

LECTS THESE OMAHA SHOPS

DOUGLAS GETS SHORT END OF STATE FUND

Pays In Much More Than Comes Back to Help Build Roads in This County.

Omahans are wondering if Douglas county solons in the last legislature were asleep when the state law-making body passed a bill levying a state tax for road construction in conjunction with the federal government by which Douglas county will pay out \$71,500 in 1917 and 1918 and receive back \$32,925.45.

Figures compiled by County Auditor Anthes and County Clerk Dawsey show that Douglas county is the "goat" for the rest of the state, mainly the larger western counties of small population and large area.

Table showing the payments by Douglas county and amounts of moneys to be reapportioned under the proposed ratio schedule is as follows:

Douglas county pays in 1917\$71,500
Douglas county pays in 191871,500
Total\$143,000

Gets Less Back.

Douglas county receives back under the present ratio\$1,104.36
Douglas county receives back under the area ratio886.44
Douglas county receives back under the population ratio28,886.18
Total\$30,876.98

Of the 34,339 miles of post roads in the state Douglas county has 175 miles.

The state has an area of 77,510 square miles. Douglas county has 335 square miles.

There are 292,138 voters in the state. Douglas county has 41,642 of them.

House roll No. 722, the bill which levies a state tax of .65 mill for the purpose of road construction in conjunction with the federal government, provided that one-third of the money collected shall be apportioned at the ratio which the area of the county bears to the entire state.

Rule for Distribution.

It also provides that one-third of the money collected shall be apportioned at the ratio which the total mileage of rural delivery routes and star routes in the county bears to the total mileage of rural delivery routes and star routes in the state.

The other one-third of the money collected shall be apportioned at the ratio which the total population of the county bears to the total population of the state, based on the number of votes cast for governor in 1916.

At the rate of \$45,000 per station Douglas county would pay in 1917 \$35,750 and in 1918 \$35,750.

The assessed valuation of the state is about \$500,000,000, which at .65 of a mill this year and in 1918 will raise \$650,000, of which Douglas county pays \$71,500.

The \$650,000 is divided into three parts:

Area ratio\$11,666.67
Rural route ratio11,666.67
Population ratio416,666.67
Total\$650,000.00

Final Report is Made On the Cleanup Campaign

Final reports of the cleanup campaign, delayed on account of unfavorable weather, are announced by Miss Katherine Worley, chairman, as follows:

Yards unsanitary at first inspection1,222
Yards unsanitary at second inspection122
Miles of alleys traversed10
Loads of rubbish removed4,222
Cost to city to remove rubbish\$4,112
Average cost per load\$1.00

"We desire to continue this work in various lines throughout the year to secure safer homes, better health conditions and more beautiful surroundings," said Miss Worley.

Omaha Shops Offer Everything a Bride Could Wish For

company have, and with one of them I can just do my own washing. It will be considerably like play, and one can have one of those machines on the easiest kind of payments. I'm going to have an electric iron, a fan, a percolator and several other conveniences. Won't that all be nice? Come on down with me while I select and have these things sent out.

To Visit Beauty Parlor.

One of the important places where I will visit during the afternoon and before I go to the theater in the evening will be the Marinello Beauty Shop, 568 Brandeis Theater building.

Most of my friends go there when they want anything in the line of hair-dressing, manicuring or any other work that improves their personal appearance. This shop is the only place in the city where they have soft water for hair washing and it sure makes a difference. Mrs. N. L. Rice is the proprietor and they say she is the most skillful in her line in the city. The equipment at the Marinello Shop is complete, so I have no fear that Jack will be pleased with my appearance after my visit there.

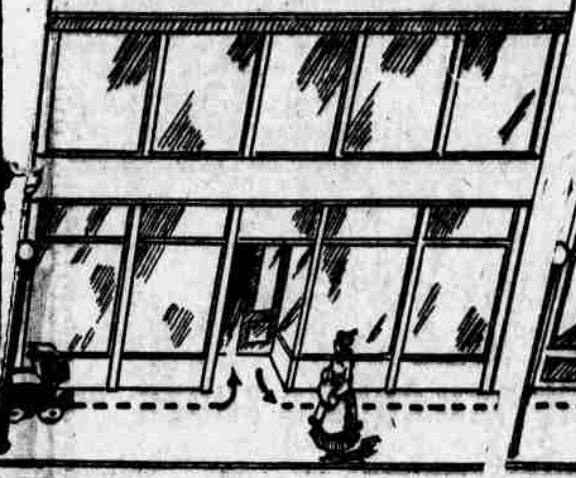

Box Party at Strand.

Now you will agree that I will have had a pretty busy day visiting at these places, but there is one other place I am certainly going to go. Jack and I have arranged for a box party at the Strand to finish the day.

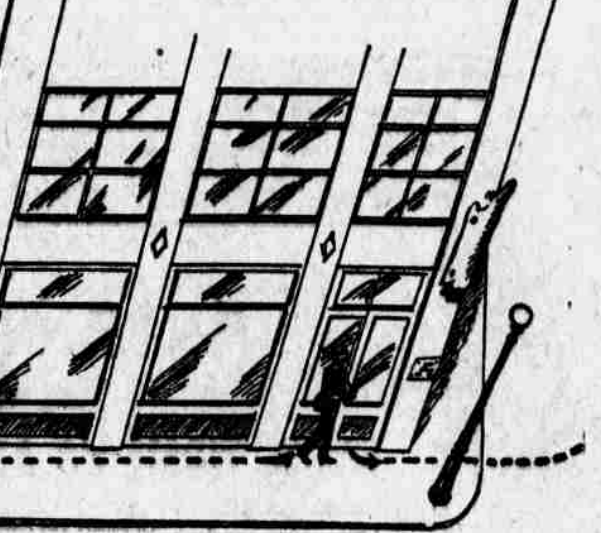

The Strand is my favorite Omaha theater. I am very fond of music and Silverman's orchestra is up to every requirement. Then, in addition, I enjoy the big organ when played by the artists selected by Mr. Thomas. The projection of the Strand is perfect and the house has a peaceful and soothing atmosphere. You never see a bad picture at the Strand. When you have a program like Triangle, Selznick-Clara Kimball Young and Artcraft pictures to select from you can't go wrong. Tomorrow Mr. Thomas tells me he has Jack Devereaux in "The Man Who Made Good." Gee, won't that be a treat for my Jack, and I will be there, and Jack is going to make good, too, so he'll see how Mr. Devereaux does it.

This has been a most remarkably interesting week for me, and I hope you have enjoyed hearing about my decisions as much as I have enjoyed making them. You'll hear from me again after tomorrow, because I am going to write back from my honeymoon trip, and then again after I get back I will want to let you know I am at home.

THING A BRIDE COULD WANT

pany. Did you ever eat any of this kind of ice cream and isn't it delicious? When we get to keeping house we are going to make it a point to order this ice cream every time we have company. What could be more pleasing to them. I want to see the plant where this ice cream is made so we will visit it during the afternoon. (See schedule for time.)

Recreation for Hubby.

You know I think many women make a mistake by trying to keep their new husbands too close to them. Personally I believe a man should have some recreation outside of his home. If he is permitted to enjoy the clean sports he will be a better man and spend more time at home in comfort than he will if he is held too close. I have looked things over and have decided that Pete Lock's new billiard rooms at 1415 Harney street would be a good place for my hubby to get some amusement and so I am going down there with him Monday.

Teeth Are Important.

One of the reasons Jack likes me so well, so he says, is because of my pretty teeth. Well pretty teeth do add to a girl's appearance. I think that I am deeply indebted to McKenney Dentists for the care they have taken in doing my dental work. I have had a wonderful lot of work done—you wouldn't think I had ever had a cavity but I have one false tooth right in front, but it is so skillfully put in no one would ever guess. I have gold crowns and fillings now and if I ever need for false teeth I am going to allow the McKenney dentists to make them for me because their prices and their work is right.

Believes in Insurance.

While I am telling you so much about shopping, permit me to just digress a moment and tell you something about insurance. Of course, I

believe in insurance. It is right in principle and Jack and I will both carry insurance. I don't know what kind or how much, but we are going to get it from Tom S. Kelly, "The Insurance Man," in the City National building, telephone Tyler 861. Mr. Kelly has recommended a life income policy paying \$100 per month for life and carrying with it a total disability clause so that if anything happens to Jack to permanently disable him it will pay him \$100 per month as long as he lives, and me \$100 per month the rest of my life. Anyway, we are going up to see Mr. Kelly about it Monday.

Toilet Articles at Green's.

After we see Mr. Kelly we will go to Green's pharmacy at Sixteenth and Howard streets. I have been in there several times this last week looking over the complete line of toilet articles, drugs and sundries. I am going to give Mr. Green my trade in the future. I have a friend who tells me that whenever she wants anything from Green's she just calls up and they send it right out. That makes the store just as close as the telephone, and such service ought to be appreciated by anyone. Skilled prescription druggists fill every prescription and reliability is the watch word at this store.

Good Things to Eat.

During the last week one of my friends induced me to go with her to the New Delicatessen at 1806 Farnam street. Have you ever been in there? If you haven't you have no idea of all the good things in prepared foods they have there. Bread, pies, cakes, lunch goods of all descriptions, and at prices that will surprise you. Besides, this is an excellent place to eat. It is all home cooking and served with great care and neatness. I cer-

tainly am going to feed Jack on pies and other good things from the New Delicatessen after we get to house-keeping. I don't see any use in me wearing myself all out cooking during the hot months when I can buy such good things at such reasonable prices.

Will Visit Tire Shop.

I have insisted on Jack going up to the Tire Shop, 2518 Farnam street, and seeing for himself the advantages of getting all our tire repair work done there. They have a full equipment for doing all sorts of tire work, and besides, I have a friend who says their charges are all very reasonable and that they guarantee their work. Superior equipment makes it possible to do wonderfully satisfactory work. We have already decided that we will buy Goodyear tires sold by The Tire Shop.

Photographs at Heyn's.

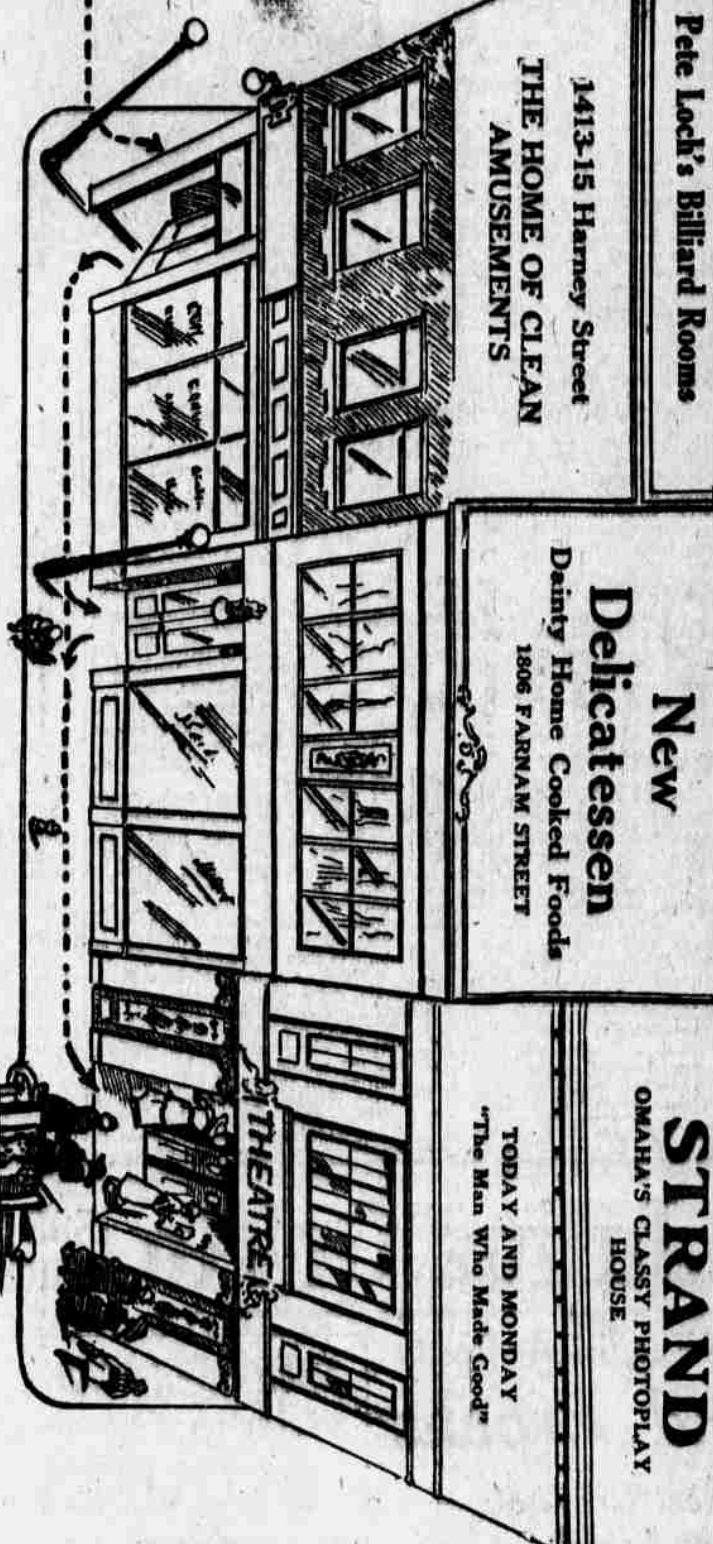

I had some time making a final decision as to where I would have our photographs taken. You know on your wedding day you are more particular than any other time in your life about photographs. Just a picture is not enough—you want perfect details—artistry and workmanship. Well, I found that I could be sure of all these if I let Heyn Studio do the work. So Monday Jack and I are going down to Heyn's and have our pictures made. Come along with us and have yours taken at the same time.

Wants Electrical Equipment.

Jack seems perfectly agreeable to making life pleasant to me by supplying me with equipment to do my work as easily as possible. I suppose he would gladly hire the washing done, but that isn't necessary. I have seen the electrical washing machines that the Omaha Electric Light and Power
