

MEN WILL CAST OFF CLOTHES BONDAGE

Unoslip Will Give that Freedom in Warm Weather Which the Ancients All Enjoyed.

By A. R. GROH.

My fellow men, are we free or are we slaves? You say we are free. But stop! Are we free when we are bound and choked by heavy clothing all through the sweltering summer. Are we free when a starched collar encases our neck like a pillow? Are we free when our heads are crushed by stiff straw hats, our waists oppressed by tight belts, our calves pinched by garters, uncomfortable garters in spite of the fact that no metal can touch us? Are we free when our feet ache in heavy shoes? Are we free when we hear the rest of the white man's burden of socks, trousers, shirts, O. B. G.'s, coats, neckties?

I have called you together today, men, to cast off these bonds of convention, to rid ourselves at one blow of these hot shackles of civilization.

Invent a Garment. Give ear to me! For I have invented a garment which shall become the badge of our liberty.

Behold, men, the Unoslip! That is the name which I have given it. "Uno" signifies that it is in one piece, a combination of shirt and trousers. "Slip" signifies the ease and quickness with which you slip into it. No more garters, no belts, no stiff collars! Aye, and more, men! No more socks, no shoes, no neckties. We shall cast them aside. Neither shall we wear hats. Did not kindly nature cover our heads with a thatch of hair to protect us from the heat of the sun? The hat has been foisted upon us by an artificial age. The Greeks and Romans wore no hats. Neither did the Indians. Away with hats!

Does it not fill you with joy to contemplate the Unoslip? You shall rise from your bed in the morning, take your shower and step lightly into your Unoslip. You shall dress in a moment instead of in half an hour as under your present regime of clothes bondage.

And more! The Unoslip shall not be made of heavy serge, chevots, tweeds and the like. No! We shall adopt the light and airy fabrics now used by the fair sex—silks, satins, voiles, charmeses, crepe de chinos and the like. We shall have our Unoslips made in dashing patterns and in all the colors of the rainbow. We shall have, also, house Unoslips to wear at home, made of simple ginghams and calicos.

Does not your heart throb at the very contemplation of the freedom which is to be yours? In your Unoslip, freed of all the cramping restraint of collars, garters, belts, shoes, you will feel like skipping and jumping and running. Your bare feet will rejoice, the glad sunshine will shine upon your head and the cool breezes will blow refreshingly through your Unoslip.

In order to avoid embarrassment in the introduction of the Unoslip to Omaha and to the world it will be wise for all men to appear on the same day in their Unoslips.

Sets Date. Therefore I have designated Tuesday, July 9, as the day when every man and boy shall appear, dressed in the garment of freedom!

Perhaps we can get the mayor to issue a proclamation making that "Unoslip Day" and then get them to put "Welcome Unoslip" on the welcome arch!

Have your Unoslips made now, men! And don't forget the day, the great and glorious day of our clothes emancipation.

Omahans to Bore for Oil in Rich Wyoming Field

Charles P. Moriarty, president, and Emil Hansen, secretary of the newly organized Flat Top Oil and Gas company, will leave Monday for Douglas, Wyo., to let the contract for the first well on the 440-acre property of the company, twenty miles from Douglas. They will also contract for a number of buildings to be erected. The company's property is in the very heart of the great oil district of Wyoming, with some big wells now flowing right around it. Mr. Hansen has received five tempting offers for leases of the property, each higher than the one before. Therefore it was decided to form a company to develop the promising property.

The services of a geologist with a national reputation will be secured and development work will be rushed.

South Dundee Men Win in Bible Class Drive

The men's Bible class of the Dundee Presbyterian church gave a banquet in the church parlors Friday evening as the culmination of a contest which has brought the membership of the class nearly to the 100 mark.

Several weeks ago a contest was started, the members being divided into two teams, composed respectively of those living north and those living south of Underwood avenue. The latter won, and therefore the banquet was given to the whole class by the men living north of the dividing line.

A. C. Crossman presided as toastmaster at the banquet. There was singing by a quartet, music by a drum corps and a number of speakers were on the program.

Short Way from Legislature To Water Board Pay Roll

According to the records of the Metropolitan Water district office in the city hall, it is but a step from the legislative halls at Lincoln to the pay roll of the water department. Two months ago T. E. Conley of Jefferson county was placed in the water office in a clerical position. Mr. Conley was in the lower house two years ago and served during the last session. Last week John Goodall, one of the Douglas county representatives in the last session, was given a position as watchman at the Florence plant.

Among the former legislative friends mentioned by General Manager Howell are C. L. Saunders and Jerry Howard.

Briggs to Go to the Front that He Might Save Some Younger Man

In the hope that he might save the life of some younger man, John Briggs, police captain at South Side and just a few months under the 45-year age, has applied for enlistment as a private in the new Sixth Nebraska regiment.

Captain Briggs was the first applicant to apply when the South Side recruiting station opened Friday. "I've lived a long time and I think it my duty to take the place of some younger man who otherwise would be drafted," he told the recruiting officer.

For "captain Briggs to enlist means that he will have to give up a \$150-a-month job for one of \$30.

The South Side official encountered strenuous objection from his wife when he told her of his application. "I'll win her over," he said. "A number of South Side ladies have been thinking to her and I'm sure she will consent."

Captain Briggs has been on the South Side force for seventeen years, starting as a patrolman.

Capt. John Briggs

OMAHA RED CROSS NOW NEEDING MEN

Launches Second Drive, This Time for Men to Man Ambulance Company Soon to Be Equipped.

With the Red Cross financial campaign practically at an end, Omaha Red Cross workers have launched a second drive. While the first was for dollars, the second is for men—200 Omaha young men to apply as candidates for the Omaha Ambulance company now being formed.

At a meeting held at University club at noon and attended by a number of prominent physicians, plans were decided upon to start the campaign at once.

Dr. Charles Hull, secretary of the existing committee, said the hospital unit when enlisted to full strength would have 124 men. Because of the stringent examinations required of candidates, he explained only about one of two who apply is accepted. The personnel of the organization will be as follows: One captain, four first lieutenants, one first sergeant, eleven sergeants, five mechanics, two cooks, two assistant cooks, twenty chauffeurs and seventy-five privates.

Dr. Hull read instructions as to the formation of the unit he had received from Washington. Previous to this the committee had been handicapped as how to proceed.

Drill at Auditorium. Dr. A. F. Jonas, chairman of the committee, said the organization would begin drill as soon as possible at the Auditorium with Sergeant Frank L. Burnside, U. S. A., drillmaster. Uniforms and other equipment would be here in a few days, he said.

The following doctors attended the meeting: O. S. Hoffman, Le Roy Grummer, J. M. Bannister, A. C. Stokes, E. C. Henry, B. B. Davis, J. H. Vance, A. F. Jonas and C. A. Hull.

Funeral of Mrs. H. P. Deuel To Be Held This Afternoon

The funeral of Mrs. Freelow J. Deuel will be held Sunday afternoon from the family residence, 1906 Dodge street. Service will be conducted by Rev. T. J. Mackay of All Saints church at 3 p. m. and burial will be in the Deuel lot at Prospect Hill cemetery. Funeral will be private. The pallbearers will be: Everett Buckingham, Walter B. Wilkins, J. D. Foster, John Guild, Victor Rosewater and Frank B. Kennard.

Mrs. Deuel was the widow of Harry P. Deuel, pioneer citizen who died two years ago last fall. He was ticket agent for the Union Pacific many years and later served as registrar of deeds. The Deuels were married on January 6, 1858, at Tiskilwa, Ill. Mrs. Deuel's family name was Miller.

Charles L. Deuel is the surviving son. His mother came to Omaha fifty-eight years ago and was 80 years of age last January. In the early days of Omaha she was identified with charitable activities and was loved and esteemed by many who

SHIPPERS WIN IN DEMURRAGE FIGHT

Roads Must Reciprocate for Increased Demurrage Charges by Payments for the Transit Delays.

If shippers pay the increased demurrage charges to the railroads for holding a car out of use beyond the limited period in the future, the railroads will have to reciprocate by paying the shippers \$2 a day for every day a car of goods is delayed in transit.

This provision, known as reciprocal demurrage, comes as a part of the order just issued by the State Railway commission.

Local shippers are greatly pleased with the provision, feeling that, though the railroads won in a sense their fight for increased demurrage charges, the shippers won a signal victory in pushing into the order the reciprocal demurrage clause.

Omaha Fights Alone. The Omaha shippers are the only ones who made a fight for this feature. Henry T. Clarke, jr., who handled the case for the Lincoln shippers, did not mention it. Traffic Manager Young of Fremont, who handled the Fremont phase of it, merely opposed the increase in demurrage.

P. P. Murray, chief clerk of the traffic bureau of the Commercial club of Omaha, went into the hearing at Lincoln fighting for the reciprocal feature from the start. He saw that the increase in demurrage charges could scarcely be averted, as the increase has been granted in interstate business, and the tendency everywhere was for the states to meet it in intrastate business. Thus he centered his fight on the proposition of getting some returns for the shippers by forcing the roads to pay for days cars are delayed in transit.

He has a number of other eye troubles which have been treated by the use of the Bon Opto method. He has a number of other eye troubles which have been treated by the use of the Bon Opto method. He has a number of other eye troubles which have been treated by the use of the Bon Opto method.

No Excuses to Save Auto Law Violators

A committee of automobile owners called on the police judges to request that violators of the auto regulations shall be fined when brought into court. Particular stress was placed on the violation of the ordinance requiring dimmers. The judges assured the committee that the request will be given active support and that excuses from motorists will be disregarded hereafter.

Dr. Beck, The Well Known Eye Specialist and Doctor Judkins, The Medical Author, Publish Astonishing Report on Wonderful Remedy To Strengthen Eyesight

Say it Strengthens Eyesight 50% in One Week's Time in Many Instances

DR. BECK

A Free Prescription You Can Have Filled and Use Home.

New York.—Dr. Beck, a New York state eye specialist, and Dr. Judkins, a Massachusetts physician, were asked to make a thorough test of the popular eye remedy, Bon Opto. Their reports were most interesting. Here they are: Dr. Beck reports, "When my attention was first called to the wonderful eye remedy, Bon Opto, I was inclined to be skeptical. I made it a rule to test every new treatment which is brought to my attention. Having specialized in eye work for the past twenty years, I believe I am qualified to express an intelligent opinion on remedies applicable to the eyes. Since Bon Opto has created such a sensation throughout the United States and Canada, I welcomed the opportunity to test it. I began to use it in getting some returns for the shippers by forcing the roads to pay for days cars are delayed in transit.

at home by anyone of average intelligence. In my own practice I have seen it strengthen the eyesight more than 50 per cent in one week's time. I have also used it with surprising effect in cases of work strained eyes, pink eye, inflamed lids, catarrhal conjunctivitis, smogging, pain, itching, itching eyes, eyes weakened from colds, mumps, sun, dust and wind, watery eyes, blurred vision, and in fact many other conditions too numerous to describe in this report. A new and startling case which has just come under my observation, which yielded to Bon Opto, is that of a young girl, 12 years old. Two prominent eye specialists, after a thorough examination of the young girl, decided in order to save the sight of her right eye, the left eye must be removed. Before permitting her to be operated on, the young girl's father decided to use Bon Opto. In less than three days a marked improvement was noticed. At the end of a week the inflammation had almost disappeared, and at the end of six weeks the eye was saved. Just what the saving of that eye means to this little girl. Another case is that of a lady, 38 years old. She came to me with dull vision and extreme inflammation of the lids and the conjunctiva was almost raw. After two weeks' use of Bon Opto the lids were absolutely normal and her eyes are as bright as many a girl of 16."

DR. JUDKINS

Another who used it says: "I was bothered with eye strain caused by overworked tired eyes which induced fierce headaches. I have worn glasses for several years, both for distance and close work and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim, green blur to me. I cannot express my joy at what it has done for me." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription at home. Here is the prescription: Go to any active drug store and get a bottle of Bon Opto tablets. Drop one Bon Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid rub the eyes two or four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little, it is your duty to take steps to save them now before it is too late. Many hopefully blind might have saved their sight if they had cared for their eyes in time.

NOTE—Another prominent physician to whom the above article was submitted, said: "The Bon Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or similar causes. It is one of the very few eye remedies I feel should be kept on hand by every family." Bon Opto referred to is an official preparation, the formula being printed on the package. The manufacturer guarantees it to strengthen enough 50 per cent in one week's time in many instances or refund the money. It is distributed in many locations in this city by Dr. Sherman & McManis and Dr. A. M. Miller—Adv.

Former United States Senator Mason, Pioneer in Pure Food and Drugs Legislation, Father of Rural Free Delivery System Says Nuxated Iron

Increased His Power and Endurance so Much That He Feels It Ought to Be Made Known to Every Nervous, Run-down, Anaemic Man, Woman and Child.

Opinions of Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician Brooklyn State Hospital; Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York; and Former Health Commissioner, Wm. R. Kerr, of the City of Chicago.

What Senator Mason Says

CHICAGO, ILL. GENTLEMEN: I have often said I would never recommend medicine of any kind. I believe that's the doctor's place. However, after the hardest political campaign of my life, without a chance for a vacation, I had been starting to court, every morning with the horrible tired feeling one cannot describe. I was advised to try Nuxated Iron. As a pioneer in the food and drug legislation, I was at first loath to try an advertised remedy, but after advising with my medical friends, I gave it a test. The results have been so beneficial in my own case, I made up my mind to let my friends know about it, and you are at liberty to publish this statement if you so desire. I am now 65 years of age and I feel that a remedy which will build up the strength and increase the power of endurance of one at my age, should be known to the world. Yours very truly, Wm. E. Mason

Senator Mason's statement in regard to Nuxated Iron was shown to several physicians, who were requested to give their opinions thereon.

Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician, Brooklyn State Hospital said: "Senator Mason is to be commended on handing out this statement on Nuxated Iron for public print. There are thousands of men and women who need a strength and blood-builder, but do not know what to take. There is nothing like organic iron—Nuxated Iron—to give increased strength, snap, vigor and staying power. It enriches the blood, brings roses to the cheeks of women and is an unfailing source of renewed vitality, endurance and power for men who burn up too rapidly their nervous energy in the strenuous strain of the great business competition of the day."

Former Health Commissioner Wm. R. Kerr of the city of Chicago says: "I have taken Nuxated Iron myself and experienced its health-giving and strength-building effect, and in the interest of public welfare I feel it my duty to make known the results of its use. I am well past my thirty-second year and want to say that I believe in my own great physical activity largely due today to my personal use of Nuxated Iron. From my own experiences with Nuxated Iron I feel it is such a valuable remedy that it ought to be used by every household and prescribed by every physician in this country."

Dr. E. Sauer, a Boston physician who has studied abroad in great European medical institutions, said: "Senator Mason is right. As I have said a hundred times over, organic iron is the greatest of all strength builders."

"Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of twenty and as full of vigor, vim and vitality as a young man. In fact, a young man he really was, notwithstanding his age. The secret, he said, was taking organic iron—Nuxated Iron had filled him with renewed life. At thirty he had his face beaming with the buoyancy of youth. Iron is absolutely necessary to enable your blood to change your food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron."

From the Congressional Directory, published by the United States Government: "Wm. E. Mason, Senator from Illinois, was elected to the 60th Congress in 1887, to the 61st Congress in 1889—defeated for the 62d Congress—1892—Elected Senator to the 55th Congress 1897 to 1903."

Senator Mason is now Congressman from the State of Illinois. Senator Mason's championship of Pure Food and Drug legislation, his fight for the rural free delivery system, and his strong advocacy of all bills favoring labor and the rights of the masses as against trusts and combines make him a national figure at Washington and endeared him to the hearts of the working man and the great masses of people throughout the United States. Senator Mason has the distinction of being one of the really big men of the nation. His strong endorsement of Nuxated Iron must convince any intelligent thinking reader that it must be a preparation of very great merit and one which the Senator feels is bound to be of great value to the masses of people everywhere, otherwise he could not afford to lend his name to it, especially after his strong advocacy of pure food and drug legislation.

have such great confidence in Nuxated Iron that they will not take any other medicine until they cannot take any man or woman unless they have first taken Nuxated Iron. It is a safe and sure remedy if it does not at least double your strength and endurance in three weeks' time. It is sold by Dr. Sherman & McManis and Dr. A. M. Miller—Adv.
