

SHUMWAY WOULD KILL NORMAL BOARD

Land Commissioner Declares That for Years Millions Have Been Handled by an Illegal Body.

(From a Staff Correspondent.) Lincoln, June 3.—(Special.)—The State Normal board has no right to live, move or have a being, according to State Land Commissioner Grant Shumway.

Mr. Shumway declares the Board of Public Lands and Funds, of which he is a member, has the care and supervision and control of all public buildings and institutions, except those in charge of the Board of Control and the regents of the state university.

Covering that matter he says: "I, therefore, suggested to Auditor Smith and Treasurer Hall, that there might be objections to their approving vouchers upon and issuing and cashing warrants involving state normal funds, unless the legally constituted board has authorized the expenditures and approved the bills."

Section 26 of Article V of the constitution of the state says: "No other executive state officers shall be continued or created, and the duties now devolving upon officers not provided for by this constitution, shall be performed by the officers herein created."

"That seems so plain it would appear no one could misunderstand, yet, through all these years, millions have been spent by this illegally operating normal board. I will not be a party to its continuance. The members of the Board, of Educational Lands and Funds are sworn and bonded to perform their constitutional duties, and I see no manner of procedure other than the turning over to the only board legally competent to handle them, the care, supervision, management and control of the State Normal schools."

"I do not wish to be understood as finding any fault with the character of the members of the State Normal board, but they lack legal authority. Perhaps they will be willing to yield their onerous duties, or may prefer quo warranto action and an order of the court."

May Advertise Liquor Until July 1, Reed Says

Lincoln, June 3.—(Special.)—Publication of liquor advertising in papers published outside the state and circulated in Nebraska must be permitted until July 1, according to a ruling by Attorney General Willis Reed, handed down in answer to an inquiry made by O. S. Merrill of Omaha, living at the northeast corner of Twenty-third and M streets, South Side.

In his letter of inquiry Mr. Merrill enclosed several advertisements and a return self-addressed envelope, "M. Wollstein & Co., Opposite Union Station, Omaha, Neb.," the last five words stricken out and "New Location, Corner Fourth and Felix Streets, St. Joseph, Mo.," printed in red ink.

The advertising shows that the firm was in business in Omaha thirty-seven years and invites the public to call at their new location in St. Joseph. Price of different brands of liquors are given.

Mr. Reed quotes several opinions of the courts and extracts from the Webb-Kenyon law and comes to the conclusion in a very lengthy opinion that such advertising must be admitted until July 1, when the federal law goes into effect.

Omaha Represented in Lincoln June Weddings

Lincoln, June 3.—(Special.)—The month of June has arrived. No one would believe it, if the weather was to be the sign, but the barometer which is so prevaricates, the one which announces that June brides are ready, gives every evidence that June is here with its old time heart beats. Yesterday twenty couples applied to the county judge in Lincoln for marriage certificates. The ages run all the way from middle-aged bride and groom of 43 to the young man and woman of 20. In both instances the bride and groom were the same age.

DEFENSE COUNCIL GIVES DRAFT TIPS

Statement Issued at Lincoln Gives Outline of Procedure That Will Be Followed on Registration Day.

(From a Staff Correspondent.) Lincoln, June 3.—(Special.)—Notwithstanding extensive efforts have been made through the press and otherwise to instruct the people as to their duties on June 5, registration day, the Council of Defense is deluged with letters asking for information covering all sorts of subjects, and so the council has, in an attempt to make the matter as plain as possible, issued the following statement:

"The president has set the day as June 5, between the hours of 7 o'clock in the morning and 9 o'clock at night, and every young man who has not yet reached the age of 21 and has not yet reached the age of 31 is in duty bound to register. For illness or absence due provisions are made for registration. In discussing the matter yesterday Mr. Joyce said: 'It must be understood that dodging registration is virtually impossible. It ought to be understood, too, that there should be no confusion between registration day and exemption day. Registration day comes Tuesday, June 5, and the day for exemptions has not yet been named. Later on the president will designate that day, and until that time exemptions will not be considered.'"

"Decorate Everywhere. Of course, Nebraska is keeping step with the spirit of the day. It will do as other states are doing. It will be a great day—one of the greatest in our history. Flags and bunting, bands and parades, children and girls in gala attire and throngs of enthusiastic patriotic people will be everywhere."

"The president, the National Council of Defense and those in charge of the movement throughout the nation are earnestly praying that this day of registration will be the day of all days. It is recommended that all registration places be decorated with the national colors and emblems. Bands playing patriotic airs, with no ragtime music, are desired in all registration places. The young men of registration age will be the feature, and the heroes, we hope, of the parades and should be escorted to the registration booth amid the din and noise of patriotic throngs."

"Requests for Badges. We are receiving many requests with reference to badges, buttons, etc. That is generally considered a matter of local taste. The national council, however, has advised the wearing of an arm badge not over three inches wide of light weight khaki-colored cotton material. We have heard from many places in Nebraska where this form of badge is adopted and we assume that women's sewing societies over the state will be turning out thousands of these badges with which to label the heroes who register next Tuesday. Above all it should not be forgotten that while failure of young men of the proper age to register will mean a prison sentence and a draft into service afterward, at the same time those who do register, should they join the colors, would be carried on the army rolls as volunteer soldiers."

Meetings at Night.

"At the state defense headquarters arrangements are being made for the participation in the registration and every effort is being made to impart information or help in a general way in the details of the big day. It was stated that Tuesday evening, after the registration booths are closed, gatherings will be held in many towns over the state where suitable speeches, songs, music, etc., will be held. A large number of places will hold big patriotic meetings during the afternoon while registration is in progress."

These semi-annual dances are only a part of the many good things that the owners of the Union Outfitting company extend to their employees during the year.

Bankers Realty Donates Salesmen for Bond Drive

The spring drive, which is being conducted by the advisory committee of 100 for the sale for Liberty bonds was given impetus yesterday when O. T. Eastman, assistant cashier of the First National bank, who is secretary and treasurer of the Liberty bond committee, accepted the offer of the services of the entire force of the Bankers' Realty Investment company's realty salesmen in the sale of Liberty bonds.

During the campaign every financial man in Omaha and Nebraska is enlisting or being enlisted in one of the biggest bond sale campaigns ever carried on in the country.

"Not only are our men going out on the road to sell Liberty bonds," says Mr. Spyrer, "but we're going to be equipped in our Bee building office to handle subscriptions for these securities."

Educational Meet to Be Made Patriotic Gathering

President Aley of the National Educational association, Joliet, Ill., writing to the passenger agents of the railroads, assures them that there is no intention of canceling the dates for the meeting that is to be held in Portland, Ore., July 1. Mr. Aley says that at one time, owing to the war, there was some talk of abandoning the meeting this year, but that after making a canvass of the educators of the country, it was decided to go on with preparations and make the gathering patriotic, as well as educational. He predicts the largest attendance in years.

Goethals, general manager of the shipping board's emergency fleet corporation. The price is \$35 per 1,000 feet at the mills. The orders call for approximately 140,000,000 feet, and delivery will be made as fast as the mills can cut the timber.

CUT DOWN NUMBER OF TRAINING CAMPS

Second List of Officer Students to Go to But Eight Camps; Nebraskans Sent to Fort Riley, Kan.

Washington, June 3.—A second series of officers' training camps will be held between August 27 and November 26 in eight locations to develop officers for the second increment of 500,000 men to be called into service by the selective draft, Adjutant General McCain announced today. In general, qualifications for admission to the camps will be the same as for the first series, but a strong effort will be made to obtain men above 31 years of age, and the number admitted to training will be smaller than in the present camps.

Applications must be sent to the commanding generals of the department in which the applicant lives, between June 15 and July 15. Citizens between the ages of 20 years and 40 months and 44 years are eligible. Some of the present sixteen officers' training camps will be abandoned in the second series, and all selected for the second training courses are located in the southern part of the country, where the weather will be good through the fall.

Sites Chosen. The camp sites chosen and the areas from which applicants will be assigned include: Fort Leon Springs, Tex.—Illinois, Texas, Arizona, New Mexico and Oklahoma. Fort Riley, Kan.—Minnesota, North Dakota, South Dakota, Nebraska, Iowa, Kansas, Missouri and Colorado. The Presidio, San Francisco—Utah, Wyoming, Montana, Idaho, Nevada, Oregon, Washington and California.

Other camps will be held at Fort Myers, Fla.; Fort McPherson, Ga.; Fort Oglethorpe, Ga.; Fort Benjamin Harrison, Ind., and probably Fort Logan H. Roots, Ark.

No Choice Permissible After Draft Selection

Rather than be registered and then subjected to the choice of the government and not their own choice of the manner in which they should serve their country, hundreds flocked to the recruiting stations yesterday. For the last three days each station has reported double the enlistments of the average day for the preceding two weeks. All the men who are drafted are to be enrolled in the regular army, and those who would rather serve in another branch of the service will lose their right of choice, once they are selected. This does not mean that registered men will not be allowed to enlist after next Tuesday, but once they are drafted they have no choice in the matter.

With the increased number of actual enlistments appears also an increased number of slackers, who try to dodge service by feigning physical defects. One hale and hearty young man appeared before the officials in charge at the Army building and became known as "Shorty" because of his short stature. "How many fingers can you see?" "Three," came the prompt reply. Several such tests met with a like result, but when someone stationed at the door as he went out asked him to change a ten-dollar bill and handed him a \$1 bill, the short-sighted one showed him his mistake at once.

Cook, former instructor at San Diego, Cal., has been made commanding officer of the camp.

PEOPLE OF GERMANY TIRED OF U-BOATS

Citizens Asking Why Submarines Have Failed to Bring England to Her Knees Asking Peace.

Copenhagen (Via London), June 3.—Private advices from Germany tell of growing dissatisfaction with the results of the ruthless submarine campaign and the absence of any indications that it has brought the desired peace near to hand.

During their long campaign for the unrestricted use of submarines, the advocates of this measure made very definite promises of immediate results. "Two or three months," was the phrase used everywhere in street and newspaper arguments in regard to the time it would take to bring England to its knees, ready for peace.

Grumbles now are heard that although four months have passed, England shows no signs of weakening, but on the contrary seems determined to prosecute the war more bitterly than ever.

Questions have been recently asked the correspondent by Germans here, not in official positions, who are disgruntled over the result of the submarine campaign, as to what would be the effect in the United States, if the submarine warfare were now abandoned.

The government, however, shows no signs of weakening and now is engaged in a vigorous publicity campaign to bolster up the waning confidence at home and quiet the complaints of neutrals.

TEACHERS' WAGES HIGHER YEAR AGO

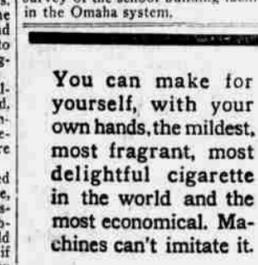

College Expert Tells Commercial Club Members Teachers' Salaries Buy Less Than Last Year.

"If you are paying your teachers the same salary you were a year ago, you are in reality paying them a great deal less," said Dr. George D. Strayer, professor of educational administration of Columbia university, in his talk at a public affairs luncheon at the Commercial club Saturday noon.

This near did the speaker approach the salary question, which is agitating teachers of Omaha. He went no further in his discussion of this point, except to explain that the same amount of money will not today buy the necessities would purchase a year ago.

Dr. Strayer is one of the commission of experts, who are to make a survey of the school building facilities in the Omaha system.
