Mayor Dahlman Asks All to Take Heed of Cleanup Days Mayor Dahlman has issued a "clean-up" proclamation for the two days next week, when all are supposed to clean up their lots and alleys and basements. Omaha is getting ready for a general clean-up. Two days have been set aside, so that every citizen can join in making the movement a grand success. Miss Worley, representing the Omaha Woman's club, through her efficient work of weeks has interested schools, churches, Boy Scouts and other organizations which have agreed to get busy. The city, through Mr. Parks, the street commissioner, has arranged to haul away, free of charge, all rubbish that is gathered on those two days, except ashes. I hereby appoint April 20 and 21, 1917, "clean-up" days for Omaha, and respectfully ask all citizens to gather accumulated rubbish from garret to cellar, in yards and alleys, and place them in the City, so the trucks and teams can gather them as they make the trips through these alleys. Never before has such an organized effort been made in our city, and there will be no excuse for any rubbish being left

Housewives Fearful Sugar Will Join the H. C. L. Aviation Corps

Ten pounds of sugar for \$1 is a subject of discussion among housewives and retailers of the city. Strikes at the refineries and an inclination to buy heavily on account of the war situation in this country are factors of the situation. F. S. Keogh of Paxton & Gallagher company gave this explanation: "Strikes have been in progress at the refineries, and at Philadelphia, this condition has obtained for three months. When this country declared war the natural tendency was to stock up on sugar. The refineries in many instances had oversold and when the war demands were met they had to apportion their allotments to the jobbers, who in turn are limiting their sales to retailers. In this way it will be harder for predatory speculators to take advantage of the situation anywhere in the city, if the people will do their part. Now, let us all join hands and not only 'take up' the yards and alleys, but let's 'patrol' up and give Omaha a general overhauling on the 'let everybody take care of his own city' plan. Without the co-operation of the citizens all the work that can be done by the city will fail. The police and health departments will be instructed to enforce the ordinances rigidly after this general clean-up, and any person found violating these ordinances will be arrested at once. We intend to make and keep this the cleanest city in the country. We want your earnest support."

Asks Material For Making of Farm Machinery

At the St. Louis conference of experts in connection with the mobilizing of the western farmers, Frank L. Haller of Omaha called the attention of Secretary of Agriculture Houston to a vital factor in the problem. It is that of providing makers of agricultural machinery with the iron and steel necessary for their business. At the suggestion of Secretary Houston, Mr. Haller presented the following resolution, which was adopted by the conference: "Whereas, The manufacturers of farm implements are experiencing the greatest difficulty in getting seasonable deliveries of steel and malleables and that the production of labor-saving farm machinery, already hampered, promises to become acute, thereby resulting in serious curtailment in the acreage of cultivated lands, be it "Resolved, That the federal authorities be, and are hereby asked to require of the rolling mills and malleable foundries that they furnish the manufacturers of agricultural implements with their reasonable requirements promptly and in preference to filling orders from other manufacturers; whose product contributes only to the luxury or to the convenience of our people."

Guardsman Beaten Up When Pulls "Bum" Off Train

A gang of "bums" who had been forced to get off a train on which they were stealing a ride, was responsible for the beating administered to a National Guard sentry at a railroad bridge Tuesday night, according to an unofficial report current among the guardsmen. Officers of the guard denied a rumor that the affair happened as the result of the sentry stopping a suspect who was supposed to have intended to damage the bridge. According to unauthorized, but reliable sources, it is now believed that the sentry forced some tramps to get off the rods of a passenger coach of the train, as only regular passengers are permitted to cross bridges under guard. One of the men came back and beat the guardsman up with a "billy." Employment Bureau Will Not Have to Change Name

Judge Wakeley in district court declined to grant the Co-operative Reference company a restraining order to require the co-operative free employment bureau in the court house to change its name because of alleged infringement on the name of the plaintiff company. City Solicitor Fiharty, Attorney McGuire of the Board of Public Welfare and Howard Saxon for the federal government represented the defendants. The free employment bureau in the court house is maintained jointly by the Board of Public Welfare and the United States employment service of the Department of Labor.

Silo Special to Be Run by U. P. Second Week in May

The date for the running of the Union Pacific silo special train has been changed from May 1 to May 7. It will be out during the entire week and will visit something like seventy-five Nebraska towns. The first stop will be made at Columbus. The train will be accompanied by a battery of lecturers, agricultural college experts and farmers.

Burlington to Build a Service Station at Cody

The Burlington has started the construction of a \$30,000 restaurant and service building in Cody, Wyo., its purpose being for the accommodation of Yellowstone park tourists. The building is being erected close to the depot and about one-half mile from the town. It will contain a large rest room for tourists who start from Cody to make the automobile trip through the park.

A CLEAN STOMACH MAKES A WELL MAN.

tables, and with air and good exercise you need little else. If the liver needs rousing—and most of us need this once a week—take a safe vegetable extract of the leaves of aloë, May-apple, root of jalap made into a tiny sugar-coated pill, sold by almost every druggist as Dr. Pierce's Pleasant Pellets and first put up nearly fifty years ago. Most people die eventually of an over-acid condition. If the blood can be rendered more alkaline, the longer we live. With regular hours, 6 to 8 glasses of water between meals, sensible coarse food and a chance to get the poisons out of the system, a man will live to be a hundred. But, unfortunately, our highly nervous way of living brings increased storage of uric acid in the body. This acts as a poison, and consequently we suffer from headaches, neuralgia, lumbago, aches or pains, rheumatism, gout. Get rid of this uric acid poison by taking a harmless medicine called Anuric, which throws out the uric acid by stimulating the kidneys. Drink a pint of hot water before meals and take Anuric (double or triple strength) after meals and at bed time. Anuric can be obtained at almost any drug store, or send \$1.00 to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for full treatment.
