Drop Many Fort Snelling Students From the Rolls

Minneapolis, Minn., June 19.—(Special Telegram.)—About 250 students have been dismissed form the Fort Snelling camp since the training per-iod began, it was stated today by camp officials. About ten of these had good reason for discharge and the remainder were discharged for physi-cal disability and other reasons which unfitted them for commissions.

The efficiency board continues its daily sessions, but it is understood that most of the undesirables have been weeded out of camp.

Among those dismissed are several

National Guardsmen, some because they have accepted commissions in the Guard and others because they preferred to remain with their Guard

regiments as privates or non-com-missioned officers.

The percentage of Guardsruen dis-charged for being inefficient is rela-tively small. Each student who has been discharged has been given a

Would Help Workmen Regain Skill at the Close of War

Correspondence of The Associated Frees.)
Swansca, Wales, May 20.—Dealing with the question of employment after the war, F. Huth Jackson, chairman of the National Alliance of Employers and Employed, said it was proposed to establish local boards, two-thirds of the representation at least to consist of employers and employed in equal proportions, to act in conjunction with a central statutory hoard with similar representation. He also advocated the re-employment of men after the war in their old berths, and said if, in some cases, they had lost part of their skill, they must be helped to regain it. helped to regain it.

From London to Capetown (Correspondence of The Associated Press.)
Lond, May 20.—Brigadier General Brancker of the royal flying corps, at a luncheon given in honor of General Jan Christian Smuts, said that in air fighting Great Britain had gained very distinctly the upper hand over the Germans. He suggested that not long after the war a line of airplanes would be established traveling between London and Capetown by way of the Nile.

claims may have honest and serious consideration.

Neville Confers With Morehead Governor Nevile and Election Commissioner Moorehead held a conference yesterday afternoon on details connected with the exemption boards for selective army conscription, the personnels of which will be announced in a few days.

The governor, according to the election commissioner, will have to recommend three other men to sit on the board which will hear claims for exemptions in the county districts outside of Omaha.

Advises from Washington say that each of the six h-ards must be composed of men living in the respective districts.

Governor Neville had originally recommended as the members of the board to sit in the country districts Sheriff Clark, County Clerk Dewey and County Physician Van Camp. The change in plan will necessitate recommending three new members for the country board.

Neither the governor nor the election commissioner have received official notice of when the boards will begin work or what their duties will begin work or what their duties will begin work or what their duties will be more than in a motored where the town of Ytan, Saunders county, is now situated.
