A large proportion of the arrivals had been shipped for Wednesday's market, but failed to arrive in time by reakon of the heavy storms in the country. The total for the four days this week foots up 21,398 head, being slightly larger than tast week and larger than a year ago by over 2,000 head. The market was a little slow on all grades and from that on down to fully 10e lower in many cases. In fact year-lings were generally quoted as fully 10e lower.

Cows and helfers were scarce and for that
reason the market did not show much
change on that kind.

Sheep—There was a light run of sheep and iambs on hand this morning, no more than fifteen cars, or 3,600 head, being reported in. Two of these were California spring lambs direct to packers. For the four days receipts foot up 14,85 head, being more than 1,000 larger than last come 604 shows short of two weeks ago, and come 604 shows short of two weeks ago, and come 604 shows short of two weeks ago, and come 604 shows short of two weeks ago, and come 604 shows short of two weeks ago, and come 604 shows short of two weeks ago, and come 604 shows short of two weeks ago, and come 604 shows short of two weeks ago, and the same all that sver got in yeasterday. These sold pretty close to steady, the lambs, which were very good, bringing 16.75 and the cwes 110,80. Other stuff that was in sight falled to strive until late last night or this morning.

Today's offerings were cleaned up in pratty fair season, although packers did not asem to be overly eager buyers and were out for continued declines if they could get them. The undertone to the market was again casier, and while some sales looked steady, others were week to possibly as much as a quarter lower. Sales included tops of six loads of California springers at 116.10. They were not the best, and a nominal top of \$11,500 in quotable. Best
