MEXICO MAY LINE UP WITH ALLIES

Leaders Favor Break With Germany; Teutonic Propaganda is Steadily Weakening.

(By Associated Press.)
El Paso, Tex., July 6.—Since the pro-ally campaign in Mexico was first started by "El Universal" in Mexico City, the sentiment favoring the allies has reached northern Mexico.

During the last thirty days a well defined movement favoring an open break with Germany and the alignment of Mexico on the side of the entente allies developed. This has been in spite of the pro-German sentiment published daily in Chihuahua City and in papers believed to be subsidized by the Germans in the north.

A reflection of this sentiment is seen in the statement by General Francisco Gonzales, acting commander-in-chief of the northeastern military zone, with headquarters at Chihuahua. He was overcharged by the German firm of Ketselsen & Degau for some shoddy locks.
The manager was arrested and placed in the penitentiary. The German consul made a demand for his release, "in the name of the imperial German government and the kaiser," according to a Mexican official, who was present.
"Tell the German consul, he, the imperial government and the kaiser may all go to hell," General Gonzales answered.

Prominent Mexicans, men in close touch with the capital, predict Mexico will declare war on Germany within thirty days. According to these men, all German money in the Mexico City, Torreon, Chihuahua City and other banks will be seized as soon as war is declared. The German boats in Tampico and other ports will be seized, thereby giving Mexico a much needed merchant fleet, and all Germans either interned or deported at once and their properties confiscated.
The Tampico oil fields would be made safe for the oil supply of the allied fleets by declaring a zone in which traffic would be restricted and the mines, smelters and mills reopened at once to produce munitions metals for the allies.

"We can do nothing in a military way in Europe," said one of them, "but we can make Mexico safe for the allied nationals and for their properties. We can show our sympathy with the same cause for which we have been fighting for the last six years by aiding the allies in every way, even though we are unable to assist materially in the war."
The good effect of such a declaration upon the relations of Mexico and the United States, especially along the border, is pointed out. It would mean closer co-operation with American officers in stopping the wholesale traffic in ammunition, cattle smuggling, gun-running and all of the other violations of the laws along this border.

The anti-German movement is not unopposed in the north, as the German residents of Chihuahua City, Torreon and other places have been spending money lavishly entertaining officials, army officers and influential citizens. But with the usual German method, they seem to have overplayed their hand and brought about a reaction by causing the naturally suspicious Mexicans to suspect they had an ulterior motive in their friendship.

Americans returning from Mexico City say sixty days will elapse before Mexico declares war against Germany. They say the German sentiment there is exaggerated and that the great mass of Mexican citizens are in sincere sympathy with the allies. They say also the part General Obregon played in the pro-German agitation was exaggerated, as they claim his name was used by the Germans to lend dignity to the pro-German movement. And they say, further, the former war minister is a friend of America and the allies.

CREEK INDIAN CAN'T GIVE TO RED CROSS

Secretary of Interior Brands as Incompetent Red Man Who Would Donate Humanity Dollars.

Henrietta, Okl., July 6.—Jackson Barnett, Creek Indian, whose wealth is estimated at \$1,500,000, will have to keep the \$50,000 he wanted to donate to the American Red Cross mercy fund.

The secretary of the interior from Washington today denied the request that he be permitted to make the donation.
Barnett's wealth was acquired through royalties from oil-producing land given to members of the Creek nation by the government.

He is classed as an incompetent and can dispose of his money only upon the approval of the probate court or the secretary of the interior.

Remove Restraints From Americans in Germany

Berlin (Via London), July 6.—Virtually all restrictions and regulations to which American citizens resident in Germany have been subjected are removed through an agreement reached between the German foreign office and the military and police authorities. The agreement exempts Citizens of the United States from reporting to the

police and from observing the hours fixed for outdoor movements.

American citizens hereafter will be permitted to travel about Germany without being called upon to go through the laborious and slow-moving routine attached to the issuance of travel permits.

The new agreement virtually places Americans on the same footing as neutrals, only such persons as may be under suspicion being excluded from the new privileges.

How the War Can Be Won From the Skies

Tremendous plans are now being formed to deliver a crippling blow at Germany's military efficiency, not only "putting out her eyes," but spreading havoc by aerial armadas numbered by thousands. Vast sums are to be spent for the establishment of an American air-fleet on a colossal scale, and training schools for air-pilots are beginning to spring up like mushrooms over night.

During the past three years there has been in Europe not only an immense development of the art of flying, but a specific evolution of the allied art of the aerial duello.
In THE LITERARY DIGEST for July 7th, one of the most interesting articles is a translation from the French of Oscar Ribet, Chief Instructor in a French "School of Pilotage." This article explains in much detail the tactics of air-fighting. It is illustrated by sketches which visualize the tactics of pursuit, offense and defense.
There are many other features of unusual interest in "The Digest" this week, among which are:

This is a question that will be asked in many thousands of homes throughout the country during the next few weeks, and there is scarcely any other decision that will exercise more influence upon the future life of your boys and girls.
In this week's DIGEST there is a wealth of information comprised in the many business announcements of American schools. Girls' schools, and colleges for women; boys' military schools; co-educational and music and art schools; schools of oratory and dramatic art; business and technical schools; vocational and professional schools; schools of backward children. All are represented in this number.
The DIGEST has attained a unique place as an educational medium. Not only do parents recognize its value in this sense, but superintendents, teachers and students throughout the country know its value also, for it is in daily use as a textbook in current history in thousands of schools.
Inquiries are invited from teachers and principals as to how THE DIGEST will ease the burden of their school work.
