New Process for Drying Fruits and Vegetables Found by Experts

Lincoln, May 30.—At a "strategy council" of instructors who will teach canning in training schools to be held in many parts of the state this summer, Prof. C. W. Pugsley, director of the extension service of the college of agriculture, explained in detail the new process of drying fruits and vegetables recently worked out by the United States Department of Agriculture.

Such vegetables, when dried and re-hydrated properly, cannot be distinguished from the fresh product, according to Dr. Gore. However, they must be soaked for at least two hours to allow them to take up as much moisture as was removed. Then they may be cooked the same as fresh vegetables.

Enlarging Trade Area by means of the 3/4-ton GMC Truck

is fast becoming the accepted method of innumerable small city tradesmen for increasing weekly sales. The greatest advantage in the use of the 3/4-ton GMC Truck by merchants in the smaller cities is not the saving of cost in hauling 100 pounds or a ton of merchandise, but in the ability to accomplish more work in a given time in the added territory that can be covered.

Practically Every Line of Business is now using the 3/4-ton GMC Truck. Department Stores, Hardware Stores, Furniture Stores, Market Gardeners, General Stores, Dairy Farmers, Etc.
