon, Kan., of James A. Adams, aged 66 years, who was well known in this vicinity.

For many years Mr. Adams and his wife were proprietors of the Abell house, Table Rock's first hotel. He moved from here to Smith county, Kansas, in 1884.

Mr. John E. Baker and Miss Ida Ellen Taylor, daughter of Mr. and Mrs. S. B. Taylor, were united in marriage at the Methodist church in Table Rock. Rev. S. E. Taft officiated.

Mrs. James Karas, sr., aged 70, died at the family residence three miles south of Table Rock on Thursday. She had lived on the farm where she died for more than two score years, and is survived by a host of children and grandchildren.

Robert N. Crawford, a pioneer resident of the Violet vicinity for more than forty years past, died as a result of a paralytic stroke at his last residence a couple of days ago. He was a farmer and grain dealer at Violet.

Notes from Beatrice.

Beatrice, Neb., March 19.—(Special.)—Miss Edna Mosby of Adams died at her home east of that town Saturday, after an illness of over a year, aged 22 years. She is the daughter of Mr. and Mrs. David Mosby, old residents of the Adams vicinity.

A meeting of the Lincoln district of the Platt river conference will be held Monday, Tuesday and Wednesday at the Zion church, near Wymore. A number of ministers of the state will appear on the program.

David Dunn and Mrs. Daisy Cross, both of this city, were married here Saturday by Rev. Edward Kurth of the German Lutheran church.

A new telephone company is being organized at Odell. More than 100 telephones of the old company have been ordered out and the sum of \$2,500 has been so far subscribed for the new company.

NO REFERENDUM FOR MR. NORRIS

Governor Finds No Law for Special Election to Vote On Senator.

MAY ADDRESS THE HOUSE

(From a Staff Correspondent.) Lincoln, March 19.—(Special.)—Governor Neville will not call a special election to give Senator George Norris a chance to discover whether the people of the state approve his action recently in joining the filibuster to prevent action on President Wilson's request for the right to arm American ships.

He sent the following wire today to a New York paper in answer to the inquiry as to the calling of a special session: "Senator Norris has ample facilities for determining whether his action in preventing a vote upon the president's armed neutrality bill meets with the approval of his constituents or not. I shall not burden the people of Nebraska with a special election at his suggestion."

No Law For Election.

The governor believes that the senator has ample opportunity to find out through the press and the public whether the filibuster of the "wild twelve," was according to the best interests of the country.

There is no law in this state empowering the governor to call an election that an official may discover whether his action is according to the ideas of the people or not, and besides if there was such a law the cost would be so heavy as to be practically prohibitive unless a special appropriation was made by the legislature for that purpose.

Resolution by Howard.

However, there may be a chance for Senator Norris to get before the legislature as Jerry Howard offered a resolution this morning empowering the chief clerk of the house to send a letter of invitation to the senator to address the house.

The resolution was as follows and was adopted: "Whereas, it seems that the general public has no means of their own, thereby permitting others to do their thinking for them—particularly the commercial class, alias the captains of industry, and

Whereas, an independent patriotic American citizen is being misled and misled by the organs of the commercial interests for performing his sworn duty as he sees it.

Therefore, I move that the chief clerk be instructed to invite Hon. G. W. Norris, United States senator, to address the members of this house on an early day as possible. JERRY HOWARD.

Appropriation Bills Go Through in Lower House

(From a Staff Correspondent.) Lincoln, March 19.—(Special.)—Consideration of the hog cholera serum bill with the idea of passing a bill which would stand the test of the courts was a part of the work of the house today. The bill will be considered further.

Another bill requiring crates for transporting chickens to be so constructed that the birds cannot stick their heads up through the top or their feet through the bottom was ordered to third reading.

The bill to buy 137 acres of land for the Norfolk insane asylum was favored. The steam roller ran over Chairman Reichick of the finance committee, as it had a habit of doing recently, and the measure was ordered engrossed for third reading by a vote of 51 to 16. The bill was killed a few weeks ago, but afterward reconsidered and now it goes to third reading.

The bill calling for a constitutional amendment permitting state ownership of stock yards was resurrected, but before it can come up for consideration it must run the sifting committee race.

HYMENEAL.

Wilcox-Pauble.

Sidney, Neb., March 19.—(Special Telegram.)—Max Wilcox, who is associated with his father in the publication of the Bridgeport News Blade, and Miss Mae Pauble of Sidney, were married here last night. Mr. and Mrs. Wilcox have gone to St. Paul to visit Mrs. Wilcox's parents.

Plattsmouth Nominations.

Plattsmouth, Neb., March 19.—(Special.)—At the city primaries last evening the democrats voted in nominating John P. Satter, the present incumbent, for the office of mayor; Jesse Warga for city clerk and H. M. Soennischeon for city treasurer, while the nominees for councilmen were as follows: M. Maury, First ward; M. Bajack, Second ward; J. M. Varniron, Third ward; John Lutz, Fourth ward; William Shay, Fifth ward. The republicans placed in the field C. A. Rawles for mayor, G. R. Sayles, city clerk; W. R. Egenberger, treasurer. The aldermanic ticket was as follows: William Schmitman, William Tabor, J. W. Holmes, George Luschnsky and John R. Beason, respectively. C. A. Rawles was the chairman of the Cass county dry movement.

Tecumseh Boy Goes to Annapolis.

Tecumseh, Neb., March 19.—(Special.)—Henry Jung of Tecumseh, who has received an appointment to Annapolis, has passed the examination and will enter the academy. Mr. Jung is a recent graduate of the Tecumseh high school, and has been teaching a rural school.

Are You Worn Out?

Does night find you exhausted—nerves unsettled—too tired to rest?

SCOTT'S EMULSION

is the food- tonic that corrects these troubles. Its pure cod liver oil is a cell-building food to purify and enrich the blood and nourish the nerve-centers. Your strength will respond to Scott's Emulsion—but see that you get SCOTT'S.

Scott & Bowne, Brooklyn, N.Y.

TALKED TO SALESMANSHIP CLUB LAST NIGHT.

F. L. WILLIAMSON.

F. L. WILLIAMSON.

COUNTY ATTORNEYS GET SLIGHTLY MORE

Some in Smaller Counties Benefitted Under Bill Agreed To

COUNTY JUDGE TERM SAME

(From a Staff Correspondent.) Lincoln, Neb., March 19.—(Special.)—The house spent considerable time today on a bill to raise the pay of county attorneys, sending it to third reading, amended beyond recognition. Very few county attorneys will be benefited. Those who will are as follows:

In counties of from 6,000 to 12,000, pay raised from \$800 to \$900; counties of from 12,000 to 16,000, from \$850 to \$1,000; counties of 16,000 to 18,000, raised from \$1,100 to \$1,200.

The house declined to approve a proposed constitutional amendment lengthening the term of county judges from two years to four years, although it had previously passed a bill giving other county officers, by statute only, a quadrennial tenure.

Messrs. Radke, Peterson and Flansburg tried vainly to have it raised over the adverse report of a standing committee.

Change in Mileage.

Because the legislature of 1915 increased the mileage allowance of sheriffs from 5 cents to 10 cents, the house voted to do the same for county superintendents when they travel around visiting rural and village schools. The bill was sent to third reading.

A bill requiring the owners of garages and repair shops to keep a record of automobile numbers and owners, which was said to have the backing of the state sheriff's association and automobile clubs, received the O. K. stamp of the whole committee. It carries a maximum penalty of two years in the penitentiary or \$500 fine, or both, for violations. The purpose is to aid in detecting thefts of automobiles.

State-Owned Elevators.

Nobody had a word to say, one way or the other, on the McAllister bill for a constitutional amendment permitting the state to establish and operate terminal grain elevators, and it was advanced to third reading.

Cities of 1,000 to 5,000 population are authorized to create sewer districts and make the improvements at the cost of property benefited, under the terms of H. R. No. 358, which was placed on the third reading calendar.

Senate Money Used Up; Employees Minus Funds

(From a Staff Correspondent.) Lincoln, March 19.—(Special.)—The ghost failed to walk last Saturday night and the pocketbooks of the senate employees are empty.

This is all because there is no more money in the senate coffers. It has all been spent. The employees must eat and some of them must sleep, but if something is not done soon to alleviate the condition there will be no eating and mighty little sleeping.

Where the money will come from nobody knows.

IMPORTANT Court Decision

Liquor Question

There seems to be some uneasiness felt by consumers regarding the effect of the prohibition law so far as it would make unlawful the having on hand after May 1st of more than a certain limited quantity of liquors, such as may be provided for in a legislative act yet to be passed.

In this connection it is of interest to consider a decision rendered by the Supreme Court of the state of Washington on July 5th, 1916, in a case where a banker of Seattle, Washington, had in his possession at his home for his personal use a greater quantity of liquors at the time the Washington prohibition law became effective than the law provided for.

The sheriff seized these liquors under authority or approval of the Superior Court of King County.

The accused, John C. Eden, appealed to the Supreme Court of the State in an action known as "State vs. Eden, No. 13428."

The Supreme Court reversed the lower Court and ruled that since the liquors were lawfully acquired before the prohibition law went into effect, and were not held by the accused, as shown by the evidence, for any unlawful purpose, but only for his own use, he was not guilty of any offense. The Sheriff was ordered to return them to the defendant.—Advertisement.

FOX HEALTH BILL PASSES IN HOUSE

Members Discuss Measure, Which Creates Advisory Board of Physicians.

REORGANIZES THE WORK

(From a Staff Correspondent.) Lincoln, March 19.—(Special.)—Discussion of House Bill No. 170, the Fox bill reorganizing the State Board of Health, took up most of the afternoon session of the house. The measure was finally ordered engrossed for third reading.

Going After Carr.

Mr. Waite of Lancaster county, a political friend of E. Arthur Carr, said he surmised that the bill was introduced largely for the purpose of "getting somebody's goat." Whose goat it was he did not state, but everybody understood. Waite declared himself opposed to legislating for reasons of "petty spite," or "personal politics."

He also denied that Nebraska ranks next to fourth place from the bottom in health matters, as had been claimed in disparaging the work of the secretaries. The death rate here, he said, is lower than in any other state of the union.

Mr. Hoffmeister, one of the bill's introducers, explained its purpose, which, he said, was to put the state health department on a basis of efficiency.

The bill went through without any amendments.

City Has the Authority To Regulate Street Cars

Corporation Counsel Lambert told the city commissioners that in his opinion the city of Omaha has power to regulate the street railway company, this authority not being vested solely in the State Railway commission.

Mr. Lambert's statements were in connection with pending litigation and requests from organizations for better service on several of the lines of the street railway company.

Damage Suit in Fairbury.

Fairbury, Neb., March 19.—(Special Telegram.)—Judge Pemberton convened the March term of court for Jefferson county today. The most important case coming up for adjudication will be that of Mrs. Millikan against Dexter L. Bone for \$25,000 damages.

Last August a party of four young men, while riding in a car near Daykin, collided with a car containing Mrs. Millikan and she alleges she was injured to the amount of \$25,000. She has employed a firm of Omaha lawyers to prosecute the case and local attorneys will appear for the defense.

WHITE CORN SELLS FOR NEW HIGH PRICE

Brings \$1.07 on Omaha Market—U-Boat Activity Keeps the Prices Down.

STRIKE IS OFF; MARKET UP

While the activity of the U-boats in the Atlantic waters had a tendency to keep grain prices down, the settlement of the impending railroad trainmen's strike was a factor in giving them a boost, so with the exception of oats, which were 1/4 of a cent off, the Omaha market was strong, as were the markets elsewhere.

Corn advanced 1/2 to 1 1/2 cents per bushel, white corn selling at \$1.04 to 1.07 per bushel, setting a new top price. In fact cash corn was only a cent under Chicago and was freely taken, much of it going south for feeding purposes, while the demand from the cereal mills was strong.

Ontario wheat receipts were eighty-two carloads, light for a Monday and prices were a cent off to a cent up, selling at \$1.84 to 1.90 per bushel.

Senators Rushing Work On Bills in Upper House

(From a Staff Correspondent.) Lincoln, March 19.—(Special.)—Bills sent to third reading in the senate today were:

H. R. 124, House of Representatives—To make more equitable the raising of county seat removal issues.

H. R. 122, House of Representatives—To extend time of maturity of paying bonds from ten to twenty years, in cities from 1,000 to 5,000 population.

H. R. 123, McAllister of Antelope—To allow railroads outside of cities to condemn and buy real estate, where such land obstructs the view of the track from roads and crossings.

H. R. 222, Bolek of Saline—Separate ballot box for constitutional amendment.

H. R. 224, House of Representatives—Extends term of commission under commission form of government in cities of 2,000 to 25,000 from two to six years. Introduced by citizens of Beatrice.

H. R. 224, Lathrop of Thayer.

Kearney Boosters Want State's Waters Gauged

Kearney, Neb., March 19.—(Special Telegram.)—Representatives of the Kearney Commercial club will be in Lincoln Tuesday to boost the appropriation which has been set aside in the past to cover costs of gauging waters in canals and rivers of the state, fearing that withdrawal of this fund will mean that the canals of Nebraska will not receive their proportion of flood waters during the dry season.

The gauging is done so the state engineer may have needed water distributed from the Pathfinder and other reservoirs to various parts of the state. It leaves open the only method he has to force a release of these waters.

Believe in Preparedness? Are you ready for Mr. Germ?

Fortify yourself against cold germs and other germs by eating Shredded Wheat Biscuit, the food that supplies the necessary warmth and strength to resist disease. A better balanced ration than meat or eggs at a much lower cost. For breakfast with milk or cream or any meal with fruits.

While the activity of the U-boats in the Atlantic waters had a tendency to keep grain prices down, the settlement of the impending railroad trainmen's strike was a factor in giving them a boost, so with the exception of oats, which were 1/4 of a cent off, the Omaha market was strong, as were the markets elsewhere.

Recipe to Clear A Pimply Skin

Pimples are Impurities Seeking an Outlet Through Skin Pores.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood means the skin pores as the next best means of getting rid of these impurities, which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.
