The rooms are well ventilated and lighted and are kept in a cleanly and sanitary condition. We have a comfortable and pleasant home and are perfectly satisfied with conditions as they are. Furthermore, we most earnestly and emphatically protest against the house being closed, thus depriving us of the home which has been so generously provided for us."

United States Will Lend Big Sums to Russ Government Washington, April 18.—The American government is only awaiting definite word from Russia as to the needs of that nation before taking active steps to strengthen the new government and make more effective its resistance to Germany. No specific request for assistance has been received. It is taken for granted that a large sum will be lent to Russia if it is desired, because it is agreed that the United States should go to almost any lengths to assist the new democratic regime there. A group of American engineers will be sent to Russia, if requested, to assist in systematizing industries there.

Ford Waives Patent Right On Tractors to Aid Allies Detroit, Mich., April 18.—Henry Ford at the request of the British government has waived all patent rights on his farm tractor and has cabled the specifications to England so Great Britain can manufacture tractors for use in the British Isles and in France. Announcement to this effect was made at the Ford Motor company today.

Recruit Regiment Daily. Washington, April 17.—Recruiting figures for the regular army, made public by the War department today, show that more than 20,000 men to form a regiment are being obtained daily. For the five-day period, April 11 to 15, a total of 7,171 men were recruited, a daily average of 1,434. Enlistments in the navy Saturday and Monday totaled 1,625 men, bringing the combatant force of that service up to 71,698 men.

Executive ability in smoking The highest type of executive is the man with the ability to think twice before he acts once. Such a man absorbs advice—but reserves the right to act according to his own judgment. This type of man, in smoking, will probably be careful to select a mild cigar designed, like Tom Moore, for pleasant smoking. He will certainly find pleasure in the mild fragrance of this light-hearted Havana.

GERMANS RESIST WITH UTMOST FURY

French Press On Successfully Despite Powerful Attacks of Enemy.

BIG GUNS CLEAR THE ROAD

(From a Staff Correspondent of The Associated Press.)

Grand Headquarters of the French Army on the French Front (Monday Night), April 18 (Delayed).—Not only did the French army get astride and partly around the so-called Hindenburg line today, but, in doing so, they captured many thousands of German prisoners.

After one of the most intensive artillery bombardments of the war, the French tonight advanced along another twenty-five mile front. Shells were poured daily into the German positions and this morning from north of Soissons to just west of Rheims the French infantry started the work for which they had been patiently waiting.

Germans Resist Stubbornly. The Germans opposed the advance with their utmost power, bringing into play thousands of cannon and machine guns, which had been emplaced in the most advantageous positions. Nothing, however, could withstand the gallantry and skill of the French, whose ardor was strengthened by the sight of the desolation through which they passed.

The correspondent watched one phase of the battle from a prominent position in the new French advance. The brigade, with which he was stationed, was composed of troops who had won the highest fame in pushing back the Germans around Verdun. Now, as then, it was under the command of a colonel, who proudly told the correspondent that he had fought beside both Americans and British in the Boxer war.

Capture Difficult Position. Part of the brigade's task today was the capture of a position forming one of the most difficult problems along the line owing to its being undermined its whole length and breadth by deeply tunneled quarries whose galleries were immune to artillery and bristling with machine guns.

There was no hesitation among the French soldiers when the order to advance was given, but they did not throw their lives away. There was no hurry; every movement was executed as if on parade. Advantage was taken of every inch of cover, and thus the infantry were able to approach up the sloping ground until within striking distance of the numerous entrances to the tunnels; then they encircled the whole plateau and left sufficient men around to prevent the garrison's retreat or its communication with the main body of the Germans. Its fate was then sealed.

Pleased By Their Capture. Meanwhile the bulk of the French troops continued their advance both here and on other parts of the line. Telephone reports from various sectors told of the successes, sometimes big, sometimes small, of the different corps engaged. Everywhere behind the advancing French groups of German prisoners were to be seen on their way to captivity.

Before evening more than 10,000 had been counted and others were arriving. Some of the prisoners told of exceedingly severe losses, their company being reduced in several cases from 250 to eighty men or thereabouts.

All seemed pleased over their capture, some of them saying that there would be many desertions except for the constant vigilance of their superiors, as most of them were tired of the war.

REAVIS HONORED IN LOWER HOUSE

First District Congressman Gets Place on Judiciary Committee.

SLOAN KEEPS OLD PLACE

(From a Staff Correspondent.) Washington, April 18.—(Special Telegram.)—The republican members of committees of the sixty-fifth congress were announced in the house today.

Reavis to Judiciary. The only change in the Nebraska delegation, so far as the republicans are concerned is with Mr. Reavis, who takes a place on the important judiciary committee. Under a rule adopted in the sixty-third congress, no member can be a member of certain defined committees like judiciary, ways and means, appropriations, navy affairs and still hold a place on minor committees.

In view of his decided promotion Mr. Reavis will leave the committee on coinage, weights and measure, expenditures in the Department of Agriculture and war claims, of which he was a member in the sixty-fourth congress.

Congressman Sloan retains his position on ways and means. Judge Kinkaid retains his place on irrigation of arid lands, where he is the ranking minority member. If the house should be republican in 1918 he would become the chairman of the committee.

Ramsey Makes Change. In the Iowa delegation there are a few changes. Representative Ramsey of Bloomfield, leaves elections and invalid pensions and goes to the committee on postoffices and post roads.

Battling Nelson Easy Prey For Champion Fred Welsh St. Louis, April 18.—Freddie Welsh, lightweight champion, easily bested Battling Nelson, a former champion, in twelve rounds last night. Welsh was too clever for Nelson, and was not hit more than half a dozen times. Welsh also showed his punishing power. His left darted to Nelson's face repeatedly and his right-fighting was far superior to the Battler's. The blows Nelson landed seemed to lack their old time sting.

"Athletic Heart" Bars Star Of Gridiron From War Duty Chicago, April 18.—Philbrick Jackson, captain of the University of Chicago football team last year, was rejected on account of "athletic heart" when he applied for enlistment in the Marine corps today. Three other athletes were accepted, Al Lindauer, Big Nine conference tennis champion; Hal Kesche, captain of the wrestling team, and Max Fellers, a substitute end on the foot ball eleven.

Dr. Howard James, formerly Resident Physician of New York City Hospital and Assistant Physician of New York State Institutions, says:

"Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. A patient of mine remarked to me (after having been on a six weeks' course of Nuxated Iron): 'Say, Doctor, that there stuff is like magic.'"

"If you see not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. From my own experience with Nuxated Iron, I feel it is such a valuable remedy that it should be kept in every hospital and prescribed by every physician in this country."

Nuxated Iron, recommended above by Dr. James, is for sale by Sherman & McConnell Drug Stores and all good druggists on an absolute guarantee of success and satisfaction or your money refunded.

Tornado Topples Small Buildings In Seward County

Tamora, Neb., April 18.—A tornado, accompanied by rain and heavy hail, swept over the place about 5:30 p. m. yesterday. Barns, windmills and other buildings were swept away and a few houses were unroofed.

Hardly a barn in the town escaped some damage and scores of small buildings were completely wrecked. So far as can be learned tonight no one was injured.

The farming country around Staplehurst, in this county, suffered considerable damage. For along stretch hardly a windmill is left. Some of the hailstones were so heavy as to penetrate roofs.
