**HUMPBACKED MULE
IN PANIC AT BLAZE**

**Refuses to Be Rescued and
Has to Be Carried From
Merchants Express Barn.**

190 HORSES ENDANGERED

A humpbacked mule, terrorized by
the fire at the Omaha Merchants Ex-
press company, Fourteenth and Leav-
enworth streets early last evening,
greatly impeded volunteers in the sav-
ing of 190 horses. After being
started to safety, the mule lay down
on the floor several times and finally
had to be carried out.
The fire is supposed to have started
in a wagon on the first floor filled
with wall paper. The horses were on
the second floor. When it was dis-
covered, the entire barn was filled
with smoke. Three alarms were turn-
ed in.

Lead Horses Out.
Before fire departments had ar-
rived, a volunteer force of nearly
fifty men were already leading the
frantic horses to safety. A number
of the panic stricken animals bolted
back into the smoke-filled barn and
were recaptured and brought out only
after sacks had been thrown over
their heads.

Charles Germandt, fireman from
truck No. 1, Nineteenth and Harney
streets, was kicked by a horse in the
left leg above the knee, while leading
one of the horses. He was attended
by Police Surgeon Nigro.
The fire loss was small and the
horses were returned to their stalls as
soon as the smoke had cleared from
the barn.
Commissioner Walter Jardine is one
of the largest owners of the company.

**University of Omaha Students
Are Raising Military Company**

University of Omaha students are
raising a military company. The most
active part is being taken by John
Talliaferro and Perry Allerton of
Council Bluffs. At the present time
four-fifths of the male attendance at
the university is composed of gradu-
ates of the Omaha High school. As
these students have all had four years
of drill it will be an easy matter for
them to raise the company of soldiers.
The company will contain several
former officers of the high school
regiment. John Talliaferro and Eu-
gene Simmons held the offices of cap-
tain; Reed Zimmerman was a major
and John Jenkins had a staff office.
There are enough minor officers to
supply all corporals, sergeants and
lieutenants. No definite work has been
done as to drills and other details.
The company will have its own
signal corps and hospital corps in ad-
dition to its engineering forces. In
the company there will be electricians,
chemists, doctors, surveyors and
mathematicians, as well as many
other branches.

**Munitions Carrying
Schooner Captured
By U. S. Destroyers**

San Diego, Cal., April 11.—A munitions-carrying schooner bound for a Mexican west coast port was fired upon and captured by two United States torpedo boat destroyers, it was learned here tonight from authoritative sources. Five shots were fired at the vessel when it attempted to escape, it is said, and the ship was then beached. Several thousand rounds of rifle and machine gun ammunition, it was stated, was taken aboard the destroyers and landed at a Pacific coast port.
It is known that the destroyers have been scouting for a supposed munitions smuggling ship for more than a week. Monday, according to reports, the patrol boats sighted the schooner, which was south bound off the coast of California and following a course inshore. The warships gave chase and when the captain of the schooner saw that capture was inevitable he reported to have attempted to destroy his vessel.
Refusing to heed signal calls to stop, the skipper steered for shore and beached the schooner. Five shots, the report says, were fired at the ship before it piled up on the beach. The identity of the captain and crew of the schooner has not been revealed.
