

Nebraska HOUSE KEEPS UP ITS TIME KILLING

Spends Long Time Discussing
How Many Sheep Dog
Kills.

BRING OUT MORE BILLS

(From a Staff Correspondent.)

Lincoln, Neb., April 2.—(Special Telegram.)—Notwithstanding the end of the session is very near, the house continued its time-killing tactics this afternoon and spent nearly half a day discussing whether a dog could kill more sheep than an automobile could kill chickens.

A bill taxing dogs was under discussion and before adjournment came all kinds of amendments and all kinds of amendments both tragic and comic had been attempted.

As if enough time had not been taken in the matter, when a vote on the bill came, a demand was made for a roll call. The bill was killed. Then a motion to "rise and report" came up, and although some of the members wanted to keep it at it and clean the board of the bills left, the motion carried. Then it was discovered that in a former action all bills not disposed of by tomorrow morning would be postponed. Then a motion was made to reconsider and the oratory was on again. It carried and the house will take the thing up again tomorrow.

Bring Out Bills.

The house, having voted to kill all of its own bills left on the sitting floor by Tuesday morning, hurried to get through the list before adjournment Monday afternoon. It advanced these to third reading:

Surviving spouse of a decedent forbidden to sell any portion of the estate, other than his or her life interest, when minor heirs are entitled to share, and concerning homestead right of such surviving spouse where the children are not properly cared for.

More Senate Bills Out.

Several more senate bills were put out by the house sitting committee Monday. One permits fraternal orders to insure children; another is State Treasurer Hall's bill to auction state funds to the banks making the highest interest bids for them, and several Omaha bills were in the lot.

Removing Ugly Hairs—

Entirely New Method

(Actually Removes the Roots)

The question is often asked whether a really permanent and efficacious hair-remover exists, and the answer has heretofore been very unsatisfactory. Fortunately, there is a new and remarkable process that really removes every hair entire, root and all. It is different from and far better than electrolysis, depilatories, the razor or any other method. If you'd like to try it just get a stick of pelatone from your druggist, follow the simple instructions and with your own eyes see the hair roots come out! Roots are removed instantly, easily, leaving the skin perfectly smooth and hair-free.

Pelatone is non-irritating, odorless and so harmless you could eat it! It is so reliable that every stick is sold on a satisfaction-or-money-back basis.—Adv.

LARGE CROWD AT MILITARY MEETING

Mere Readiness for War Does
Not Mean War, Speakers
Tell Throng.

THREE HUNDRED ENLIST

	This Week.	Total.
National Guard	15	167
Army	8	91
Navy	6	56
Marines	0	8
Total since the call	29	322

"To be able to fight does not mean that we must or will fight," says ex-United States District Attorney Frank S. Howell at the noon recruiting and preparedness rally on the street in front of the Sixteenth and Farnam recruiting stations.

"But if we must fight," he continued, "to be able to fight is the first and most important necessity."

Among other speakers was Attorney James T. McGuckin. The speakers were applauded and cheered by a large crowd that stopped to listen on the way to lunch. Applicants for enlistment in the guard were more numerous after the rally. The speakers stood on a new Vim truck, which G. W. Preston of the H. Pelton auto agency loaned for the occasion.

To Tour Two States.

Six extensive recruiting tours by railroad and auto, covering Nebraska and South Dakota, will be made by navy men, beginning Wednesday, in strenuous efforts to secure the 800 new recruits which the Navy department expects this district to furnish by April 20.

The canvassing parties will co-operate with the many postmasters and to mayors whom Lieutenant Waddell has already asked by wire to help meet the urgent needs of the fleets in the war crisis. Four of the tours will be entirely by auto, in charge of Chief Carpenter's Mate E. P. Malherbe, who conducts the branch naval recruiting station at the capital city.

Assurances of co-operation are already coming in from the postmasters and mayors. Practically all towns in the two states will be covered by the extended tours, which may continue for several weeks.

"We have a big recruiting order to fill," said Lieutenant Waddell, "but the need is serious and urgent, and I believe Nebraska and South Dakota will respond with patriotic enthusiasm to the national call."

State Condemns Thousand

Cases of Hominy at Lincoln

(From a Staff Correspondent.)

Lincoln, April 2.—(Special.)—According to Food Commissioner Murschel, three common cans of beans purchased at a local retail store in Lincoln were responsible for action which led to the seizure of the largest quantity of adulterated food products ever made in the United States.

With the co-operation of the federal government the state department located eight carloads of these beans in Omaha consigned to the Post Canning company, coming from points in Michigan and the lake regions.

Commissioner Murschel says that in effects of the firm were found printed instructions as to the proportion of "good" and "bad" beans to put in each batch of "baked beans."

The state department has condemned 1,000 cans of hominy belonging to the same concern, and has had arrested one of the employees, on the charge of making a stock food without having the ingredients registered with the pure food commission.

Governor Finds Inconsistencies in The Judicial Bill

(From a Staff Correspondent.)

Lincoln, April 2.—(Special.)—In a message to the house Governor Neville this afternoon called attention to what appeared to him to be inconsistencies in House Roll No. 24, a bill providing an additional judge for Lancaster county and also for the Eleventh judicial district.

"Investigating," said the governor, "I find that there are three counties in the Eleventh judicial district west of the 100th meridian and eight counties east of that line. The total vote of the three counties was 1,304 at the last election and of the eight counties 14,997."

"The injustice of the objectionable provision is so manifest and apparent that it is difficult to conceive how it survived the scrutiny of both houses of the legislature. The bill, with the exception of the above provision, is of great importance to people of certain sections of the state. Arthur county, through some error on the part of the last legislature, has not been included in any judicial district, and there has been no term of court there during the past two years. I believe that Lancaster county is much in need of an additional judge, as is also the case in the Tenth judicial district."

Notes from Table Rock.

Table Rock, Neb., April 2.—(Special Telegram.)—The plant of the Table Rock Clay company is to be put into working order and set in active operation in the near future. Recently F. A. Steel and W. C. Mrs. Lydia Butler, widow of David Butler, the first governor of the state of Nebraska, is very ill at her home in Pawnee City, suffering from cancer, and slight hopes are entertained for her recovery.

A barn belonging to John Stauffer in the vicinity of DuBois, caught fire recently and was burned to the ground. Four horses, twenty-eight hogs, one mule, two calves, eight or ten tons of hay burned with it, which makes a severe loss, as no insurance was carried.

Work was begun the last week clearing away the rubbish on the corner lot where the new bank building, hotel and garage is to be erected. There is to be a large and commodious hall in the building also.

Walter E. Webb of Bellevue, who is now teaching at Gibbon, has been employed as principal of the high school next year.

Joker in Bill Takes Rap At the Solons Themselves

(From a Staff Correspondent.)

Lincoln, April 2.—(Special.)—Who is the joke on? The house has passed a bill known as H. R. 794, which after it had passed through the hands of the finance committee, was discovered to contain a clause that any individual drawing a salary from the state of Nebraska is prohibited from engaging in any other business for pay.

The bill was aimed at certain office holders who have been in the habit of working on the side and taking in a few shillings to assist in solving the high cost of living problem.

The joke comes when it is taken into consideration that a member of the legislature is paid a salary of \$600 for the biennium for his services. Under the bill a farmer cannot receive an income from his farm, a lawyer cannot practice law nor can any other member with except that which comes to him as a member of the legislature.
