

WOMEN ANXIOUS TO HELP THE RED CROSS

Carry Their Text Books Around
Just Like Some Girls Go-
ing to School.

LEARN TO MAKE BANDAGES

"Can't I help? My husband is an invalid, but I can spare afternoons to roll bandages," said Mrs. T. C. Cullen as she handed over \$1 for membership in the Red Cross society. She was an elderly woman, work-worn and tired from shopping, but—

"I'm patriotic. I couldn't pass by Red Cross headquarters without offering to help," she added.

Mrs. George Voss will be chairman and Miss Caroline Barklow treasurer of a new Red Cross class now being formed to take instruction in surgical dressings when Miss Nellie Calvin returns next week from Chicago.

Miss Calvin went especially to learn the methods of preparing hospital supplies and will in turn impart her knowledge to members of the class, each of whom will qualify to teach as additional classes are formed.

Miss Mary Cooper has offered the use of her studio in the Lyric building for the class.

Society women are seen on the downtown streets armed with first aid text books. Mrs. Clement Chase has joined so many classes she had to purchase a large bag in which to carry her books, just like a high school girl.

Mrs. A. L. Reed's class at the Nurses' club was taught how to bandage. After the demonstration each member of the class was called on to repeat the work.

Dr. W. Y. Thompson and Dr. R. A. Moser are the latest physicians to offer instruction for Red Cross classes.

Mrs. E. S. Westbrook wants more volunteers for the motor driving section. Instruction in motor mechanics awaits the return of Mrs. Louis Clarke, captain, from Kansas City.

Consumers Held Responsible for High Sugar Price

The president of one of Omaha's biggest jobbing concerns, who asks that his name be withheld, says the consumers are really the biggest speculators in food, and are responsible more than any for the steadily mounting prices.

"One Omaha hospital has bought sufficient sugar to supply its needs for four months," he says, "and is now trying to get more. This is a mistake; we are not going to run out of sugar, and while we are just now limiting our sales, it is not to hold up prices, but really to prevent a shortage being forced by the accumulation of stocks in consumers' hands. I sold sugar in 1877 at prices higher than now asked. We are taking care of our customers, but, in common with all other wholesale grocers, we are declining to sell everybody all they want. Sugar still will be made, and the price will be lower when folks get over their nervousness."

Wheat Prices Drop, So No Sales Are Made Here

Although there were no sales on the Omaha market, bids indicated that wheat prices were off 6 to 10 cents per bushel from Monday, which ranged from \$2.54 to \$2.58 per bushel. Receipts were light—eight carloads.

The drop in wheat was attributed to the report that Canada was about to remove the duty on wheat and breadstuffs and that the United States would follow.

The option market was hit as hard as the cash. Chicago May selling down to \$2.25½, from \$2.37½ per bushel, the high of Monday, while July sold down to \$1.90, a drop of 10 cents.

There was a good demand for corn. It was in sympathy with wheat and sold from \$1.43 to \$1.49½, a drop of 3½ cents. Receipts were thirty-five carloads.

Oats were more steady, selling at 69½¢/70¼¢, a decline of ½ cent. The receipts were twenty-four carloads.

TO CELEBRATE 30th Anniversary PROMINENT SPECIALIST WILL GIVE AWAY TREATMENT FREE

A man who is celebrating his thirtieth anniversary of successful work in a very happy and generous frame of mind. This is just the condition of Catarrh Specialist, whose picture you see here. For thirty years he has been curing Catarrh all over the country. He has given up everything for what he felt was his life work—post as surgeon in the British Royal Mail Naval Service—days and nights to study and research. He has traveled extensively, observing the effects of climate on Catarrh. He is today known as The Catarrh Specialist of America.

His method of treatment is new, different from others, and has brought untold joy to hundreds and hundreds of Catarrh sufferers. But you say, I would like to see this treatment. Here is your opportunity. To celebrate his 30th anniversary, Catarrh Specialist Sproule offers his famous Catarrh Treatment Free to all who write before May 30th.

Think what this offer means to you! You secure a treatment which is famous all over America—you see for yourself a method of treatment which has really cured Catarrh, and you get this treatment for nothing.

SEND TODAY

Remember this is a most expensive celebration for the Specialist, and he can't afford to do it for long. You must not miss the chance. Just get paper and pencil and cut down your full name and address, with just three words, "Catarrh Treatment Free."

If you have a post-card handy, use that. The point is, to send at once for this treatment, so that you can get it free and try it for yourself.

You know how loathsome and disgusting a disease Catarrh is. You know that it leads to dreadful incurable troubles. Perhaps you have always thought that Catarrh was incurable. You had not realized that there was a man who has devoted a quarter of a century to its study, who has cured scores of cases just like yours.

Don't delay, but write right now for the Free Anniversary Treatment.

Address: Catarrh Specialist Sproule, 192 Trade Building, Boston, Mass.

Omaha Man to Wed, but Cannot Be Classed in the List of Slackers

There is at least one young man in Omaha who will not be married to avoid war service, but instead will wed and sally right into the service, too.

This is Charles A. Bennett, 412 Lincoln boulevard. He is an engineer for the firm of Anderson & Bennett, consulting and designing engineers, 424 Bee Bldg.

Monday night he got a telegram from the Navy department appointing him as a consulting engineer in the bureau of docks and yards, and ordering him to report at the navy yards at Bremerton, Wash., across the bay from Seattle. He is to report there by May 15.

In Dell Rapids, S. D., lives a young lady named Wilhelmina Uline, with whom Charles had reached an understanding some time since.

Charles thought a minute. He thought only a minute, and then he wired Uncle Sam an acceptance. Maybe he sent another wire to Dell Rapids, S. D.; anyway, arrangements were soon completed, and Charles is to marry the girl on his way to the coast. The date has been set for April 28.

Miss Uline is the daughter of a former bank president of Dell Rapids, and a young lady who would not have Charles be a slacker for anything in the world.

Mr. Bennett is something of a military man by nature and by virtue of hard work. In the University of Nebraska he was captain of Company C of the cadet battalion, and in these positions won the cup in the competitive drill with Company C against the entire battalion, and with his Pershing Rifles, another crack drill team made up of officers. He also was awarded the special Pershing medal, a Tiffany medal which General Pershing sent

C. W. Turner, Sr., Dies at His Home in New York

Charles Wesley Turner, member of the New York Stock exchange since 1886 and senior member of C. W. Turner & Co., died Thursday night at his home, No. 634 West End avenue, New York, at the age of 65. He joined the Seventh regiment in 1879 and was one of the oldest members of the New York Athletic club.

Mr. Turner was well known in Omaha, as he visited his son here several times. C. W. Turner, Jr., was in the brokerage business here and later was manager of the Brandeis theater. He was married to the widow of Hugo Brandeis.

Army Officers Observe City from Captive Balloon

Three army officers gave Omaha the "once over" Tuesday morning from a captive observation balloon. It was sent up 600 feet from the Fort Omaha balloon school. Captain Fretz and Lieutenants Joutett and Davidson were the observers. Even through the haze that hung over the city they could see movements of trains and similar activities around Omaha, which to the officer students at the fort serve as representatives of troop movements in war time. On the battle from the balloon observers are the eyes of the army.

CHARLES A. BENNETT and WILHELMINA ULIN.

from the Philippine islands to be awarded to the best soldier student in the University of Nebraska. Upon graduation he was commissioned major by Governor Aldrich.

For some time Mr. Bennett has been consulting engineer of the school board. He will go to the navy yards as a designer of guns and heavy machinery. From his university records, his standing and experience he was listed with the navy for some time as available material in time of need, and this appointment comes now as the result of his rating there.

Had Not Touched Sister Who Had Scarlet Fever

A public school girl, carrying books under her arm, called on Health Commissioner Connell during the early morning rush hour and explained that her teacher had dismissed her on account of exposure to a contagious disease.

"I don't understand why I can't go to school. My sister has scarlet fever, but I have not touched her," said the girl.

"Why, my child, your sister is peeling like a rattlesnake," replied Dr. Connell.

"Well, if that is the case, I suppose it is me for home," seriously concluded the girl.

Burglars Have One Busy Night in Benson Stores

The awakening of a clerk in the store of Wolff & Soward in Benson stopped some burglars in their night's work after they had looted three saloons and were at work trying to pry open the cash register of the store.

At Harry Post's saloon they got \$8 from the cash register after breaking a window. At the saloon of Jacob Gehrich they secured \$6 in cash after breaking in the front door. At Chris Lyck's place they got \$6 in cash, \$75 worth of whiskey and two gold watches.

Several Fined; Violate Speed and Parking Laws

A fine of \$5 and costs was imposed upon each of the following men in police court Tuesday: W. A. Erath, 5335 Leavenworth street; E. J. Kraus, 410 Keeline building; G. B. Wurn, 2012 Locust; S. P. Stewart, 1708 Davenport; F. J. Norris, B. B. Le-

dorsky and Harry Merriam. They violated the speed laws.

For parking their autos too long, John Stray, 1202 City National bank building, and Alec Fich, 501 City National bank building, paid fines of \$1 and costs.

Isaac Loukasky was fined \$1 for driving a wagon without tail-lights. The sentence was suspended.

C. H. Rubenstein, 3009 South Sixteenth street, paid \$1 and costs for violating the boulevard ordinances.

School Board Works On Building Program

Members of the Board of Education are holding a series of meetings as a committee of the whole to outline in a definite way a new building program

which will call for additional school bonds.

The board expects within a few weeks to make a public statement of the situation. The new High School of Commerce project at Twenty-second and Chicago streets is being favorably considered. This building will cost more than \$400,000. A junior high school is being considered.

Partners: Father Time Ages VELVET. Mother Nature Mellows It
An unbeatable team: Time and Nature.

When tobacco manufacturers try to substitute hurry-up curing methods for slow, natural ageing of tobacco, you smokers pay the price.

There is no better method of bringing out the mellowness and mildness of "Kentucky's best" than two years natural ageing in wooden hogsheads. VELVET is Kentucky's best Burley tobacco aged by Nature's method, the patient method, the expensive method, but the best method known to man.

Think about that over a pipe of VELVET.

Loggatt & Myers Tobacco Co.

G M C Trucks Win Highest Rating

In City of Chicago Competitive Tests for Trucks

When the City of Chicago buys Motor Trucks, the Commissioner of Public Works is instructed to ask for bids and to award contracts to the manufacturer showing the highest rating, based on the following points:

- | | | |
|--|------------------------------|-----------------------------------|
| 1—Price | 6—Comparative Cost of Repair | 12—Frame |
| 2—Service Facilities | 7—Motor | 13—Springs |
| 3—Inspection and Testing of Parts and Material | 8—Clutch | 14—Wheels and Size of Tires |
| 4—Practical Experience with Truck by Others | 9—Transmission Gear Set | 15—Brakes |
| 5—Responsibility of Manufacturer | 10—Final Drive | 16—Steering Gear and Arrangements |
| | 11—Axles | |

The trucks are given a comparative marking on the basis of 100 points, made up from the above sixteen important features.

The last three purchases of motor trucks by the City of Chicago were awarded to the General Motors Truck Company over all competitors, for in three successive tests GMC received the highest rating. Read the requirements again carefully. The City of Chicago is buying motor trucks on the basis of actual merit.
