

FOUR YOUNG WOMEN WOULD HELP UNCLE

Miss Emma H. Hendricks Volunteers Her Services to the Nation.

APPLICATIONS ARE ON FILE

Four young women of Omaha applied Friday to join the army or navy. Two of them, Miss Louise Fillmore, 20, 4422 Pierce street, and Miss Emma H. Hendricks, 22, 114 North Twenty-fourth street, applied at the navy recruiting station. The other two, who wanted to become telegraph operators or stenographers in the army, did not give their names to Sergeant Hansen, but declared they were anxious to serve their country in case of war.

Miss Fillmore, who helps her mother with the home making, is ready to enlist as a sailorette or yeoman for land service. All four applicants will have to wait until the local recruiters receive official authority to enlist women.

Miss Emma H. Hendricks, 22, a Paxton block stenographer, is the first Omaha young woman to volunteer as a sailorette.

Hearing of the new ruling which permits women to enlist in the regular navy as yeomen of clerks for land duty at shipyards and recruiting and training stations, she has offered to enlist and "do her bit" for Uncle Sam in the threatened war.

Approaching Pharmacist's Mate E. A. Chapman of the recruiting station, next door to Miss Hendricks' office in the Paxton block, the patriotic young woman offered to enroll Friday morning. The matter was referred to Lieutenant Waddell, in charge, who has not yet received official instructions for the enlistment of women.

Fits Application on File.

"We will be glad to enlist you regularly, as soon as we get the official authority and instructions," the lieutenant told Miss Hendricks. "In the meantime, we will put your application on file, as the first to be received."

Several days ago, the navy recruiting station had an inquiry from another young woman, who said she was Alice McCain of Lincoln. However, she decided not to enlist, and has not returned since. So Miss Hendricks will have the honor of being the first actual woman recruit here.

Miss Hendricks is an employe of the Northrup Letter Duplicating company on the fifth floor of the Paxton block. She rooms at 114 North Twenty-fourth street.

Al's Alibi Fails With Police Judge Fitzgerald

"I tell you, judge," said Al Barton, colored, of 980 Pacific street, when arraigned in police court on the charge of petty larceny, "I sure have had tough luck. I work down at the packing houses and since that Morris fire down there, I've been troubled with rheumatism and I ain't been working steady. Yesterday I was walking along the Illinois Central railroad tracks and I happened to see some old iron lying around. I just naturally picked it up, thinking perhaps I could sell it and buy myself some food. But, as far as stealing goes, judge, I never steal."

"Ten days in the city jail to cure your rheumatism," said the judge.

Freight Car Shortage Is Not Much Relieved

Superintendent Derr of the Great Western is over from Clarion and talking of the freight car situation said: "I can't see that the plan worked out by government and railroad officials has afforded much relief."

"So far as I can see I can't figure out how there can be very much relief so long as the country has the stuff to sell and the demand and present high prices continue."

LATEST PHOTOGRAPH OF OIL KING ON LINKS.

JOHN D. ROCKEFELLER.

Nicholas Romanoff, late czar, may be in search of a steady job just now and other crowned heads of Europe may be worrying about the steadiness of their positions, but John D. Rockefeller, American oil king, is quite secure in his. So certain is he that no revolution can depose him that even in these troublous and uncertain days he finds time to play his favorite game—golf. The picture was made just as Mr. Rockefeller had made a particularly fine shot on the links at Daytona, Fla.

Hundreds Register As Loyal Citizens Of United States

Nearly 100 aliens, all of them employes of the Cudahy Packing company, have taken out their first naturalization papers at the court house in the last three days. The rush at "naturalization desks" rivals that of the busy days following the break with Germany, when hordes of Teutons and Austrians hastened to enroll under Uncle Sam.

The Cudahy Packing company is sponsoring the movement of naturalizing all of its employes, and each day a small army of Poles, Slavs and subjects of other European countries comes up to the court house from the South Side under the tutelage of a department head. This naturalization rush will continue until all of the big packing company's employes have taken out their first papers.

Community Lecture at Ruskin.

Ruskin, Neb., March 23.—(Special.)—The Ruskin Commercial club employed John R. Boardman to come and give one of his famous lectures on community interests. The theater was packed to its limit and after the lecture a free picture show was enjoyed by all present. A great deal of interest is being shown in Ruskin and vicinity and it is believed that a strong community club will be organized at once.

MANY FAMILIES TO BE MOVED TO OMAHA

Transfer of Passenger Yards to This Side of the River Aids to Population.

EXTENSIVE REPAIR SHOPS

The moving of the Northwestern passenger yards from Big Lake, Council Bluffs, to the company property in the vicinity of Forty-second and West C and D streets, it is estimated will bring thirty-five to fifty families to Omaha.

In the employ of the Northwestern in the Big Lake yards there are a number of sketching engines and some fifteen or twenty car cleaners and repairers. Besides, there are the members of the train crews, nearly all of whom now live in Council Bluffs to be convenient to the point from where their trains are brought out and turned in after finishing the runs. With the trains starting from this side of the river and with the trains turned in here, it is figured that it will be much more convenient for the people to live on this side of the river.

All told, it is estimated that the change made by the Northwestern will add something like 150, and possibly more, to the population of Omaha.

There is a possibility that the changing of the Northwestern yards from Council Bluffs to Omaha may in the not very far distant future mean more to this city than the mere acquiring of the number of residents indicated.

The Northwestern previously owned twenty acres around Forty-second and West C street and quietly, through agents, bought up some fifty acres. On this land there is no intimation that quite extensive repair shops will be erected. Officials here, however, assert that relative to this matter they have not been advised as to the plans of the company.

Railroads Joining With Uncle Sam To Protect Bridges

Co-operating with the government, railroad officials are taking extra precautions to eliminate the possibility of destruction to their properties.

This co-operation applies particularly to the railroads that are of the line designation and might be called upon quickly to haul troops and munitions in the event the strained relations with Germany should assume serious proportions.

All the lines operating to the west and most of those operating to the east have placed guards at either end of each bridge on the numerous lines. These guards patrol the bridges night and day and all persons except company employes are kept off the structures.

The precaution has gone farther than the bridges and scattered all through the switch yards in cities specially deputized men are employed guarding switches and crossings where there is likely to be considerable congestion.

River Rises Two Feet In Twenty-Four Hours

A rise of almost two feet in the stage of the Missouri river at Omaha has been recorded within twenty-four hours by Colonel Welsh of the weather bureau. Thursday morning the reading was nine and two-tenths feet, while at 9 a. m. Friday the stage had reached eleven feet. An even foot of this rise occurred between 7 and 9 o'clock Friday morning.

Slightly cooler weather north of Sioux City along the river served a good purpose in checking the thaw somewhat, so that there is no danger of flooding, Colonel Welsh said. Weather conditions around Sioux City are such that the ice is honeycombing and breaking up normally, which will avoid trouble, unless ice gorges should develop unexpectedly.

Mrs. Distelhurst Given Divorce from Husband

Minda Distelhurst, 2566 Pierce street, was freed from Leopold J. Distelhurst, vice president of the Koutsky-Favilk company, in divorce court following a bitterly fought case, in which the husband filed a cross-petition, alleging misconduct. Later he withdrew it and Mrs. Distelhurst testified to acts of extreme cruelty on several occasions. The court found that the husband had been guilty of cruelty and granted the decree to the wife. The Distelhursts made a division of property and an alimony settlement out of court.

Police Magistrate is Witness Against Rudd

Police Judge Fitzgerald was his own witness Friday against Chris Rudd of Dodge City, Neb., who denied that he was drunk, even though his very breath merited a revenue stamp. "You're drunk now," said the court, as Rudd tried hard to stand straight. Rudd was released on condition that he go back home. He said he was arrested because somebody threw him through a window.

Please Tell Others What You Know About BELL-ANS FOR INDIGESTION

Sitting On Big Pistol Proves Expensive Pose

Sitting on a forty-four-caliber revolver is not a proper posture for a honest man, ruled Police Judge Fitzgerald Friday when he imposed a \$50 fine on Harry Sebastian, 316 North Fifteenth street. Detectives Brinkman and Unger found Sebastian and his gun at home. The defendant said he bought it that his wife might use it to repel invasions of anticipated burglars. Walter Stevens, 434 Lincoln avenue, who was with Sebastian, was fined \$15.

Sculptor Barnard Will Present Statue to Russia

New York, March 23.—George Gray Barnard, the sculptor, announced last night that in token of his sympathy for Russian freedom he will present his statue of Abraham Lincoln to the Russian people, through the Friends of Russian Freedom, at a mass meeting here tomorrow night in celebration of the birth of the new Russian republic.

A replica of Mr. Barnard's statue will be presented to the city of Cincinnati by Mr. and Mrs. Charles P. Taft Saturday.

Sage Tea Turns Gray Hair Dark

It's Grandmother's recipe to bring color, lustre and youthfulness to hair when faded, streaked or gray.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.

Learn To Prevent As Well As Heal Skin Troubles With Cuticura

How much better to prevent skin suffering by using Cuticura for every-day toilet purposes, the Soap to cleanse and purify the pores, with touches of Ointment now and then as needed to soothe and heal the first signs of eczemas, rashes, dandruff and pimples. You will use no other once you try them.
