ROURKES RING UP ANOTHER VICTORY

Wallop Julesburg, Colo., Outfit in Sandstorm by Score of Sixteen to Seven.

SEASON OPENS TODAY

Julesburg, Colo., April 17.—(Special telegram)—Pa Rourke's hopefuls made it ten straight victories for the spring pre-season series by defeating the Julesburg nine by a score of 16 to 7 here today, in a conflict staged on an open lot in a Colorado sand storm.

Like the fray at Grand Island, today's clash was turned into a farce comedy, with Cy Forsythe, the celebrated tango kid, starting in the featured roll of hurler. Cyrus had "old Lizzie," as he calls his curved ball, working in fine style and he made the Julesburg sluggers keep on foot in the water bucket all the time.

The Rourke's got away to a flying start in the opening round by pouncing young Pendleton, who once tried out with Omaha, for five runs. After the third inning, when it was manifestly apparent the locals could not cope with the Western leaguers, the burlesque began, the antics of the Rourke's keep the 250 or so fans in a constant uproar.

Joe "Stecher" Chemeler, who started the pitching, was the hitting star of the matinee. The Dodge county lad whanged out four hits, including one homer and two doubles. Marty King and Tony Brotten also made four hits and a circuit clout each. The Rourke's left Julesburg at midnight for Denver, where today they open the 1917 Western league season. Otto Merz or Marty O'Toole will do the twirling, while Brotten will be behind the bat.

Three Ex-Husker Gridiron Stars Offer to Enlist

They have had considerable military experience and it is expected their applications will be favorably received. Halligan and Corey have both finished school and are engaged in business. Doyle is a senior in the University Law college, but under a ruling of the faculty will receive his degree should his application be accepted.

The war spirit is burning stronger at the university and the enlistment of university men promises to pick up during the next two weeks. Over a hundred of the cadets have indicated they will offer their services before the close of school and nearly as many in the engineering departments have already taken steps to join the army of industrial workers.
