New System of Fat Reduction

Here's a new way for all fat people to laugh together at that old bugaboo—obesity. The saying that "there is nothing new under the sun" does not now apply to fat people any more. Here is something new for them—a new sensation, a new pleasure, a new and graceful figure, easily found by anyone who is passing beyond the limits of slimness. Everyone has heard of the Marmola Prescription; that harmless combination of fat-dissolving elements which has become known as the most successful of all reducing treatments. Now there comes another idea—the idea of condensing these same pure, harmless ingredients into a pleasant little tablet. Taken after eating and at bed time, they help the stomach to dispose of all the fatty foods, converting them into compact, solid flesh, muscle and energy, without dieting or exercise. Marmola Prescription Tablets regulate the entire system—do for you what bodily exertion and self-denial can not do, and the fat is routed to good use. You can prove all this at a trifling cost. Marmola Prescription Tablets are sold by all druggists or sent post paid by the Marmola Co., 264 Woodward Ave., Detroit, Mich. A large case—sufficient to bring lasting results—is but 75c.

"Only One Easy Way To Remove Superfluous Hairs"

"A Secret That Makes Them Just Dissolve Away Like Frost Before the Sun," Says the Great Beauty Favorite of the Screen, Valeska Suratt.

By VALESKA SURATT.

THE usual method used for removing superfluous hairs is hazardous to say the least. There are any number of things which will remove these hairs—but many of them so irritate, burn and reddens the skin to make it a sight to look upon. It is no longer necessary to go to it in such a savage manner. Superfluous hairs can now be removed by an application which is as safe as water and never fails to remove every hair so thoroughly that not a vestige of it remains to be seen. There is only one thing that will do this, and that is a safe solution. This can be obtained from any drug store. The hairs are merely loosened with it for a few moments and then the hairs are seen literally to wither and dissolve away and are wiped off, leaving a skin absolutely perfect, spotless, soft and smooth. This is the scientific method and no matter how sensitive the skin or how thick the hair growth it is always successful.

MISS ADEPT—Don't waste time with those hair tonics you mention. Profit by my own experience. I never got any results until I stopped all those preparations and used my own formula. Everybody that has used it marvels at the results. Your hair will at once stop falling and the hair will grow long, silky and beautiful. Mix one ounce of beta quinol with a half pint of water and a half pint of alcohol, or use one pint of bay rum instead of the water and alcohol. This makes over a pint of the positive hair grower, costing less than you could get at the stores; and besides it does the work unflinchingly.

MISS F. T.—It is an easy matter to control the profuse perspiration in the arm pits and removing it once at once by applying hydroalated talc to the affected places. Any druggist can supply you with this remarkable article.
