The country has been prosperous for several years. Farmers, Manufacturers and Laborers have been making and saving money. All these have received large profits and high pay. The country is full of money.

Congress has authorized a bond issue of seven thousand millions. This money will be distributed throughout the United States within the next six months. Manufacturers, Farmers and Laborers will be busier than ever. The people will have more money than ever before. When peace comes all branches of industry will be kept going to capacity, making materials the manufacturing of which the war has prevented. Labor will be employed at the highest prices. There will be two jobs for every one man willing to work.

Every commodity has gone up to the highest value but Real Estate. It is the last to feel the effect of good times, but is bound to feel the effect of prosperity and expansion. Now is the time to buy, when the price is low. Think this over—then read the Real Estate ads in this section. You will find hundreds of exceptional bargains.
