

Nebraska SORORITIES LEAD IN SCHOLARSHIP

Girls at State University Again Demonstrate Superiority as Students.

FARM HOUSE BOYS IN FRONT

Lincoln, April 24.—(Special.)—The sororities of the University of Nebraska again demonstrated their superiority in scholarship over the fraternities when the records for the first half year of 1917 were made public yesterday by Dean Engberg of the faculty scholarship committee.

Both fraternities and sororities showed improvement in scholarship, but the co-eds belonging to the Greek letter organizations set a record which has never been equalled at Nebraska. Three of the organizations, Alpha Chi Omega, Achtho and Alpha Phi finished the first half of the year without any delinquency. Some of the leading fraternities slumped off a bit in scholarship, but the average was a gain of 16 points for the men.

The Farm House, an organization which does not have representation on the interfraternity council, headed the men's organizations with Acacia second. Gamma Phi Beta took the lead among the sororities.

The general average of the fraternities this year was 163.9, as against 147 last year. The sororities piled up a general average of 266.6 this year, against 233 in 1916.

Following are the individual records of the Greek letter organizations, showing the scholarship average of each with the percentage of hours reported delinquent:

RUSS SOCIALISTS ANGRY AT KAISER

Killing of Leaders Who Were Enroute Home On Ship Sunk by Torpedo Causes Wrath.

CALLS RULERS HYPOCRITES

London, April 24.—Dispatches from Petrograd today state that the Russian socialists are greatly exercised over the sinking by a German submarine of the steamer Zara, which was taking home a number of Russian refugees. The Zara sailed on April 11 and was torpedoed in northern waters two days later.

Among those on board the Zara were Peter Karpovich, leader of the students in Petrograd university, who lost his life, and M. Jensen, leader of the Lettish social democratic committee in London. Karpovich was sentenced to Siberia in 1901 for shooting M. Bogolopoff, Russian minister of public instruction. He escaped from prison and in 1913 made his way to London.

The official organ of the council of labor deputies in Petrograd, commenting on the sinking of the Zara, says: "This heavy blow right at the heart of the Russian revolution cannot pass without its effect. The revolutionary democracy must reply with a blow at the center from which the torpedo was sent. The democracy must regard the murder of its leaders as proof that the rulers of Germany are base hypocrites and that their promises not to harm the cause of Russian liberty are empty words."

KILLS PAIN

Amazing Power of Bon-Opto

To Make Weak Eyes Strong

Doctor Says It Strengthens

Eyesight 50 per cent in One

Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home.
Victims of eye strain and other eye weakness and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind, could not see to read at all. Now I can read everything without my glasses, and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed heavy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even the print without glasses." Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes, which induced frequent headaches. I can now wear glasses for several years, both for distance and work, and without them I could not read my own name on an envelope or the type-setting on the machine before me. I can read even the finest print without glasses. My long distance glasses altogether. I can count the fluttering leaves on the trees across the street now which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."
It is believed that thousands who wear glasses can now discard them in a reasonable time and multitude more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription at home. Go to any active drug store and buy a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water the first day, two four times daily. You should notice your eyes clear up perceptibly right from the start, and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.
Note: Another prominent physician, to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or mistle glasses, water, aching, smarting, itching, burning or inflamed from exposure to smoke, sun, or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto, referred to above, is not a patent medicine or a secret remedy. It is a simple preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyes in many instances or to give a good result. It is sold in every good drug store and is sold in bottles of 25c and \$1.00.
