Sixty-Five Men Under

Arrest at Butte, Mont.

Butte, Mont., June 6.—National Guard troops called by local authorities to assist it in averting an antiwar demonstration last night were withdrawn from the streets at daylight today and returned to barracks on the crest of the Butte hill. After the streets were cleared and sixty-five of the disturbers arrested order was naintained. Minor injuries were suffered by some of those who failed to fered by some of those who failed to leave north of Main street, the scene of the disturbance, in the time allot-

ted them to disperse.

Major Sargeant, commander of the troops brought here from Helena to preserve order during registration day, announced that they would remain until all possibility of disorder in the city disappeared.

According to the police, last night's trouble resulted from an effort of some Finns to hold an anti-draft demonstration. ted them to disperse.

demonstration.

They were joined by some individ-ual members of the Pearc-Connolly club, one of whose officers is under arrest charged with planning the con-spiracy to distribute anti-registration pamphlets in the city on Sunday.

ge-Up to a late hour this afternoon was no way of telling how many might get in before the market closed octock. Upwards of 160 loads were way for today's market, but wash and high water, results of last night, a delayed a great many trains. Som

largely in yesterday's notches.

At 11 o'clock about all of the hogs in up to that time had changed hands and traders were just marking time pending the arrival of later trains. A great many of the earlier cales had been made at \$15.35 \$15.40, with tops at \$15.50. Values were more or less uneven as was to be expected with everything so uncertain, but as noted the general trade was just about steady with yestorday.

Sheep—Trains carrying sheep were all delayed by last might a storm, and none of them were expected before noon. Yesterday's official count was a little larger than the estimate, the official for the week so for being 11,239 head, as compared with \$1,05 head a week ago, 14,540 two weeks ago and 10,356 last year. The figures for this week do not of course, include anything that may get in late today.

While there were a few holdevers and drivedus on offer, they did not amount to enough to really make a test of the market. Three cars were sold during the morning at prices that were nearly steady, but Chicago was reported lower, and the chances were that had a normal supply leen on hand here prices would have continued on the downstade.

A load of drive-in clippers, mastes of the

CHICAGO GRAIN MARKET.

CRICAGO GRAIN MARKET.

Action of Board of Trade in Fixing Price Of Corn Falls To Produce Sedative Effect.

Chicago, Juns 4. Senantional price advances in the corn market with buying on a tremendous scale resulted from action of the Board of Trade directors Monday night establishing \$1.55 a bushel as a maximum limit on quotations of corn in store, either for immediate or future delivery. The extreme consequent jump in values today was 10% of and the market closed firm; \$6210% net higher, with July at \$1.55% and September at \$1.45%, Wheat gained \$50% one higher, with July at \$1.55% and September at \$1.45%, Wheat gained \$50% one higher, with July at \$1.55% and september at \$1.45%, Wheat gained \$50% one higher, with July at \$1.55% and in provisions a decline of \$63%.

Whatever hopes were entertained that the fixing of a maximum price would have a sedative effect on the corn market took flight the instant that trading began. Instead of reducing the cost of the ceres, the circumstances that a maximum limit had been deemed necessary acted on the buils like the waving of a red fing and there was a jump of \$5c shown on the very first transactions. Apparently the establishment of a maximum had been widely taken to imply atreouth of builtsh predictions that unless a limit was set the market was likely to reach \$1. Excessive rains and further unseasonable cold tended likewise to excite appreheasion and eo, too, did reports that country supples were about exhausted with foreign demand increasing. Eagerness to purchase corn proved so great that all the other trading pits were virtually emptied of brokers, Late factors included smallesses of rural offerings, advices that much reginating would be necessary and the fact that ellippers and industries had been liberal huyers of corn today for immediate delivery. North American available aupplies of rorn, improved crop prouder maximum and as a wear sex.

available supplies of nors were estimated at 4856.000 bushels, as against 16,868.000 bushels, as against 16,868.000 bushels as gainst 16,868.000 bushels as gainst 16,868.000 bushels as one of armpathy with corn. Improved crop prospects as to both whest and onts tended, however, to offset to a large degree the verfects of the corn bulge.

Provisions eased down owing to continued duliness of cash demand and to weakness in the hog market. Foreign interests were said to have been liberal soller of large. Cash prices: Whest-Nos. 3 and 3 fed and Nos. 2 and 2 hard, contrast.
