Dullness Most Striking Feature Cash Wheat Climbs to New of the Day's Market.

TRADING LACKS BREADTH

New York, April 12.—Dullness was the most striking feature of today's market, the total turnover of 495,000 shares being the smallest of the week. Dealings were covered by the same consideration as those of the last week or two, speculative as well as econogravity interests manifesting an increasing iendency to await developments at Washington.

Progress of the congressional debate on the proposed bond issue indicated the early adoption of that measure, but the conditional adoption of the proposed bond issue indicated the early adoption of the manual tending its distribution and the allotments of loans to the foreign governments are yet to be announced. The many important domestic financial condertakings negotiated during the week are disclosed in the local transcription of the proposed bond in the conditions are disclosed in the local movements of moor for time loans.

Except in the railway division, where trading was relatively most active, the market lacked the breadth of recent sensions. Strongest features of the transportation group, including the transcontentials and consiers. Canadian Pacific, Union Pacific, Reading and numerous minor abares, climal to a points.

There was an unusual inquiry for the new Rock Islanda. Missouri Pacifics, Wabbash needered "A" and "B". Sauthers, Railway, Saaboard Air Line and Colorado Southern. Dishware a Hudson was again under pressure, but railled on the origin buying of other rate in the last hour.

United States Steel and conspicuous insustrials, including the usual equipments and munitions, moved within comparatively marve limits, with reception and charges. The general bonds that was irregular, including the usual equipments and munitions, moved within comparatively marve steels, feetilizers and oils contributed move than their usual quest at gains of z to simpet a points. Shippings were strong, though losing ground on realisting sales. Industrial Alcohol. Ohio Gas. Wilson Pacific, and similar specialities and unities again denoted prefessional activity with semi-dome
