

Nebraska
COMPENSATION BILL GOES TO GOVERNOR

Measure in Amended Form Agreed to by House and Senate.

COUNTY SEAT FIGHTS
(From a Staff Correspondent.)
Lincoln, Neb., April 13.—(Special.)—Concurrence in the senate's amendments to the workmen's compensation bill, house roll 525, was voted by the house today when it came back, and the bill now goes to Governor Neville for his signature. Mr. Dorsey later moved to reconsider this action, but his motion failed.

In its completed form, the bill increases the weekly compensation benefits from \$5 minimum and \$10 maximum to \$6 and \$12, and the total amount in case of permanent disability or loss of members from 50 per cent to 60 per cent of wages during a specified period of weeks. The feature allowing an employee the option of suing or accepting compensation, to be exercised within six months after the injury, has been eliminated.

County Seat Bill Passed.
It looked for awhile as if Senator Hager's bill relating to county seat removal fights would lose out on third reading, as it had only forty-eight votes on the first roll call. A call of the house was ordered, however, and enough votes were added or changed to make the total thirty-five. The negative vote was thirty-eight.

The Hager bill, as it passed the senate, provided that after one vote on county seat location the question should not be submitted again within ten years. The house tacked on an amendment allowing one submission in any county before the ten-year clause goes into effect.

Municipal Utility Bill.
Another measure passed by the house was senate file No. 51, allowing cities and villages to buy or construct electric light and waterworks plants and issue bonds therefor when 55 per cent of the people vote in favor of doing so.

Bank Bill Held Up.
The house declined to accept the conference committee's report dealing with State Treasurer Hall's bill for placing state funds on deposit with banks offering the highest rates of interest. The committee was instructed to consider the bill further and make another report. The particular feature objected to by Mr. Swanson, who offered the motion, was an amendment allowing a bank to have on deposit state funds up to 80 per cent of its capital stock. The house had limited the amount to 20 per cent. The senate conferees agreed to the house amendment limiting the interest to 3 per cent.

Will Ask for Bids on Legislative Supplies
(From a Staff Correspondent.)
Lincoln, April 13.—(Special.)—A motion by Mr. Hoffmeister, asking the secretary of state to secure bids for legislative stationery and general supplies before the next session was adopted by the house today. Hoffmeister declared that some of the material furnished this year had been charged for at about double what it was worth.
