The total weight was 288 1/2 pounds. Mrs. Thomsen guessed 289 pounds. Six others guessed 290 pounds. The range of guesses was really remarkable, showing how hard it is to make a good guess on anything of that sort. The lowest guess was sixty-five pounds and the highest was 894 pounds. The potatoes were delivered to Mrs. Thomsen this afternoon.

Weather Bureau Has Jobs For Lads Under Twenty-One

Positions in the United States weather bureau, paying \$900 to \$1,200 a year to start, are now open for young men from 17 to 20 years of age. Colonel Welsh of the local weather bureau has received blanks from Washington and young men can make application to him in his office on the fourth floor of the federal building. "The opening is created because men who are now on our list of eligibles will be taken by the military draft and the departments want to fill their places," said Colonel Welsh. "High school students or high school graduates ought to be able to qualify for these positions. Examinations are to be waived. Many of these young men will be assigned to aerological work which the bureau is doing in connection with aviation work, in finding out about conditions in the upper air. The positions are temporary, but may be made permanent for young men who show efficiency in the work. I will fill out applications for those who apply to me here and forward them to Washington."

TWISTERS RETURN TO STORMSWEEP STATES

Kansas and Missouri Again Report Total of Twenty-Four Deaths From Series of Tornadoes.

(By Associated Press.) From the storm-swept regions of Missouri and Kansas today came reports showing that the deaths of twenty-four persons, the injury of approximately 100 and property damage well in excess of \$1,000,000 were caused by the tornadoes of late yesterday. The death list was: Centralia, Mo., 7; Richmond, Mo., 3; Wabaussee, Shawnee and Jefferson counties, Kansas, 4; Douglas county, Kansas, 3; Neosho county, Kansas, 1; Iola, Kan., 1; Boonville, Mo., 5.

Counting the Dead. Kansas City, June 6.—For the third time in a little more than two weeks portions of Missouri and Kansas today were compiling lists of dead, injured and property losses inflicted by vagaries of the elements. At least fifteen persons were dead and many injured in widely separated sections of the two states.

Early today wires still were down in all districts in the storm areas and no definite compilation of the toll of dead and the property damage reported late yesterday when the several twisters swooped down had been made. It was known, however, that the little village of Elmont near Topeka, Kan., virtually was levelled, with the death of one man there and two others nearby. A negro boy was killed near Lawrence and a man is reported dead at Clinton, further west. In Missouri, just east of Richmond, two women and a baby were victims of a tornado that wrecked their home. At Centralia seven persons were killed and thirty injured.

Eight Dead in Kansas. Topeka, Kan., June 6.—Tornadoes throughout Kansas yesterday killed at least eight persons, injured between forty and fifty and caused property damage estimated in excess of \$1,000,000. The storm struck Kansas in three distinct areas—one through Wabaussee, Shawnee and Jefferson counties, killing four; the second in the southwest corner of Douglas county, killing three, and the third in Neosho county, killing one.

Burlingame in Osage county is isolated. The known dead are: Samuel Archer, Menoken; Alonzo Adams, Menoken; John Winter, Elmont; John Elliott, Meriden; John Beechler, Mrs. Tummie and Thomas Monroe, her son, all of Clinton; W. H. Gattineau, Erie.

National guardsmen are patrolling the stricken districts. One Dead at Iola, Kan. Iola, Kan., June 6.—William Jaspineau was killed and his wife and four others were severely injured by a tornado near Savonburg, southeast of here, this morning. Homes were destroyed. It is feared several of the injured may die.

Six Die at Boonville. Boonville, Mo., June 6.—Five or six persons were killed last night in a tornado that dipped down seven miles east of here, near the Missouri river. The tornado's path was from fifty to a hundred yards wide for an undetermined distance. The storm struck the western part

TWIN CITIES PULL TO GET CAMP SITE

Announcement of Location Said to Be Coming From War Department, June Tenth.

Minneapolis, Minn., June 6.—(Special Telegram.)—Unofficial advice from Washington assert that Major General Barry, commander of the Central department of the army, has recommended to the War department at Washington that the cantonment camp and maneuver grounds for the division of troops to be raised in the Thirteenth district be located in the Twin Cities.

If the War department abides by the recommendation of General Barry the first increment of 35,000 troops to be raised by draft in Minnesota, Iowa, Nebraska and North and South Dakota will be trained in camps near the Fort Snelling reservation, these sites having been recommended by the army board appointed to locate sites in this divisional district. A couple of days ago it was reported the army board was leaning toward an Omaha site.

The War department is expected to announce the location of the site June 10. Camp officers at Fort Snelling have not been keenly enthusiastic about locating training camps for the draft army in this latitude. They point out that if rain interferes with officer training as it is doing at Snelling now, cold weather and snow would hamper the training of privates. They have expressed a doubt about the government going to the expense of building a large cantonment and permitting 35,000 men and army instructors to remain idle during the winter months. They point out that in the Canadian camps marching is the only drill that can be undertaken during the winter months.

Only twenty instructors remain at the Snelling student camp. This is far below the number of instructors employed in training camps of similar size in Canada and Europe, and it is understood an effort will be made to obtain more instructors for Snelling.

Joffre Will Be Sponsor For American Army in France

Paris, June 6.—A semi-official note says that Marshal Joffre while in America had a conference with American military chiefs at which a plan of organization for the new American army was elaborated in agreement with the British leaders. The note says: "It will surprise none that the marshal took a preponderating part in the plan, literally everything which he advised being adopted. His collaborators styled him 'the godfather of the American army.'"

"At a moment when the first elements of this army are getting ready to take their place on our front beside our allies, the French government considered it only fitting to confirm the marshal in his sponsorship. The program for this collaboration has already been drawn up. Marshal Joffre is officially entrusted with the mission of putting constantly at the disposal of our great sister republic what France has learned in three years of hard campaigning."

Alsations Start Riot When Dubbed Germans

Webster City, Ia., June 6.—(Special Telegram.)—A party of Frenchmen started a riot at the registration in Blairsburg yesterday afternoon, when the registrar ruled they would have to be registered as Germans, because they were born in Alsace-Lorraine. An appeal was taken, to County Attorney Burnstedt, who upheld the registrar.

Torpedo Fired Through Rescue Boat; All Killed

London, June 6.—At a conference of members of the Seamen's and Firemen's union yesterday indignation was aroused by the recital of two recent instances of German ruthlessness in the North sea. In one case a British ship was sunk and eleven members of the crew were killed by shell fire. In the second case, after torpedoing a ship, the Germans fired a surface torpedo through a small boat which was carrying the crew to a rescuing steamer and killed all on board.

Riots Near Parliament Building at Stockholm

London, June 6.—Clashes between crowds of workers and the police and soldiers in Stockholm during a debate in the Riksdag on socialist interpellations are reported in a dispatch to Reuters from the Swedish capital. During the debate the streets near the parliament building were barred by a double line of soldiers and police. Considerable crowds gathered and stones were thrown. The police used their swords and batons and several persons were injured.

TO BROADEN SCOPE OF FOOD CONTROL

Licensing Feature of Bill Probably Will Be Extended to Exporters; Goes to House This Week.

Washington, June 6.—Changes in the administration food control bill to extend the scope of provisions governing licensing of manufacturing plants and distributing and storage houses probably will be made as a result of a conference today between Herbert C. Hoover, Secretary of Agriculture, Chairman Lever of the house agriculture committee and Representative Anderson of Minnesota, another member of the committee. The bill will be reported to the house favorably by the end of the week.

Extension of the licensing feature to exporters is considered now, it is said, to give the government a firmer control over food shipments to foreign countries. At present both the allies and neutrals are buying food in this country in unrestricted quantities. If the licensing stop at grain and other food exchanges and boards of trade the government, it is contended, would have no power to control foreign buying and could meet the situation only through operation of the export restrictions bill, now pending.
