Put Color in Your Cheeks

There is no successful imitation of the glow of health. Rich, red blood showing through translucent skin means not only beauty, but health. When your color fades you will find that your heart palpitates on slight exertion, such as climbing stairs, and that your breath is short and you lack ambition. Now is the time to use caution. Take our Mineral Spring Baths and drink our health-reviving Mineral Water.

It's Easy To Remove Blackheads!

"Almost in a Twinkling, They Come Right Out," Suggests Valeska Suratt, the Stage Beauty "That Never Fades."

MISS G. E.—Well, you are the girl that will be surprised if you will use my formula for beautifying the skin. I can promise you really and surely an exquisite complexion for a mighty short time, with a tint like the rose, and spotless as the lily, if you will make this cream at home yourself and use it. Now get from your drugist one ounce of salicylic acid and mix it with two tablespoonfuls of glycerine in a pint of water. This makes a rich, soapy cream, use it freely every day—and you will have your dream come true.

UNCOMFORTABLE!—Every morning and during the day, if possible, apply freely some hyposulfite of soda to the arms and the terrible perspiration will be entirely controlled. Sodor will cause at once and you'll run no more even or suffer embarrassment. It is really magic in its work.

MISS J. K. M.—This formula brings the skin back to all its original plumpness and vigor. An astonishing result is the quick disappearance of wrinkles, little and big, crows' feet and lines of age. It is simple and can be prepared in a few moments, by adding to half a pint of water, one tablespoonful of glycerine and two ounces of soda. Obtain from your drugist. This takes years from your appearance, and is always sure and positive in its work.

MRS. W. F.—Avoid mechanical instruments for bust development. Use a safe formula, by mixing two ounces of riceflour, half a cup of sugar and half a pint of water. Two tablespoonfuls of this after each meal, and one at bedtime, will in most instances do wonderful work. Of course no one can promise sure results in any one case.

SUPER—Well, I wanted you before not to use any of the hair "burners" commonly used for removing hair. Instead the hair with safe solutions, which you can get at the drug store. This will make the hair literally whiter away in a few minutes. It can't hurt the scalp, it makes the hair soft and fair, without spots or redness.

MRS. E. E.—You can make your hair grow about an inch a month—and in a short time, instead of your hair being only to your shoulders, it will be down to your waist, silk and luxurious, and then this space will be filled with new growing hair. You can rely on this result. Hundreds of my friends are having this experience. You can make up ever six or eight ounces of hair grower, by mixing one ounce of betaniquinol with either a half pint each of water and alcohol, or else with a pint of bay rum. This costs less than any prepared hair-treatment you can buy, and never falls as others do. Don't fail to try it.

MISS J. L. S.—It is very true, nearly all face powders are much too chalky, and do not sit evenly on the skin. This is one of the reasons why they are so unpopular. My own formula, it is wonderful in its fitness and is invisible when applied, giving a bloom to the skin which is perfect. It is now sold in drug stores, as "Valeska Suratt Face Powder," for and never falls as others do. Don't fail to try it.
