#### Bedridden Shoemaker Takes His Own Life

Bedridden for four years as the result of paralysis, John Janota, 56 years old, 3129 South Third street, dragged himself along the floor to the cupboard in the kitchen, where he found a can of kerosene.

His wife, who was working in the garden at the time, found him an hour later. His mouth had been badly burned.

Mr. Janota was a shoemaker. Constant bending over had affected his back. It is said that he threatened to take his life several times, but because his family did not think it possible for him to leave his bed, had not considered his threat serious.

Besides his wife, he is survived by five children ranging in age from 22 down to 9.

#### Bedford and Compton Are Legally Confirmed in Office

County Commissioners Bedford and Compton were legally confirmed in office Saturday by Judge Day, sitting in equity court, who heard the arguments in the quo warranto proceedings to oust them brought by Frank C. Best and A. C. Harte, defeated at the last election.

Mr. Best and Mr. Harte, former county commissioners from the third and first districts, contended that they should have held over in office until 1918. Their alleged elections were held at the wrong times since 1906.

Judge Day ruled he was acting in accordance with decisions made by the state supreme court in deciding the case in favor of the present county commissioners.
