

WOMEN MUST LEND AID, PUGSLEY SAYS

Conservation in Home is Most Important Professor in Agricultural School Tells Food Congress Hearers.

How serious the food shortage is, Prof. C. W. Pugsley told women at the food conservation meeting Friday morning.

"With a shortage of wheat staring us in the face, millions of men already retired from the fields of production on account of the war, and many more from this country to be drafted, you women must help the government conserve," he said.

The appointment of emergency food agents is contemplated by the government, he said. Prof. Pugsley also informed the women of emergency measures passed by the European countries in handling the food situation.

"Government and state laboratories are working day and night seeking food substitutes. The use of whole wheat flour instead of white is one of the most important measures considered."

Grind Flour at Home.

"Grind whole wheat flour in the homes," Prof. Pugsley advised. "A small \$3 grist mill will grind in thirty minutes enough whole wheat to supply a family of six for one week. For families which cannot afford the mill, let power mills be put into school buildings or social centers for free use. Buy the wheat in carload lots and sell it to the poor at cost. There are persons actually starving now in their efforts to keep up with the high cost of living."

Prof. Pugsley then told of an astoundingly simple method of drying fruit or vegetables in only twenty-four hours. The method was discovered by Dr. J. C. Gore of the Department of Agriculture at Washington and was publicly announced for the first time by Prof. Pugsley, who learned of it in Washington last week.

Use Electric Fan.

The use of the electric fan is the wonderful discovery. Observing the rapidity with which a road dries when the wind is blowing, Dr. Gore applied the principle to evaporating fruit. It worked successfully, doing away with the old process which takes so long and leaves the fruit discolored and without its flavor.

Here is the process:

The fruit or vegetable is pared and sliced, then put in light, wooden trays which have steel wire screen bottoms and ends. Stack up the trays, then set the electric fan at one end and let a current of air blow through the trays, which are about three feet long, twelve to eighteen inches wide and two inches deep. When dry place in paraffin cans, which cost only 1/4 cent for quart size.

Before cooking, put in cold water for two hours or more.

The vegetable will swell up and look just like the fresh vegetable, having retained its color and flavor.

For farms or country towns where there is no electricity, Prof. Pugsley recommends community drying plants with the fans run by gasoline power. This method is being used in the Lincoln school and will be demonstrated in the canning school the university will send to Omaha soon.

Mrs. Orville R. Lamb, Hurt in Automobile Crash, Dies

Mrs. Orville R. Lamb of Minatare, Neb., died Friday at St. Joseph's hospital from injuries received April 30, when an automobile in which she was riding with H. W. Ellis, 505 South Twenty-sixth avenue, was struck by a freight train at Leavenworth street and the Belt Line.

A. W. Jefferis to Hand Out Diplomas at Millard High

A. W. Jefferis, Omaha attorney, will deliver the graduation address and hand out the diplomas at the annual exercises of Millard high school Tuesday evening. County Superintendent of Schools Keenan will speak. The class play was presented Thursday night.

Billion Mark for Allies' War Loan Reached in June

Washington, May 24.—Indications are that approximately \$400,000,000 will be advanced the allies in June, bringing the total up to more than \$1,000,000,000.

Red Cross Activities

Red Cross memberships have now totaled \$49,000. Although \$4,744 memberships have been reported to the headquarters, 3,000 others have been pledged, but the money has not yet been turned in to the treasurer.

"Red Cross officials feel particularly gratified that Omaha has raised \$40,000 for the Red Cross, which is the same amount that was given to Omaha for the relief work at the time of the tornado," said W. G. Ure, local secretary.

"Boy Scouts of Omaha, whose campaign closes Saturday evening, have reported 500 memberships, and they anticipate obtaining 500 more," said C. H. English, scoutmaster.

Over 200 memberships are being taken at the Red Cross booth at the Food Conservation congress at the Auditorium this week under the leadership of Mrs. H. H. Badridge, chairman of the booth committee.

Red Cross at Armour Plant—A Red Cross auxiliary composed of 150 employees of the Armour packing house, met for the first time Thursday evening to begin work at hospital supplies under the instruction of Mrs. J. C. Wrath. They will meet every Thursday at the packing house offices after a supper furnished by the Armour company. The women will furnish their own material. Miss Lily Ring was chosen chairman of the group.

NURSES KILLED WHEN NEBRASKA NURSE INJURED.

ABOVE: MISS HELEN BURNETT WOODS. BELOW: MRS. EDITH AYRES.

Mrs. Edith Ayres and Miss Helen Burnett Woods, Red Cross nurses of Chicago, who lost their lives aboard the American steamship Mongolia when a brass attachment of a shell used in target practice by the ship's gun crew, struck the water and boomeranged back to the deck of the vessel.

Miss Emma Matzen of Columbus, Neb., was injured by a fragment of the shell.

Production of Luxuries Should Cease—Vanderlip

Washington, May 25.—Frank A. Vanderlip, president of the National City bank of New York, today addressed the editors of about 300 engineering and trade publications, meeting here to consider co-operation with the government during the war, urging thrift.

"We are about to see the greatest industrial activity the country has ever known," said Mr. Vanderlip. "We will see the most intense activity and the highest wage scales, but it will be in the business of war. We will throw no one out of employment, but into a situation where two men are needed instead of one. Men engaged in producing luxuries should cease at once as a patriotic act."

Congress Tells How to Stop Delay in Loading Cars

The report of the transportation committee of the conservation congress recommended that delay of loading and unloading freight cars be eliminated by the consignees giving notice to the carriers of disposition in advance of the arrival of cars at destination; that shippers load cars to the utmost capacity; that cars be loaded and unloaded as quickly as possible; that a campaign of buying home-made goods be undertaken and that each town be urged to establish a cold storage plant for the preservation of home-grown fruits and vegetables.

Name Sounds Like Seasick; Judge Changes it to Brown

Judge Day agreed with Peter Ceseck that the pronunciation of his surname sounded too much like "seasick," so he issued a court order changing it to Peter Brown.

Personal Mention

J. S. Starrett and C. A. Mearns of Omaha are registered at the Multnomah hotel at Portland, Ore.

Men's Wear For Decoration Day

3,000 Men's Shirts at \$1.00 Each

Act Quick on This

QUALITY AS GOOD as this store ever offered at this price, and we have always been leaders in Men's Shirts. Hundreds of men who generally pay more for their shirts, will buy these by the half dozen or dozen.

Saturday is always a big day in Men's Furnishings, but this will be one of the biggest in many weeks. Every one of these is a Real Shirt value, not a detail overlooked in their making; great variety of patterns and materials. Shirts that sell in the regular way at \$1.25 to \$2.00; sizes 14 to 18.
