Vienna Papers Say Austria May Make Separate Peace—Copenhagen, June 30.—The East German Rundschau of Vienna, the organ of the German nationalists, complains in a recent issue of machinations in certain circles within the empire in favor of an Austrian endeavor for a separate peace with the entente and tending to destroy good relations with Germany.

The report is prevalent in these circles, particularly in the industrial districts, the Rundschau asserts, that Austria-Hungary could long before this have had peace with its enemies if it had not been bound by the German alliance and that Prussia alone is responsible for the continuance of the war.

Tales of dissonance between Austria-Hungary and Germany also are in circulation and a semi-panic recently occurred in certain districts over the wild rumor that these troubles had come to a crisis and Germany was about to attack its neighbor and ally.

San is Placed Upon Anti-War Speeches—San Francisco, June 30.—Acting on instructions from Attorney General Gregory, United States District Attorney John W. Preston issued a warning today against the making of speeches designed to embarrass the government in prosecuting the war.

Specific admonition is given to persons who are to speak at a meeting here next Tuesday at which according to Preston, an effort may be made to interfere with recruiting and enlistments.

"The government will not tolerate efforts to interfere in the slightest degree with recruiting and enlistments," the warning says.

Five new machine gun trucks will arrive here from Lincoln for use in the Fifth regiment some time next week. The navy recruiting station has received orders to ship 100 grantees soon to the Great Lakes training station on July 12 and forty hospital apprentices on July 15.

To date the regular army has enlisted 4,311 men in this district, leaving a balance of 178. The city of Omaha has recruited 417 of the original 744.

Word comes from Sackett Harbor, N. Y., that forty recruits for the air service have left there, enroute to Fort Omaha, where they will go into training.

Forty apprentice hospital recruits will be sent to the Great Lakes training station July 8. Many of the recruits enlisted more than a month ago, but because of the crowded condition at the station had to await their turn.

DRY CLAUSE WILL COVER WHISKY ONLY

Indications that President Will Not Be Given Authority to Stop Making of Beer and Light Wines.

Washington, June 30.—Prohibition features of the food legislation engrossed senate leaders today while debate continued on the food control bill.

Prohibition legislation, it was generally predicted, will be confined to distilled liquors following President Wilson's suggestion to prohibition leaders to drop the fight against manufacture of beer and wines.

Leaders discussed many proposals for compromise on the liquor issue, but with little prospect of agreement. A clear-cut fight and vote next week was in prospect, with both factions admitting that because of the president's intervention prohibition would extend only to distilled spirits.

Senator Martin, the democratic leader; Senator Chamberlain, in charge of the food, and some of the other leaders planned and predicted adoption of an amendment stopping only liquor distillation and giving the president no authority to stop wines and beer. Senators who conferred with the president are confident that even if given such authority he would not exercise it for the present at least.

The "dry forces," admitted by their leaders to be without the votes to stop manufacture of beer and wines, are divided on giving the president any authority over the light beverages.

Anti-Saloon league leaders in conference here today decided on a "hands off" policy toward the situation and in a letter to President Wilson, to be drafted later, will express a willingness to leave the question to congress and to the president in view of the national emergency.

Russian Sailors Accept Challenge of Bravery

Petrograd, June 30.—Two hundred sailors from the Baltic fleet have appeared at Riga to join the army and lead in an attack upon the enemy, according to the Ruskaya Volk. Their action, says the newspaper, was taken as the result of a declaration by an army officer that if "200 brave men willing to die for their country could be found, the whole army would fight."

A fortnight ago a deputation from the fleet visited Riga, heard this officer's assertion and repeated it upon returning to Helingsfors. Midshipman Steurmer of a torpedo boat crew, declared he would accept the challenge and proceeded to recruit the required number of heroes, who in due course were dispatched to Riga under command of Midshipman Simonovsky. Yesterday the men went to the front.
