SEALS DRAW MANY LAUGHS AT MEET

Water Sharks at 'Y' Keep Crowd of 200 Rocking During Two-Hour Session.

LATER EVENTS IN MAY

Not much in records, but an absolute "roar" in fun, was the first annual Seals swimming meet at the Young Men's Christian association last evening. From the moment the 200 spectators took their seats till they left the men in trunks led by "Sweden" Anderson and "Pete" Wendell kept them laughing.

A balloon race, in which an elusive rubber ball kept the water merchants kicking in all directions, and a game of "bell" tag were two events that caused hilarious laughter. In the latter one of the swimmers carried a bell, and swimming under water, bobbed up every now and then to wag the cow bell and start a school of "seals" in his direction. The play lasted several minutes before the worthy leader was caught.

Anderson Wins Dash. Anderson won the century dash in 1 minute and 4-5 seconds' time. Loyd Neff was a close second, coming up just three seconds later. The forty-yard free style stroke showed some fast time made. E. E. Benson came home first at 23 seconds. Ray Platner was second with 26-3-5 seconds to his credit and Jack Yates third with 28-4-5 seconds.

The 100-yard dash gives promise of time improvement. Anderson and Neff are a pair of powerful swimmers and in open water could probably lower their marks by several seconds. The world's record of last year is 56-4-5 seconds. Another meet will be held next month.

Tesreau Tries to Wreck Trolley System

JEFF TESREAU

Jeff Tesreau didn't have as much success in his efforts to wreck the system of the Houston & Texas Central railroad as he frequently has in wrecking the hopes of the managers of rival base ball clubs. Tesreau was yanked off the right-of-way of the interurban system by Pol Perritt just as there threatened to be a disastrous collision.

Raise in Rail And Lake Freight Rates in Effect

Washington, March 30.—Increases of about 5 per cent in freight rates on all classes and commodities moving east and west by rail and ship lines over the great lakes went into effect today when the Interstate Commerce commission declined to suspend tariffs proposing them.

The tariffs proposing the increases were filed some time ago by the Great Lakes Transit corporation, which took over many of the steamships which railroad lines were compelled to give up under the Panama canal act and the Lehigh Valley transportation decision.

In hearings before the commission held since carriers generally have proposed country-wide increases, and many shippers approved these advances. The increases will apply to rail and lake traffic from points as far west as the Mississippi river and east to the seaboard.
