Sheen—A combination of light supplies, a fairty good deimand, and a generally strong tone all round the market loop sent prices to new high levels this morning. The upturn was unevenly distributed, but good Mexican lambs, which made up the bulk of the wooled offerings, sold mainly be higher than reserved as, and one lot, the mates of lambing-link were cashed early yesterday at \$14.60, showed a flat 40e upturn, bringing \$18.40. Several cars of good handy weight Mexicans touched a new record price of \$16.40. This figure is \$00 ahove the high mark of \$11.80 last Friday, and is an even dollar bigher than the best price patd a week ago today.

On the bulk of the offerings clipped stuff showed less advance for the flay than wooled grades. A deck of handy clipped stuff showed less advance for the flay than wooled grades. A deck of handy clipped for the sheer stuff offered.

Shorn owes at \$10.50 were a nickel higher than owe the same band of stuff soid yesterday. Nothing of importance in the line of wooled sheep was here and; in fact, almost none have been offered this week. That they can be excedited with at least part of the airfance lambs have shown is certain, and gued even are safely questing up to \$12.50. With none showing up, wether and yearling quictations continue to be just a gives work proposition.

The acrival of four cars of California spring lambs, the first that have been here this season, caused no excitement in the trace. Early in the day they were held at \$17.60, but it was reported that by noon only \$10.00 was asked for them. Up to a late hour they had not sold. The selling of spring lambs at less than yearling lamb prices at this season is a new feature of the trade. It is, of course, due to the loftiness of the wool market.

Almost the only exceptions were the shippings and rails, those rising steedily in the face of heaviness electrices the market closing with an irregular tone. Total sales amounted to signify over a million shares, the largest in several weeks.

Peace rumors were brought into play in the last castings, but these received little credence in high quarters. Pactors which militated against a further advance of prices were founds in the small accession of outside inquiry and the attitude of banking interests, who have registered their opposition to any austained market movement at this time.
