

### TEUTONS PIERCE FRENCH POSITIONS

Germans Are Sacrificing Thousands of Men to Win the Aggressive on West Front.

(Associated Press War Summary.) That the Germans are prepared to go to almost any length in sacrifices of men to hold the situation on the western front in hand seems apparent.

Along the line held by the French the effort is taking the form of almost ceaseless counter attacking, both in the Alsine region and in the Champagne.

Although suffering a sanguinary repulse on Sunday in repeated attacks on the Vaucleurs and California plateaus, they made a new thrust last night further west, near Froimont farm, along the Chemin-Des-Dames plateau. The Paris report shows this to have had some measure of success, the crown prince's troops forcing their way into some advanced French positions.

British Movement Halts. The British on their front have not been so frequently counter attacked, but whenever recently they have essayed an advance they evidently have found dense masses of Germans opposing them. Today's British official statement does not mention any further fighting in the vicinity of Lens and apparently General Haig has not pressed further the attempt to advance made there yesterday, which was checked by violent counter attacks with heavy forces.

In an independent operation further south near Cherisy the British last night recaptured the post taken from them by the Germans in an attack on Saturday night.

#### Russ Situation Uncertain.

The situation in Russia continues extremely uncertain. While better reports have come from the army at the front, Minister of War Kerensky declaring it constantly increasing in power, conditions in Petrograd are becoming still more unsettled.

#### French Official Report.

Paris, June 4.—The Germans have forced their way into French advanced positions near Froimont, the war office announced this morning.

#### The statement follows:

The artillery fighting became violent late yesterday, northwest of Froimont farm. An attack at about 10 p. m. against the salient in our line enabled the enemy to get a footing in advanced positions. On the front of the Vaucleurs and California plateau the Germans did not renew their attacks after their sanguinary repulse yesterday, confining their efforts to rather heavy bombardment. "In the Champagne we made a surprise attack on the German trenches east of Teton, taking prisoners and capturing three machine guns.

"On June 2 and 3 our pilots brought down six German airplanes and one captive balloon. Our anti-aircraft guns brought down three machines, the occupants, of whom three were officers, were made prisoners. Enemy machines dropped bombs in the region of Nancy and on Dunkirk. It is reported that there were several victims among the civilian population of Dunkirk."

#### British Retake Posts.

London, June 4.—The British have recaptured the advance post near Cherisy, taken by the Germans in Saturday night's attack, and have repulsed hostile raids near La Basse and Neuville-Chappelle, the war office announced today.

#### LAX-FDS—An Improved Cancer

A digestive liquid, laxative, cathartic and liver tonic. Combines strength with palatable aromatic taste. Does not grip or disturb stomach. 10c.—Advertisement.

#### Jury Finds Creamery Did Not Adulterate Butter

A jury in federal court found that Kirschbraun & Sons, Omaha creamery, are not manufacturers of adulterated butter and ordered Collector of Internal Revenue Loomis to return to this concern \$732.38 wrongfully collected from Kirschbraun & Sons in 1912 as manufacturers of adulterated butter.

The jury, at the same time, refused to order the collector to return the tax of 10 cents a pound collected from Kirschbraun & Sons on the particular batch of butter seized in 1912.

The tax was levied by the collector because butter examined was found to contain more than the 16 per cent legal allowance of moisture. The creamery paid it under protest.

### INSURANCE COMPANY CHANGES ITS NAME

Policyholders Unanimously Vote to Drop "German" and Substitute "North American" in Title.

An important change in the existence of one of the great Omaha insurance companies was quietly brought about when the name of the German-American was changed to North American.

This was done at the home office of the company in The Bee building on Saturday, June 2, when a special meeting of policyholders was held for that purpose. Everyone of the more than 4,000 policyholders was present in person or by proxy, and the vote for the change was unanimous. Hereafter the organization will be known as the North American Life Insurance company of Omaha.

The change had been sanctioned by the insurance department of Nebraska, and amended articles of incorporation, containing the change have been filed. The validity of the policies issued heretofore issued are in full force. Only the name of the company is involved in the change.

It is noted by the officers of the company that the month of May, during which the change was under consideration by the policyholders, was the best month for business the company has ever had. They look on that as a good omen for the future.

The North American has enjoyed a steady and healthy growth and now has assets of \$700,000, with \$12,000,000 of insurance in force. It officers are G. L. Klingbeil, president; George E. Haslam, vice president; W. W. Young, treasurer and general attorney; V. D. Hall, secretary, and W. B. Young, actuary.

#### Women Must Sacrifice Complexions as War Aid

That the United States never will be able to float its \$7,000,000,000 Liberty war loan unless women make some sacrifice, was the statement of Mrs. Christian Andersen, member of the Women's club.

"I would suggest that every woman give up powder and paint and cut down on the cost of her togs during the time of the war," Mrs. Andersen said. "Women simply must make a sacrifice."

Mrs. Andersen purchased a Liberty bond Monday morning.

### WAR PURCHASES BRING PROSPERITY M'ADOO DECLARES

(Continued From Page One.)

of hurtful inflation in war time when such great bond issues must be made. A reasonable amount of wholesome taxation properly distributed is the best corrective. The worst mistake made by the federal government at the outbreak of the civil war was its failure to impose taxation vigorously and sufficiently.

"This led to a train of evils, hurtful to the credit of the government and resulted in unnecessary sacrifices of human life and treasure.

#### Over Subscribe the Bonds.

"To me it is a sad spectacle to see committees of various kinds coming to Washington and urging congress that the particular interest they represent be relieved of taxation, when at the same time our gallant boys are walking uncomplainingly to the registration officers throughout the land, signing their willingness to die, if need be, in their country's cause.

"You men and women who create public opinion in this country must make yourselves heard and tell your representatives in congress that you are not willing to support any policy which is more considerate of the interests of property than it is of the lives of our brave and unselfish soldiers.

"We shall not fail if everyone does his duty, but I warn you that these great things do not achieve themselves. They can only be achieved through the combined energy, determination and spirit of the American people.

"It is not enough of an answer to the challenge thrown down to us that we subscribe grudgingly or barely \$2,000,000,000 of Liberty bonds. We must over subscribe this loan. Our answer to the military autocracies of the earth must be that the American people have billions to sacrifice in the cause of liberty and self-government throughout the world."

#### Suffered Foreign Aggression.

Mr. McAdoo said that whatever differences there may have been about the war before it happened, the present is no time to discuss them or to think of them.

"Your representatives in congress, the men you sent there to speak for you, after having been informed by your president of the issues involved in this supreme contest in the world's history," he said, "declared by practically unanimous vote that the rights and liberties of the American people had been put in jeopardy by the aggressions of a foreign power.

"It makes no difference by what name that foreign power may be called. The fact that it has committed repeated aggressions upon American rights, that it has subjected this nation to indignities and wrongs which no self-respecting nation could afford to endure, that war has resulted and that we are in it, means that every citizen, no matter what his birth or origin, owes fealty to the flag.

#### Peace on Canada Border.

"I know how to sympathize with the men of German origin in this situation. I was born in the south in October, 1863, in the latter part of the civil war. My father fought on the southern side; some of his people fought on the northern side. I know with what heart burnings, with what anguish, they had to face the issue of a divided country.

"There are times in the history of every nation when the hand of an unseen power directs things, when individuals are absolutely impotent to control the course of great events. This is one of those supreme crises. I believe that God has called this na-

tion into this struggle because He had a mighty purpose to serve.

"Where there is democracy and self-government nations cannot be hurried into war by the arbitrary will of any individual. I have lived here in the United States alongside Canada, which is practically a great republic because they have had self-government for more than 100 years, and we have never had to patrol one foot of the 3,000 miles of border with an armed soldier. Isn't that a striking example of what it means to have self-government among contiguous peoples?"

#### Kaiser Endangers Civilization.

"The overshadowing danger to civilization today is the German military autocracy. The Kaiser, with a limitless and just ambition unparalleled in history, has set out upon a scheme of universal dominion. In order to win he has determined that neither the laws of humanity nor the rights of any nation shall stand in the way. That is the reason he has committed these insufferable aggressions upon the American nation.

"Why is it that we have not felt sooner the extent of this menace? It is because we have been lulled into a false sense of security by the 3,000 miles of water between us and Europe.

For a long time that was enough, but modern science and invention have narrowed the Atlantic to such an extent that it is little more today, so far as modern warfare is concerned, than a river.

"Do you know what would happen if Germany should be victorious, as it would be if it could bring France and England to their knees? It would take the entire British and French fleets, release its own great fleet, which has been tied up in the Baltic during the war, and combining these with the most destructive submarine fleet on earth—because it has it—it would come here and put the iron heel of conqueror upon our shores. "We should have to fall back to

### Mission for the Deaf at Dodge Street Church

For the first time in Omaha a unique religious movement, a week of missions for the deaf, is in session at St. Mary Magdalene's church, Nineteenth and Dodge streets. The mission is for non-Catholic as well as Catholic deaf.

The prayers, lectures and songs are given in the deaf and dumb language. Tonight the life of Christ will be given in an illustrated lecture.

Father Gehl of Wisconsin and Father Shields of St. Louis are conducting the mission in Father Sinne's church. The mission opened Sunday and continues until next Sunday.

### U. S. Schooner Robbed By Mexican Gunboat

Galveston, Tex., June 4.—The American fishing schooner Arcas was boarded by the crew of a Mexican gunboat off the coast of Teahuapepe, Mex., on the high seas on May 31 and looted of clothing, fishing gear and medicine chest. This news was brought here this morning by Captain S. A. MacDonald of the Arcas, who arrived in port directly from the scene of the robbery.

### Has Arm Broken in Three Places Adjusting a Belt

George Laible, 37 years old, 3644 Vinton street, engineer for Evans laundry, had his left arm broken in three places and suffered possible internal injuries when he caught his hand in a belt which he was trying to adjust. Workmen rushed to his assistance and turned off the power. He was taken to St. Joseph hospital in the police patrol.

## GOODRICH SILVERTOWN CORD TIRES

**DURABILITY**—a long life of long mileage remarkably free from puncture and blowout—is sure in Silvertown Cord Tires because the durability is built on the foundation of cable-cord's supple strength.

Made expressly for Silvertowns, used exclusively in them, cable-cord is the strongest material in automobile tires. **STRONG ENOUGH TO SWING THE WEIGHT OF A HEAVY MAN.**

Many threads, the size of web tire 'cords,' are twisted at even tension, cabled into cable-cord. During cording and cabling, high pressure forces all air out of the cord tendons, and replaces it with rubber gum till cable-cord becomes a fusion of cord and rubber—40% rubber.

Always cool, no matter how fast an automobile speeds, when cross-wrapped into the two-ply body of the Silvertown tire, it keeps Silvertowns immune from TIRE FEVER, the internal heat rubbed up between the plies of many-ply tires.

The durability of Silvertown, the tire trade-marked with the "RED DOUBLE DIAMOND," makes it a tire you cannot afford to be without.

**Congress of Mexican Land Owners Called**

Mexico City, June 4.—The problem of Mexico's food supply has caused the National Chamber of Commerce to issue a call for a meeting in the capital on July 12 of all land owners in Mexico. The meeting will consider measures to ensure the planting and harvesting of sufficient crops to provide for the necessities of the people.

The chamber, acting in conjunction with the department of commerce and industry, assures agriculturists and land owners that steps will be taken to aid them in planting all available ground. Seeds will be bought and distributed by the chamber and money loaned according to the need of the sections represented.

The department of industry has urged the governors of various states to report on the needs of their districts and give statistics on crop plantings and prospects. It is hoped that the plan will put a large acreage of previously barren land under cultivation.

### WEDNESDAY

### The Linen Sale Extraordinary

**The Reason:**

Fire, May 20th, in the government bonded warehouse, Omaha, damaged an importation of Scotch and Irish Linens which were stored there.

Linens purchased in September, 1915, at prices 50% to 75% lower than present prices.

Besides, it is necessary to take into consideration that the qualities CANNOT BE OBTAINED TODAY even at an enormous advance in price.

The damage is from smoke and water, and, while it is imperative that we dispose of them at once,

**One trip to the laundry will make them as good as new.**

**So the Advantage is in Your Favor.**

We feel certain that Omaha women will appreciate the reasonableness of this explanation
