LECTURES First Church of Christ, Scientist, in Omaha

Two Free Public Lectures on

CHRISTIAN SCIENCE By Clarence W. Chadwick, C. S. B., of Omaha, member of the Board of Lectureship of The First Church of Christ, Scientist, Boston, Mass. IN THE CHURCH EDIFICE, ST. MARY'S AVE AND 24TH ST. Thursday and Friday Evenings, March 22 and 23, 1917, at 8 O'clock. You Are Cordially Invited

Many times friends call without looking up your number in the directory. Your number, perhaps, is 5-4-6, but what your friend called was 5-6-4. He was sincere in his belief that he called you. He did not realize he transposed the figures and called another number.

It is less work for the operators to complete a call than to report, "They don't answer", and they seldom make such reports without justification.

Frequently Out of Hearing

Often our subscribers forget numerous trips to the basement, the attic. the garden or the front porch out of hearing of the telephone bell. The telephone rings during the few moments they were out of hearing, yet it is true that they were "at home all day". were "at home all day"

Sometimes before the work in hand at the far side of the house can be dropped and the telephone answered, the party calling has been given a "They don't answer" report and has hung up.

If you have a party-line the operators, of course, report your line "busy" if the other party on the line is using his telephone when someone calls you.

Occasionally the telephone operators make mistakes the same as any other human beings, but please do not blame them for faults that arc not theirs.
