Clement Receives His Second Carded in Week

W. H. Clement Motor company received on Friday another carded of Liberty touring cars, making the second received in the last week. These are very attractive touring cars, being equipped with accessories and one for its com-

pany with white Hook wire wheels. Commenting on these deliveries, Mr. Clement said: "I believe that the two carded we have received in such short space of time from the date of our contract is an indication that deliveries are going to continue in a satisfactory manner."

"When at the factory a couple of weeks ago I signed up for this territory I was then informed I would simply have to wait my turn as the orders on hand would be filled in strict regard to date filled. The shortage in painted equipment resulted in a pile-up of orders and it took them several days to catch up on them, but from present indications very little trouble is connected and we can confidently expect a very good time, day or night, hereafter."
