GENERAL PROTEST AGAINST MAIL CUT

Postmaster From Nebraska Town Tells How His Town Is Affected.

FURTHER OUT IS PLANNED

(From a Staff Correspondent.) Lincoln, Neb., March 21.-(Special.)-That the postal service of the country is rapidly developing a de-

country is rapidly developing a deplorable condition is being shown every day. Publication of the conditions, which exist and are likely to continue, in The Bee is opening the eyes of the public.

Without any notice to the public a mail car on No. 12, running from Lincoln to Omaha over the Burlington, was taken off a week ago. By taking off this car the capital city of the state has no mail car into Omaha, the metropolis, after 1:45 in the afternoon.

Today a postmaster from out in the state stated to friends in the statehouse that taking off of mail cars on his line of road had had the effect of delaying delivery along lines running out of his town from five to six days. He refused to give his name and requested that the town even from whence he came should not be mentioned, for the reason that it would injure him with the department, but he is a well known citizen, and what he said may be taken as covering the situation.

Constant Itching Almost Unbearable
Only those afflicted with Eczema, with its terrifying irritation and ceaseless itching know what constant torture this disease can cause. The disease appears in different ways, some-

zen, and what he said may be taken as covering the situation.

It is said that all mail cars on lines called "one-man lines" are to be taken off as soon as possible and this is having the effect of demoralizing business just at a time when, as stated in the resolutions passed by the house yesterday, the best of mail service should be had.

Other cases of Eczema take the form of a dry, scaly condition of the skin that cracks and peels.
