DUN'S REVIEW OF TRADE.

Neither Liquidation Nor Speculative Markets
Disturbed.

Now Yark, March 21.—Tomorrow Dun's
Review will say:

Neither and insults business nor speculative
markets have been disturbed by the recent
significant events in the foreign situation.
In producing and distributing channels, as in banking circles, excution continues general and many interests are still waiting, but there is no lack of the condence which his casential to the economic welfare of the nation. That activity has shared in some branches in and about all sections is not surprising in view of the unexampled vise in prices and limits to which the buying movement was previously carried, and nextly averywhere commitments for the far future are undertaken with prudence. With more open weather less is heard of delays in transportation and the adjustment of the railway labbe controversy has removed an unsettling and retarding element, inficulty in obtaining raw materials has not been eliminated, however, and manufacturing operations remain bindered with the short age of skilled hands, an added drawback. GRAIN AND PRODUCE

Cash Grains Again Show Strong Tendencies Toward Bullish Market Following Drop.

CHEAP WHEAT SNAPPED UP

Omaha, March 23, 1915.

Cash grain was extremely builish again today and new high price levels were reached in the corn and oats markets. Wheat, however, was very strong, and the bulk of the offerings soid from 2s to 5c above yesterday's market. One car of choice No. 2 hard soid at 13:24, but the bulk of the No. 2 hard samples soid at 13:273 to 1197, with the bulk of the No. 2 hard samples soid at 13:273 to 1197, with the bulk of the No. 2 hard soid at 13:274 to 1197, with the bulk going at 13:56.

The poorer grades of wheat soid quite resulty on the advance. No. 6 hard being quoted at 13:18 to 11:57. No. 3 durum wheat soid at 13:58 and car of No. 4 mixed durum brought 13:28.

Corn was to good demand at an advance of 2c to 25c and while the receipts of this cereal were comparatively heavy, the sellers did not let go very readily and only a small part of the offerings were reported soid.

The premium on white corn over the yelfow disappeared today, but both white and the yellow soid at a premium over the mixed. No. 2 white corn was quoted at 11:14; the commercial grades of yellow brought from 11:13 to 11:14, and the same grades of mixed corn ruled from 11:12 to 11:14.

Oats ruled from 14:c to 14:c higher and the No. 3 white, which was the heaviest seller, was quoted at 61% 652c.

There was no rye received today, and the narket was quoted nominally to higher, while bariey was rather quiet at a 2c advance.
