indicating that the supply and demand

ettailton was even more pullish than had been assumed. The startling advances continued un-checked right up till the last going, when the extreme rise from the low point of the day was 3C cents. The bigged jump was in the September aption, which hereiofore had been relatively low because both the writes and spring wheat crops would be available in that month. The confirmation of \$2,18 as the official setting pris for May contracts was al-mourced just prior to the last half haur of trading and it may be that the violent con-tract between that figure and even the ad-canced quotations for July and Sevienther had some infimute in eausing the final as-cent of more then 15 cents a tushed in the thirty minutes immediately preceding the cities.

Thirty minutes immediately preceding the thirty minutes immediately preceding the thirty minutes in the second seco
