BUY ALL IMPLEMENTS EARLY, SAYS COUNCIL

Defense Board of State Advises Farmers to Act at Once; Look Ahead for Next Year.

(From a Staff Correspondent.) Lincoln, May 29.—(Special.)—"Buy farm implements early," is the latest warning of the Nebraska State Council of Defense in a statement issued today.

"On account of the widely extended winter killing of alfalfa in Nebraska it doubtless will be necessary to use a large acreage of corn for fodder this year," the council statement says, "and it is highly important that proper provision be made for the additional harvesting machinery that will be needed to take care of it."

"Owing to the rushed conditions obtaining in the manufacturing plants throughout the country and the extra demand for material that is used in the construction of farm machinery, implement manufacturers and leaders are urging that orders for corn binders and other necessary machinery be placed as early as possible."

"It is also very imperative that a large acreage of winter wheat be sown next fall and the experience of the last winter has proved the advisability of seeding winter wheat in cornstalks with the one-horse drill. Those contemplating seeding winter wheat in this manner are urgently requested to see to it that the drill is on hand at the time that it is needed. Farmers should begin now to plan for their winter wheat acreage, to be seeded next fall, and to make provision for the machinery needed to seed the crop in the best manner possible."

FLY FLAGS SLOGAN IS BEING PUSHED FOUR THOUSAND OUT BECAUSE OF STRIKE

Chairman W. H. Clarke is Stricken With Scarlet Fever, but the Work Goes On.

Just when W. H. Clarke was made chairman of a special committee to fire the city into a burst of flag decorations for the period of June 2 to 6, he was taken ill with scarlet fever.

He has had to drop the work of urging flag and bunting decorations, and as a result of his dropping out W. T. Burns, L. V. Nicholas, and Harry A. Tukey have had to take up the burden.

They are calling up various organizations, and individual business houses urging that this period, which covers by a margin a few days on either side, the draft registration period, be made the occasion for patriotic decorations on all the buildings and in the streets.

Peters as Chairman. M. C. Peters is chairman of the general committee under the State Council of Defense for patriotic demonstrations during the draft registration period.

Now the committee finds itself confronted with another problem—that of flag shortage. They find the stores are almost out of bunting, and give them no satisfaction on the subject of producing a hasty supply. Waterproof bunting is practically unobtainable.

The result is the committee is urging everyone to make use of all the old flags, all formerly used bunting, and anything around the place with the national colors in it.

The improvement clubs are being asked to work along the same line. Mayor Dahlman is arranging to have the city hall and the court house decorated. The Telephone company and the Hotel Fontenelle have proposed to give their respective buildings some special decorations.

The Omaha & Council Bluffs Street Railway company plans to decorate all trolley poles, and to drape flags and bunting from all the cross wires. The superintendent of the schools will be asked to reach the children through the principals and teachers and thus try to reach every home in the city with an appeal that special decoration be put on those days.

You Must Have Plenty of Iron in Your Blood to Be Strong, Says Doctor

Noted Iron Will Increase Strength of Delicate, Nervous, Run-down People in Many Instances. NEW YORK, N. Y.—Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, says Dr. E. Sauer, a Boston physician who has studied widely into the country and in Great European Medical Institutions, when, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally continue dosing for stomach, liver or kidney trouble or symptoms of some other ailment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony.
