Campaign for Bananas Being Inaugurated Here

Local fruit commission men are inaugurating a campaign to induce people to eat more bananas. They are out with circulars in which they prove that by eating bananas, a decided crimp can be put into the high cost of living.

The fruit men point to the fact that bananas are in market all the year and that prices are comparatively low, they not having gone soaring along with other foodstuffs. However, what they claim for the banana is that its food value is right along side of beef, it carrying 460 calories per pound, whereas, in a pound of the best beef there are but 1,300 calories.

In support of the argument in favor of eating bananas instead of meat, it is held that the former can be bought for 5 to 6 cents per pound, whereas, the latter costs 28 to 45 cents per pound.

"A Drop Or Two.—Superfluous Hairs Are Gone!"

By Valeska Suratt

"A Curious and Remarkable Result Without the Usual 'Burning' Usually Experienced," Says Valeska Suratt, the Fashion Beauty of the Stage.

ONE lady, in particular, of my acquaintance constantly suffered the embarrassment of having a thick growth of "down" all over her face. Whenever she was to remove these hairs she was compelled to remain indoors a couple of days, refusing to see anyone, because of the terrible redness and soreness of her face caused by using the usual "removers" sold for the purpose. Her face was a sight, red as a lobster, shiny and painful after each application. I told her it was all unnecessary, and suggested she try my way. Next time, she did. The hairs from the entire face were removed in just a few minutes, and her skin was as smooth and pearly afterward as a rose petal. The application simply dissolved away the hairs instead of "burning" them off. You can do the same. Simply get some sulfo solution from your druggist and moisten the hairs with it. That's all. Every hair will vanish. It can be used even on the tenderest skin and it never fails.

* * *

MISS YEARS—On the contrary, removing wrinkles is easy, very easy, astonishingly easy. And it takes but two or three minutes a day and a few cents' expense. That you can do it surely and positively will be proven to you absolutely in your mirror in a few days. I dare say, nothing has ever been known to produce such results as by the formula which I give you here. From your druggist get two ounces of eptol and mix with one tablespoonful of glycerine in half a pint of water. Mix thoroughly. The cream that results should be used very liberally and every day. Quickly you will notice the little wrinkles, deep wrinkles, crows' feet and heavy lines giving way before an ever increasing plumpness of the skin—and years seem literally to be taken from the face.

* * *

MRS. R. O.—Soap is alright for any part of the body except the scalp and hair. That's because there's more to remove from the scalp than mere dirt. There are fatty scales that form which soap is not made to remove. Besides, soap and ordinary shampoos contain alkali which dries up hair secretions. There's one thing, and only one, which effectively removes the fatty accumulations on the scalp, and lets the hair "breathe," —and that is eggol. A teaspoonful of eggol in a half cup of water makes a superb shampoo and scalp cleanser. It cannot be excelled. Twelve or more shampoos can be obtained from a twenty-five cent package of eggol secured from the drug store.

DISGUSTED—Don't be discouraged. It's terrible to go about for years with blackheads, as you have. But listen, you can get rid of them in a few moments—think of it —by sprinkling some neroxin on a wet sponge, then rubbing the blackheads with it. You will marvel at the result. So cheer up!

* * *

MISS MUDDY—The most wonderful result that anybody can imagine in beautifying the skin is produced by the following extremely simple formula. Even on bad complexions, such as you say you have, I have seen changes almost miraculous in only a few days. You cannot fail to make your skin absolutely spotless and lily-pure, by the liberal application of a cream, made at home, by using two tablespoonfuls of glycerine and one ounce of zintone in a pint of water. Get the zintone at any drug store. You will neither want nor need any other beautifying cream but this.

* * *

MISS S. T. N.—I cannot promise (nobody can), but this mixture is the best bust developer known, without exception. Failures are few. Mix two ounces of ruetone and half a cup of sugar in half a pint of water, and take two teaspoonfuls three times a day and on retiring.

* * *

LOOKING—Once in a while it does happen, but next time if your druggist hasn't the ruetone for making the bust developing mixture, just send the price, one dollar, to "Secretary to Valeska Suratt, Thompson Bldg., Chicago, Ill.," and you will get it by return mail.

* * *

BETSY G.—I knew your complexion would be quickly transformed by using my formula. Now about your short, thin hair. I will make another prophecy. Inside of a month your hair will be almost an inch longer—it will be silky, and your hair will stop falling—things which you have never been able to do with anything else. I know I'm right. Mix one ounce of beta-quinol in half a pint each of water and alcohol (or use one full pint of bay rum instead of water and alcohol). Your friends will notice the tremendous difference in a short time. With this formula there is no such thing as failure.

* * *

PERSPIRING—The only thing that will completely control that excessive arm-pit perspiration and remove the odor instantly is hydrolized talc. Apply it freely to arm-pits.

* * *

MRS. T. T.—It is for that very reason, to avoid the chalkiness common to ordinary face powders, that I had my own made up. Because of the enormous demand for it, this is now being sold at drug stores, as "Valeska Suratt Face Powder," at fifty cents a box, in flesh, white or brunette. Its fineness is extraordinary, and as many say, it "stays on beautifully" and is invisible.—Adv.
