BRITISH MISSION REACHES CANADA

Englishmen Who Held Council With American Leaders Have Cemented Friendship of Two Countries.

Washington, May 26.—The British war mission left American soil and crossed into Canada today after six weeks of conferences which have reached into every phase of American life and are expected vitally to affect the future of this country, if not of the world. Confidence and sympathy born of personal contact of British and American officials cannot be measured in words. Uncertainty has been removed and an efficient co-operation made possible by an exact definition of the resources and needs of the two nations. This country knows the allies' needs in detail and in the order of their importance, the allies know America's resources and the degree of their availability. Thus it is possible for the United States to enter into co-operation with the grand alliance in the way most calculated to bring success. Much that has been tentatively agreed upon can not finally be put into effect until legislation has been passed by congress. The great benefit of the mission's visit, however, has been the decisive advice of men who have actually been in the fire of this war and who have made desirable policies obvious by merely relating their experiences. Close Friendship. Great Britain and the United States have been placed on a closer basis of friendship than at any time since the separation a century and a quarter ago. The controversy during two and a half years of neutrality have dissolved in a fuller understanding by American officials of the difficulties of belligerency. The British showed a tact and a consideration of American feeling most gratifying to officials. Their constant effort was to describe England's experience for whatever suggestion it might give this country. Mr. Balfour diffused this spirit throughout the whole mission. The immediate diplomatic result has been to lengthen the British view from a near sighted absorption in the immediate war needs to a broader consideration of world reconstruction afterwards. Similarly the American viewpoint has been fore-shortened from absorption in the future to the immediate pressing emergency. Both sides feel they have gained a truer perspective. Joint Buying Commission. A joint allied buying commission is expected to result from the conferences and to sit here regularly in conjunction with separate bodies in London. This will assure uniform prices for all the allies, prevent extortion because of competition and distribute supplies scientifically and economically. The United States will co-operate as far as possible in maintaining the British blockade. America will participate through consuls in the rationing of Holland and Scandinavian countries, but probably will replace the present system of "British letters" of assurance by a system of export licenses. As far as possible the enormous system built up by the British will be maintained and means will be taken to prevent American products from reaching firms dealing regularly with the enemy. The shipping problem has been the most serious of all. The British left no doubt that the April rate of destruction of tonnage by submarines approached the point of fatality. The American building program has been correspondingly expedited and one of England's greatest shipping experts summoned across the water to supply greater details than the departed mission possessed.

Find German "Baron" Only Army Deserter

San Francisco, May 26.—Baron Friedrich Fels, alias Lieutenant Frank Wolf, arrested May 10 as a German spy, is nothing more than a deserter from the United States aviation corps at San Diego, federal officials declared here today when they turned him over to the military authorities for prosecution as a deserter.

FUTURE OFFICERS BEGIN REGISTERING

Military Students at Fort Snelling Mailing Cards for Draft; Men Are Learning Many Things.

Fort Snelling, Minn., May 26.—(Special Telegram.)—The 2,500 would-be officers in Uncle Sam's new army played "Hamlet" without the ghost, at Fort Snelling today when the manual of the saber was taken up without sabers. The students were given primary instruction in the lunge, slashes and defense. Later they went to company drill and conferences. Beginning tonight every man in the camp with the exception of about 200 excused by reason of already holding commissions or fixed positions with organized military units will start the work of registering for the draft. The work will be under the direction of Colonel Berkeley Everly and after registering the men will mail their cards to the draft officials of their home counties. Many of the men in camp now are learning for the first time something about "housekeeping," for each man takes two days as the commissary sergeant of his company. Then it is that he must, assisted by an experienced "regular," figure out the day's meals, so that the federal allowance of 75 cents a day be not exceeded. If the menu can be kept under that sum the post quartermaster, from whence supplies are drawn, gives credit for the sum unused, which later can be employed in the purchase of things not on the daily table. Company 2 now has something over \$80 to its credit. One of the rookie mess men has figured that it costs Uncle Sam about \$1,500 a day to feed the students, or about \$175,000 for the three months. Each man's clothing represents an outlay of \$13.50, which with about \$15 added for equipment, represents about \$61.25 to get the student's ready for work. The entire expenses of the camp, including pay of the regular army officers and instructors, will exceed \$350,000 for the three months. United States Navy Seeking Physicians. Washington, May 26.—The navy is seeking 2,000 additional doctors to furnish proper medical care for the 250,000 men who will be in the naval establishment when it reaches full war strength. In addition 2,000 additional hospital apprentice recruits will be needed within two months. About that number already are under training. Asks That U. S. Demand Freedom for Bohemians. Washington, May 26.—Senator Keyton of Iowa introduced a resolution today providing that when peace terms are made the United States shall insist upon independence of the Bohemian slovak races. Discussion was postponed. Italians Give Bust of Wilson to President. New York, May 26.—A bronze bust of President Wilson, the gift of some of his Italian admirers in this city, was sent to the White House tonight.

DANIELS DENIES LOSS OF DESTROYERS

Secretary of War is Bitter in Denunciation of Those Who Circulate False Rumors Concerning Ships.

Washington, May 26.—A categorical denial that any American naval vessels have been sunk in the war was issued tonight by Secretary Daniels to counteract a "campaign of vicious rumors that is being carried on so industriously by persons unknown." It was the first official notice to be taken of a flood of reports of naval disasters that started almost as soon as it was known that American destroyers were in the war zone. "It is with deep regret," said the secretary in a formal statement, "that I note the daily stream of false reports with regard to the sinking of American ships. Wires Carry Rumors. "Brokerage wires are a particular source for those baseless rumors that cannot but be the cause of needless distress to every true American as well as to the mothers and fathers of the nation who have sons at sea. The department has given repeated assurances that its policy is to be one of absolute frankness with respect to disaster. If it should be that ships are sunk full information will be given out officially. "The reason for these false reports cannot be ascertained. The one hope is that the press will refuse to aid this campaign of vicious rumor that is being carried on so industriously by persons unknown." Jap Citizenship Case Goes to Supreme Court. San Francisco, May 26.—The first appeal for citizenship by a Japanese ever to reach an upper federal court, according to officials, was filed here yesterday in the United States circuit court of appeals by Ozawa, a merchant of Honolulu. Ozawa sets forth that he came to the United States in 1902 and since has been refused citizenship both in Alameda county, Oakland, Cal., and in Honolulu. His point on appeal is that an act of congress passed June 22, 1906, and relating to naturalization, does not refer to races or colors and in its nature supersedes other acts which do. May Allow Importing of Chinese Laborers. San Francisco, May 26.—The government is seriously considering the recent offer of the Chinese Six Companies of San Francisco to import Chinese laborers up to the number of 500,000 for farm work in this country during the war, according to a telegram to officers of the Chinese organization received today from Walter S. Gifford, director of the Council of National Defense. Ulster Unionists Will Take Part in Council. Belfast, May 26.—A committee of the Ulster Unionist council, after a three-hour session, today unanimously decided to convene a meeting of the full council to consider the government's proposal for a convention to draw up a constitution for Ireland as soon as the promised information relating to the composition of the convention has been received. Vegetables Relieving German Food Problem. Washington, May 26.—Americans lately arrived in Switzerland from Germany, report the food situation improved because spring vegetables now are available. To the American minister at Bern the Americans expressed belief that Germany will be able to hold out until relief is brought by the next harvest.

Goethals Turns to Steel For Needed Merchantsmen

New York, May 26.—Major General George W. Goethals, speaking informally tonight at the annual dinner here of the Iron and Steel institute, declared that the proposal to build one thousand 3,000-ton wooden ships in eighteen months "is simply hopeless; for that reason, he said, it had become necessary to turn to steel as well as wood. "Mr. Farrell of the United States Steel corporation has promised to turn out 3,000,000 tons of steel ships in eighteen months."

FACTORY BECOMES LEADING FACTOR

C. C. Quiggle Tells Conservation Congress Men at Front Depend on Workers for Lives.

"War is the highest expression of the struggle for existence among nations," said Charles C. Quiggle, addressing the men's section of the Nebraska Conservation congress. "The United States is now at war with a nation hatched in a cannon ball and thoroughly organized for war. This means to the American manufacturer that service should be looked upon as an opportunity, not as a burden. "The manufacturer has become a dominating factor in war. No matter how well fed an army may be, it cannot be an effective fighting force if it lacks the products of the factory. "The cause for which we are fighting—the perpetuation of government for and by the people—is worthy of the best efforts of our whole people. Luxury can well afford to wait on utility. Therefore, a change in the character of the output of our factories should be made. "Another problem is elimination of exorbitant profits. Will the American manufacturer for the duration of the war voluntarily restrict themselves to a reasonable profit, or must this be done by governmental compulsion? "By demonstrating his capacity and willingness to co-operate with the forces of production and distribution to resist the impulse of the usurer, the American manufacturer can erect a standard of citizenship no less enabling to him than inspiring to others. He can teach the world that he can be stimulated by patriotism, as well as by profits." Rebels in Chihuahua Are Seeking Amnesty. Washington, May 26.—Bandits and rebels in the state of Chihuahua have abandoned military activities and are seeking amnesty, according to a report from American Consul Edwards at Juarez.

GERARD SAYS U. S. MAY STAND ALONE

Russia's Withdrawal and Continued Subsea Activities Would Throw Brunt of War on Uncle Sam.

Philadelphia, May 26.—"If Russia stacks arms and German submarines continue to litter the ocean with corpses of the merchant marine, Uncle Sam will have to bear the brunt of the great battle practically alone," declared James W. Gerard, former ambassador to Germany, who was the principal speaker at a meeting here tonight under the auspices of the southeastern Pennsylvania chapter of the Red Cross. "Mr. Gerard said he had witnessed nearly all the atrocities, which have been charged against the Germans. "While we need many things in this war, we need the Red Cross more than anything else," he said. Mr. Gerard said the impression had prevailed in Germany that Americans were "tango lizards and male maniacs," that they were a "lot of fat people all for money," but who would not fight. Catarrh of Stomach Did Not Know It Nearly Starved PERUNA Made Me Well Mrs. Selena Tanner, Athens, Ohio, writes: "I cannot find words to express my thanks for your kind advice. I never once thought I had catarrh of the stomach. I commenced taking Peruna, as you directed. My stomach continued to hurt me for about two weeks after I began the medicine, and then it stopped. I now have a good appetite, while before I was nearly starved." Those who object to liquid medicines can now procure Peruna Tablets.

Nuxated Iron to Make New Age of Beautiful Women and Vigorous Iron Men Say Physicians—Quickly Puts Roses Into the Cheeks of Women and Most Astonishing Youthful Vitality Into the Veins of Men—It Often Increases the Strength and Endurance of Delicate, Nervous "Run-Down" Folks 100 Per Cent in Two Weeks' Time.

Opinions of Dr. Schuyler C. Jaques, Visiting Surgeon of St. Elizabeth's Hospital, New York City; Dr. Howard James, late of the Manhattan State Hospital of New York, and formerly Assistant Physician Brooklyn State Hospital, and Wm. R. Kerr, Former Health Commissioner, City of Chicago.

NEW YORK, N. Y.—Since the remarkable discovery of organic iron in Nuxated Iron, as the French call it, has taken the country by storm, it is conservatively estimated that over three million people annually are taking it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. So much so that doctors now tell us that we shall soon have a new age of far more beautiful, rosy-cheeked women and vigorous iron men. Dr. Ferdinand King, a New York Physician and Medical Author, when interviewed on this subject said: "There can be no vigorous iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale; the flesh flabby. The muscles lack tone; the brain and the memory are impaired. Often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks." "In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron from the Earth from these impoverished foods and silly methods of home cooking, by throwing down the waste pile the water in which our vegetables are cooked, are responsible for another grave iron loss. "Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt." "Former Health Commissioner Wm. R. Kerr, of the City of Chicago, says: "I have taken Nuxated Iron myself and experienced its health giving, strength-building effect and in the interest of public welfare, I feel it my duty to make known the results of its use. I am well past three score years and want to say that I believe my own great physical activity is largely due today to my personal use of Nuxated Iron. From my own experience with Nuxated Iron, I feel it is such a valuable remedy that it ought to be used by every man, woman and child, as prescribed by every physician in this country." Dr. E. Sauer, a Boston physician who has staved off this country and in great European medical institutions, said: "As I have said a hundred times over, organic iron is the greatest of all strength builders." "Not long ago a man came to me who was nearly half a century old and asked me to give him a vitality and energy for life insurance. I was astonished to find him with the blood pressure of a boy of twenty and as full of vigor, vim and vitality as a young man; in fact, a young man he really was, notwithstanding his age. The secret, he said, was taking iron—Nuxated Iron. He filled his system with it. At 30 he was in bad health; at 40 he was careworn and nearly ill. Now at 50 after taking Nuxated Iron he is as young as a youth. Iron is absolutely necessary to enable your blood to change from its living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You get the strength that you need and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been suffering for months without obtaining any benefit." Dr. Schuyler C. Jaques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or advice for publication, as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy." Dr. Howard James, late of the Manhattan State Hospital of New York, and formerly Assistant Physician Brooklyn State Hospital, said: "Nuxated Iron is a most surprising remedy. A patient of mine remarked to me (after having been on a six weeks' course of it): 'SAY DOCTOR, THAT THERE STUFF IS LIKE MAGIC!' Previous to this city by Sherman & McConnell Drug Stores and all good druggists' had been prescribing the various mineral salts of iron for years, only to meet complaints of discolored teeth, disturbed digestion, indigestion, hardened secretions, etc. when I came across Nuxated Iron, an elegant inorganic preparation containing organic iron, which has no destructive action on the teeth—no corrosive effect on the stomach, and which is readily assimilated into the blood and quickly makes its presence felt. It increases the vigor, strength and staying power. It enriches the blood, brings roses to the cheeks of women and it is an unfailing source of renewed vitality, endurance and power to men who burn up too rapidly their nervous energy in the strenuous strain of the great business competition of the day." NOTE—Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians, both in Europe and in America. Unlike the older, inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturer has such great confidence in nuxated iron that they offer to forfeit \$100 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 100 per cent or over in four weeks' time, provided they have no serious organic trouble. The offer is in full force if your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Sherman & McConnell Drug Stores and all good druggists. Advertisement.

Only Genuine Springy Curled Hair Goes into the Slumberon Sanitary Hair-Mattress That's the reason the SLUMBERON rests so comfortably. Every tiny coil of curled hair is like a separate spring, acting individually to give the perfect conformation to every curve and move of the body. Sleep on a Slumberon is more restful and comfortable than on a mattress made from any other materials. A Quality Hair Mattress at a Price for All The Slumberon will not mat down and will last a lifetime. It is covered with an extra heavy dust proof ticking that prevents the hair from coming through. Finished in the popular French Roll Edge. The Slumberon is really suited to Outdoor Sleeping, for the self-ventilating properties of the hair prevent the retention of moisture and make the mattress more healthful and comfortable. The Slumberon is a full width, all new hair mattress—weight 40 pounds, Price \$25.00. Ask your dealer to show you a Slumberon. If he does not handle them, write us and we will send you the name of a Slumberon dealer near your home, together with our interesting booklet, "Correct Sleeping." GENERAL OFFICES: 111 West Monroe Street, Chicago FACTORY: East Chicago, Indiana
