OMAHA GIRLS HELP RECRUITING WORK

Make Banners, Distribute Circulars and Personally Appeal to Young Men.

POWERFUL EFFECT FELT

More Omaha girls are offering to join the navy or army in case of war and have already started to organize a club to promote recruiting, in response to an appeal issued Saturday toon by the Navy citizens of Omaha.

Ribbous inscribed "Join the Navy" are being prepared and will be worn by many Omahans, including the girls who have volunteered for land service with the military forces.

Miss Ruth Falkner, an employe of George & Co., 902 City National building, and living at 4319 South Twenty-second street, is the latest woman volunteer at navy recruiting hieadquarters. Two other volunteered as sailcrettes Friday while two more wanted to join the army.

Miss Falkner is a preparedness enthusiast and says she believes every girl as every young man should come forward and be willing to serve the vation in case of need. She will coperate with Miss Emma Hendricks and Miss Louise Fillmore, who volunteered Friday.

With other girls, these are organizing a "Join the Navy" club among young women who share their views concerning preparedness and recruiting. Is Preparedness Fan.

Arthur C. Smith of M. E. Smith & O., president of the Navy league, was shown the latest appeal of the Navy lepartment to citizens, addressed in care of Lieutenant Waddell of the eccuiting station.

Smith Says Will Help.

"We will redouble our efforts to nterest Omaha and Nebraska young

nterest Omaha and Nebraska young men in the serious military situation tow threatening the country," he said. Posting recruiting signs, loaning sutos for recruiting officers' trips to putlying districts, the decorations of unidings and homes and autos with fags and "Join the Navy" banners, te said, would be undertaken at once n response to the appeal.

Besides volunteering as wireless operators or clerks for land service with he navy women can help the country in the present crisis by trying to stimulate recruiting, says the appeal to citizens. Wearing of "Join the Navy" ribbons and making of recruiting banners are suggested for the women and those girls already organizing in Omaha say they will do these things.

The navy will be short 50,000 men of its required strength if President Wilson puts it on a war footing, ac-cording to the appeal received Saturday noon. Its present quota of about 77,000 men is now about 20,000 short of full peace strength.

Four Big Names Behind One Automobile!

HE world-wide reputation of four of the biggest manufacturers in the automobile world is staked on the QUALITY AND PERFORMANCE of the VELIE!

IMKEN! Continental! Remy! Velie!—and the Velie name doubles the guarantee that those parts of the car made by Timken, Continental and Remy factories are perfect.

IMKEN AXLES-used both front and rear on the Velie! Axles which in a test were twisted, then bent double, cold, and straightened out again without a break, fracture or crack! Timken axles are admitted to be the best axles ever known to the automobile industry.

ONTINENTAL MOTOR! A special motor designed by the combined engineering staffs of both Velle and Continental organizations. The Velic-Continental motor is easily accessible. It develops power. It has far more speed than you will ever use, even in an emergency. It runs smoothly, quietly, without the slightest hint of vibra-

REMY starting, lighting and ignition! Exactly the same as used cars selling several hundred dollars higher than the Velie!

O all these big names is added the A enormous reputation for quality, precision and reliability of the Velie Motors Corporation.

JUNDREDS of Velie Sixes are now making friends (and exciting envy) on the highways of Nebraska.

THINGS YOU FORGET

The Studebaker Series "18" car is an evolution and perfected piece of mechanism. That is why you can FORGET many little things about Studebaker that you have to RE-MEMBER and care for on other cars not so highly developed.

For instance: the cooling system of the Studebaker car will work in any climate, at any temperature, providing you keep water in the radiator.

The lubrication system of a Studebaker car will work unfailingly in absolutely all conditions, if you will remember to put oil in the crank case occasionally.

The electric lights, and the electric starter will never fail you if a little distilled water is put in the battery from time to time.

You will not have to paint your body frequently to keep it looking

nice, because Studebaker's finishing work is the sum of years of experience.

You won't have to renew the leather on your cushions, because experience has taught Studebaker how to select and buy the highest quality of leather.

You won't need to worry about making a grade with a Studebaker car, because the Studebaker motor has been perfected into the most powerful motor in the world in ratio to gasoline consumption.

You won't have to continually worry about lubrication, about oil and greasing parts of your car, because every part is equipped with ample capacity grease cups.

These are the things that make it a delight to own and run a Studebaker car, and cause you to say, "I never have any trouble with it.'

When will You Cut Your Equipment Costs

and Use Smith

Form-a-Trucks?

\$350

Horse-drawn delivery and hauling saddles you with an excess cost for equipment that can easily amount to 75% over your entire investment.

A Money Saver
Smith Form-a-Truck eliminates all unnecessary investment in delivery and hauling equipment. It easily hauls twice the tonnage hauled by horses over three times the area and in the same time. This is real hauling and delivery efficiency—time saving, money earning in every line of business.

Loaders'& Drivers' Wages Where you now use from three to four borse-drawn teams, one Smith Form-a-Truck will easily do the work. Loaders and drivers wagesareased. The men on the leading platform work steadily and earn money for you instead of wasting it waiting for slow moving teams to get back.

Horses Must Rest

Your excessively large, horse-drawn equipment costs you money for upkeep on working and non-working days. Stabling, feed, veterinary bills go on all the time—and for steady service all day you must have extra equipment to give the horses a rest. Expense Stops

Smith Form-a-Truck costs nothing to maintain when it is not working. Stop the motor and the expense stops until you start it up again. There is no non-production expense. And the actual cost

of maintenance when Smith Form-a-Truck is running is not only far less than for horses, but less than for any other form of hauling or delivery.

A Big Guarantee

And you can put Smith Form-s-Truck at work in a few hours. Simply attach it to any Ford, Maxwell, Buick, Chevrolet, Dodge Bros., or Overland power plant. The truck construction is permanent—fully guaranteed—the mechanical equal of the highest priced truck you can buy.

Rear Axle Carries Load You know the service value, the economy standard of the famous power plants with which Smith Form-s-Truck can be used. And the power plant only pulls the load. The Smith Form-s-Truck carries it—90% of the entire load rests on the sturdy Smith Form-s-Truck rear axie.

Be One of 30,000 Don't put up with wasteful expense in your hauling or delivery for snother day. Get your order in for Smith Form e-Truck now. Be one of the 30,000 sure of getting delivery this year. Join the 10,000 present satisfied users.

If you have any doubt, ask for a demon-stration. It will be a revelation to you to see the actual money saving Smith Form-s-Truck will make for you.
