BOARD OF CONTROL CLASHES WITH SMITH

State Auditor Claims He May Strike Out Bills Meeting His Disapproval; Courts May Decide Issue.

(From a Staff Correspondent.)

Lincoln, June 20.—(Special.)—Has the state auditor authority to refuse to draw warrants for claims allowed by the State Board of Control from state institutions under the board?

This is a question which will probably have to be settled by the courts, the state board of control taking exceptions to action of Deputy Auditor Fred Ayers in cutting out an item for flowers for Mother's Day for the inmates of the Geneva Industrial School for girls, amounting to $7.05.

The bill was for $54.50 and covered meats and the like for the institution with the flowers bill added.

State Auditor Smith holds that according to the constiution he has the right ot strike out any item or refuse to draw warrants for any bills coming before him.

Judge Holcomb of the Board of Control holds that after the board has examined a bill coming from a state institution under control of the board and orders the same paid, that the auditor has no authority to cut out any item or refuse to draw a warrant for the same. He says that the matter will be taken to the courts for settlement of the point.

M'KINLEY PLANS BIG DRIVE FOR ARMY SATURDAY

(Continued From Page One.)

large number of vacancies in the grade of second lieutenant in the line of the army. Under a recent ruling of the War department young men who now enlist in the army are eligible to take the examination for commission at any time after their enlistment. The War department is offering splendid inducements to college men and college graduates to enlist. Graduates of recognized colleges and universities are exempt from the major portion of the subjects laid down for the examination for commission.

"Due to the addition of fifty-one regiments recently added to the regular army and to the fact that a large number of noncommissioned officers will be given temporary commissions for the war, a large number of noncommissioned officers will be needed. Men who enlist now, who are studious and ambitious, have an excellent opportunity for rapid advancement.

"An enlisted man, after one year in the army has the opportunity of entering West Point. Young men of military age who are ambitious and desire promotion, should start in their military work at once. Men who wait will be handicapped in the matter of promotion.

Hold Jobs Open.

"A man's pay starts at $30 per month and increases as he gains promotion. In addition to his pay, his clothes, quarters, board and medical attention are furnished. After a man has been designated for service under the selective draft he cannot then enlist in the regular army.

"I have sent letters to 300 representative business men in Omaha and I hope that each one will devote at least a part of the afternoon of Saturday, to stimulate recruiting. A great many young men now feel that if they give up their position to enlist in the army that they will be left out in the cold after the war is over.

"If employers would assure their men that those who enlist in the army will be given preference in the matter of employment after their return from service, it will cause a great many men who to respond at once to the call to the colors."

Wonder Tells Kearney Men What Is Wrong With Road

Kearney, Neb., June 20.—(Special.)—James C. Wonders, government road expert, Omaha, yesterday filed with the Commercial club a report of the condition of the main traveled south road, extending to the new Platte river bridge, a road built under government supervision. The road is of clay and sand and it has not been giving satisfaction. Wonder stated that this was due to a lack of moisture on the road immediately after it was constructed, causing the surfacing to blow loose. Eventually the entire crown was ruined. The road will have to be pdowed up immediately after a rain and given another chance to knit. The expert states that it will, if properly settled, make the best dirt road in the state.

Alkali In Soap Bad For the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and ruins it.

The best thing for steady use is just ordinary mulsified cocoanut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified cocoanut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.—Adv.

M. W. A. INSURANCE RATES INCREASED

Amended Charter Providing for Advance of Twenty Cents Per Thousand Dollars Is Adopted.

Chicago, June 19.—An amended charter providing for an increased insurance tax rate of 20 cents per $1,000 was adopted today at the triennial convention of the Modern Woodmen of America. The war risk was given as the reason for the increased rate. The new charter will require the approval of the secretary of state and the state insurance commissioner and a messenger left tonight for Springfield in an effort to get the approval to present to the convention.

There is also a movement on foot to raise a $3,000,000 fund to care for the families of members who expect to go to the front. It has been endorsed by state caucuses, but the by-laws require unanimous consent for a special assessment for such a fund.

Ritualistic work was exemplified at sea tonight, by a delegation of Woodmen from Omaha, who chartered the steamer Theodore Roosevelt for the purpose. During the trip, the Roosevelt scraped on the rocks at a shallow place in Lake Michigan, but no damage was done and no one was hurt. The steamer returned to port under its own power.

New Corn Remover in Big Demand, Say Druggists

Since the virtues of Ice-Mint as a corn remover became known in this country, druggists have been having an extraordinary demand for this product and it is predicted that this summer women will wear smaller and prettier shoes than ever.

The fact that this new discovery, which is made from a Japanese product, will actually remove corns—roots and all—and without the slightest pain or soreness, is, of course, mainly responsible for its large and increasing sale.

You apply just a little on a tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it may be lifted out with the fingers—root and all.

Ice-Mint is a clean, creamy, snow-white non-poisonous substance and will never inflame or irritate the most tender skin.

Cutting or paring corns often produces blood poisoning, and people are warned to stop it.

Just ask in any drug store for a small jar of Ice-Mint, which will cost little, yet is sufficient to rid one's feet of every corn or callous. You'll like it immensely.—Adv.
