

Red Blotches Turned to Pimples Itched Burned

And Smarted Till Nearly Went Wild, Cuticura Soap and Ointment Healed.

"Big red blotches appeared on my face and later turned into pimples. My face was fierce. The pimples itched, burned, and smarted until I nearly went wild and I scratched them until I could not rest night or day. They were hard and large and most all came to a head and scattered over my face disfiguring it something awful. Remedy upon remedy was used but to no avail and for three years I was treated. I ran across a Cuticura Soap and Ointment advertisement so I bought them and fifteen or twenty days' continued use of the Cuticura Soap and Ointment brought back my good complexion. I was healed." (Signed) Miss Beatrice Barton, R. R. 1, Box 55, Grand Rapids, Wis., Sept. 14, 1916. It is distressing to reflect that much, if not all, of this suffering might have been prevented by using Cuticura Soap and no other for every-day toilet purposes with a little Cuticura Ointment now and then as needed to soothe and heal the first signs of skin or scalp troubles. Nothing purer or sweeter than these delicate emollients. For Free Sample Each by Return Mail address post-card: "Cuticura, Dept. H, Boston." Sold everywhere.

Acid in Stomach Sours the Food

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like cabbage in a can, forming acrid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas or have heartburn, flatulence, water-brash or nausea. He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescing, and furthermore to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices. Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.—Advertisement.

Careless Use of Soap Spoils the Hair

Soap should be used very carefully if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and ruins it. The best thing for steady use is just ordinary mulioned - cocoanut oil (which is pure and greasens), and is better than the most expensive soap or anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft and the hair fine and silky, bright, lustrous, fluffy and easy to manage. You can get mulioned cocoanut oil at any pharmacy; it's very cheap, and a few ounces will supply every member of the family for months.—Adv.

RHEUMATISM PAIN

The exact cause of rheumatism is unknown, though it is generally believed to be due to an excess of uric acid in the blood. It may be also said with equal truth that no remedy has been found which is a specific in all cases. In fact the literature of rheumatism shows that there are but few drugs which have not been given a trial. In the hands of one observer we find that a certain drug has been used with the utmost satisfaction; others have found the same remedy to be a great disappointment. All physicians however agree that every method of treatment is aided by the administration of some remedy to relieve the pain and quiet the nervous system and Dr. W. S. Schullz expresses this opinion in thousands of prescriptions when he says that anti-kamnia tablets should be given preference over all other remedies for the relief of the pain in all forms of rheumatism. These tablets can be purchased in any quantity. They are also unsuited for headaches, neuralgias and all pain. Ask for A. K. Tablets.

Resinol does wonders for sick skins

That itching, burning skin-trouble which keeps you scratching and digging, is a source of embarrassment, as well as of torment to you. Why don't you get rid of it by using Resinol Ointment? Physicians prescribe it constantly. In most cases, it stops itching instantly and heals eruptions promptly. It is very easy and economical to use. Sold by all druggists. Resinol Ointment should usually be aided by Resinol Soap.

DEMANDS REFUSED, MEN STAY ON JOBS

Building Trades Men and Contractors Maintain Mysterious Silence Over Trouble.

STRIKE WAS THREATENED

Instead of striking Monday morning when their demands were not met, the several building trades unions involved in the recent demands made upon the contractors kept on working while their officers and executive committees held meetings and talked the situation over. It is understood that eastern representatives of the various unions are here and are meeting with the officers at the Labor temple, but all the men are very reticent about the whole affair. The hoisting engineers, who were among those making demands, are at work as usual, although the contractors say the advance was not granted and will not be granted. Business Agent Chase of the iron workers said that no information would be given out about the situation at all, as information given out in the past has been so handled as to militate against the union. Nothing Unusual. The contractors normally gathered about the rooms of the Builders' exchange were there as usual, smoking, and talking, but not professing to know anything about the situation. V. Ray Gould, president of the exchange, said he did not know whether there was a strike or not. He said he was not working any hoisting engineers on his jobs, as he had that kind of work pretty well out of the way. "I don't know a thing," said Secretary Haskell of the Builders' exchange. "Haven't heard a thing."

Mrs. Manchester Honored in South By Public Officials

The Charleston, South Carolina, News and Courier gives a glowing account of the reception and welcome tendered to Mrs. Emma B. Manchester, supreme guardian of the Woodmen circle, during her recent visit to the city, while making a tour of the southern states in the interest of the order. The reception given in Mrs. Manchester's honor was a most royal one, being held in Columbus hall, which presented a beautiful and inspiring sight, elaborately decorated in flowers, palms, American flags and the colors of the order, lavender and green. Mayor T. T. Hyde, in the name of the city of Charleston, greeted the supreme guardian with a speech of welcome, praising and commending her for the wonderful work which she has accomplished for the order during the eighteen years she has been at the head of the organization, calling attention to the fact that she, through her untiring efforts, has not only benefited the order itself, but all humanity in general. Among the other addresses of welcome was one given by George Luntz, in behalf of the Woodmen of Charleston, in which he declared the Woodmen circle to be one of the greatest and best orders for women to be found anywhere, and urging the support of the members to Mrs. Manchester as their supreme guardian, whose years of labor has brought about the wonderful results for the organization, which it shows today, both in finances and membership.

Miss Mary C. Delahunty, supreme outer sentinel, grand guardian and state manager for South Carolina, presided at the reception and introduced the speakers, and at intervals during the evening delightful music was furnished by Metz' band and the beautiful strains of "Dixie" brought the crowds to their feet amid great applause.

Mrs. Manchester responded to the welcome and cordial reception in her honor on her first visit to the city of Charleston, in a most pleasing manner, which won the hearts of all her hearers. In reviewing the wonderful progress of the Woodmen circle in the time that she has filled the office of supreme guardian, she thanked the members for the loyal support given her, which has assisted her in placing the order on the firm and independent footing it has today. The beautiful baskets and bouquets of flowers with which Mrs. Manchester was presented, gave evidence of the high esteem and love in which she is held as supreme guardian of the Woodmen circle.

After the reception the drill team of Live Oak Grove No. 3, gave a most pleasing exhibition of fancy and unique drills, which was greatly enjoyed by all having the pleasure of witnessing this ritualistic work. In honor of Supreme Guardian Manchester, the drill team will hereafter be known as the "Emma B. Manchester Guards."

Guests Asked to Wedding Find Bride Already Married

Fifteen guests, in response to wedding invitations received nearly two weeks ago, announcing the marriage of Mrs. Lydia Elton to Ralph E. Madison, gathered at the home of Mrs. Elton at Twenty-fourth and Bristol streets Sunday evening. But the marriage did not take place. It was only an April fool stunt pulled off by the two. Mrs. Elton had married Mr. Madison February 28, Rev. Hugh B. Speer, pastor of the Central United Presbyterian church, performing the ceremony. Mr. and Mrs. Madison took April 1 as the day to announce to their friends the marriage they had kept secret for over a month.

Music

Miss DeLone Harp Concert.
The harp concert given by Miss Loretta DeLone at the Fontenelle last evening proved most unique in more ways than one. In the first place, a harp recital in itself is a rare affair, and when it brings forth a quartet of harps such as the one last evening, and tenor solos with piano and harp accompaniment, it adds other interesting and unusual features. Miss DeLone has a brilliant technique upon the harp, and under her skillful touch purling runs, full toned arpeggios and songful melody gave pleasure in their turn. The audience was not large, but it displayed the greatest interest and attention, and insisted upon several encores during the course of the program. Miss DeLone was assisted by Lynn Sackett, tenor, the Misses Dierks, Timms and Sken, harpists, and Miss Edythe Mahaffey at the piano. The program opened with a harp quartet "Priore" by Oberthur, a well chosen and most suitable number, in which a lovely and prayerful melody was introduced by the solo harp, to appear later in the other parts, ornamented with a dainty larc of soft runs and passage work. Miss DeLone spoke briefly upon the history of the harp, of its development from a few strings to its present number, of the addition of the pedals, and of the salient points of difference between the harp of today and the old Irish harp, which she used for certain of the accompaniments. In her harp solos Miss DeLone brought unhackneyed and decidedly worthy numbers to the concert hall, among them "Meditation" by Thomas, in which lovely melody of religious character dominated, "By the Water of Babylon" by Zabel, in which swift, running passages gave a rippling and picturesque accompaniment, and a broad and sonorous "Andante Religioso" by Piene. Another group of lighter numbers was also played. Other harp quartets besides the opening number were "Scherzo" by Verdi, "The Publican" by Van de Water, being among his most effective numbers. The two short songs by Moore accompanied by the sweet-toned Irish harp also deserve special mention, the voice and harp blending with charming effect. Acceptable accompaniments for the solos were played by Miss Mahaffey at the piano and Miss DeLone. H. M. R.

ELEVATOR ROW AT JAIL STILL IS ON

Dudley Resigns Rather Than Run One of Passenger Lifts—Judges May Step In. CLARK WANTS A HAND. The court house jail elevator row has resulted in the resignation of Jay Dudley, former brother-in-law of Johnny Lynch and up to this time the county board's choice for the jail lift job. In an effort to patch up the differences between the board and the sheriff's office a change was announced in elevator operators, Dudley to go on one of the passenger elevators and Michael O'Connell to take the jail life job. It is said that Dudley resigned sooner than accept the passenger elevator job. The so-called feud between Lynch and the sheriff is still unsettled. Even with Dudley off the job the sheriff said he would not accept any elevator operator appointed by the opposing faction. "Johnny Lynch can't quiet me by merely changing operators. I believe I should have something to say in regard to the appointment of a man to run the jail elevator." Judge Sears said that the district judges will have to take the matter in hand again if the sheriff and the commissioners cannot settle the difficulties between themselves. Alleged Auto Thief On Trial in District Court

Henry Hawk, charged by the police with being a member of the notorious "Griffin gang" of automobile thieves, is on trial in Judge Sears' district court. A jury was selected Monday morning. The police will submit evidence charging that he stole an automobile owned by Rudolph Probst on February 23. Hawk was arrested at St. Joseph. Several members of the alleged "Griffin gang" have already been convicted.

\$635 Now—\$665 May 1st

Maxwell Quality has been and will be rigidly maintained in spite of the big and constant increases in the cost of materials.

That's the Maxwell policy, fixed and immutable as the Rock of Gibraltar. For years the Maxwell Company has been proving it in the Maxwell car, which has come to be recognized as the "World's Greatest Motor Car Value."—as the car of power—of ease of control—of stability—of endurance—of economy. 200,000 satisfied Maxwell owners attest to the success of that policy. More than three thousand Maxwell dealers owe their business stability to the fulfillment of that policy.

The First Consideration is—Maxwell Owners' Protection
No matter what other motor car manufacturers may do in the face of the greatly increased cost of raw materials, —the Maxwell Company is going to maintain the high Maxwell standard of quality and only make a slight increase in the cost of the car. While we are sorry that there is any increase, it can't be helped —because the first consideration is Maxwell quality, —the quality which has given the Maxwell the two world's non-stop records of 22,000 miles, the 1916 record, and 23,500 miles, the 1917 record, at amazingly high mileage per gallon of gasoline.

This Small Increase is Your Big Insurance Policy
If the Maxwell Company didn't make the increase, slight as it is, it would have to skimp here and there in materials, construction and refinements, —and that the Maxwell Company will never do. No manufacturer can make a car today for the same cost as he could a year ago. The fact that the price of the Maxwell on May first will be raised is your assurance that the Maxwell Company is still putting the same quality into the car, —your guarantee of still getting the "World's Greatest Motor Car Value."

In Fact, Better Value Than Ever Before
As a matter of fact, the Maxwell is now an even better "buy" than ever. Not because the model or design is changed in whole or in part, —but because the Maxwell you buy today is the super-refinement of the original highly successful model of four years ago.

—the super-product which time and experience in manufacturing this powerful car have demonstrated to be right,
—the same proud Maxwell car which, in recent competitive tests held by the Sheffield Scientific School of Yale and Prof. Gallup of the Worcester Polytechnic Institute, proved itself the most economical of all the automobiles tested.

The Car That Everyman Can Own
Maxwell economy of upkeep has made it everyman's car. Thousands upon thousands of Maxwell owners have told us that their running costs are as little as six to eight dollars per month—an amount which the average man spends on casual luxuries. The Maxwell gives an amazing mileage per gallon of gasoline. Instance, the world's non-stop record run of 22,000 miles, when a Maxwell stock car averaged 22 miles per gallon of gasoline.

Own a World's Non-Stop Champion Car
There is no reason why you shouldn't. It's first price is small—far less, when you take into consideration its complete equipment and luxurious refinements, than any other car made. Then its cost of upkeep is so little as to make the cost of a family's ordinary luxuries extravagant by comparison. With the power in its motor to make up hill and down dale like a level road; —with the ease of control that makes driving sheer troubleless pleasure; —and with the stability and endurance that makes the Maxwell, not a one season, but a many-season car; —the Maxwell is beyond doubt the "World's Greatest Motor Car Value"—everyman's car.

May 1st, the new price—\$665—goes into effect.

But you do not have to pay the increase in price if you buy your Maxwell now.
