Goods Delivered Promptly. Open Evenings Until 8 P. M. FIRST COME FIRST SERVED

DISPOSITION

Table listing various livestock items and their prices, including Cattle, Hogs, Sheep, and various breeds.

REMARKS

Receipts were light this morning, only 133 cars being reported in, which is the smallest run on a Monday for a good many weeks here and smaller than a year ago by 1,000 head.

REMARKS

With light receipts there was a better feeling this morning and beef steers were fully steady and in some cases possibly a little stronger than last week's low point.

REMARKS

The local cash demand for wheat was very slow today and, while the receipts of this cereal were fairly good, only a few cars of wheat were reported sold.

REMARKS

The sentiment in the local pit was during the early part of the session quite bearish and all grains ruled somewhat lower.

REMARKS

The course grains were influenced by the action of wheat and recovered from the low point shortly before the close.

REMARKS

Operations were on a lighter and narrower basis than last week, but the market was steady at the opening.

Do you think our Government should confiscate the property of its citizens without compensation?

Do you know that the annual revenue paid the government by the liquor industry exceeds the total annual interest on the new SEVEN BILLION DOLLAR WAR LOAN?

—that there are now stored in Government Bonded Warehouses, over 211,000,000 gallons of whiskey and other spirits?

—that distillers have given bonds to the Government for over \$232,000,000 for payment of taxes on these goods?

—that prohibition would confiscate not only the millions of gallons stored in bonded warehouses, and would confiscate bonds to the extent of \$232,000,000—an amount greatly in excess of the total capital and surplus of all the bonding companies in America—so that the Government would lose \$232,000,000 taxes?

These conditions exist because the government—in order to provide pure and mature goods—has decreed that whiskey may remain in bond 8 years and, if bottled in bond, must remain in bond 4 years for bottling purposes.

The Constitution of the United States guarantees that private property shall not be taken nor destroyed for the public good, without due compensation to owners.

Prohibition is alleged to be for the public good. Prohibition as now proposed is ruthless confiscation. From every standpoint of American justice, should not the cost be borne by the Government—state or national—decreasing it? Confiscation without compensation is un-American and contrary to the Constitution of the United States.

The liquor industry has paid to date over six billion dollars in taxes to the Federal Government, and is now paying nearly \$1,000,000 per day.

We ask a just and equitable consideration of the economic, moral and financial problems of proposed Prohibition.

Write for detailed information on any point. The National Association of Distillers and Wholesale Dealers. Comprising 80% of the Distillers and allied interests of the United States. Executive Offices: Cincinnati, O.
