

OMAHA HOTEL MEN TO ATTEND MEETING

Local Delegates to Northwest-ern Association Convention at Minneapolis Charter Two Special Cars.

Driving, boating, dancing and banqueting are a few of the pleasant pastimes planned for the Omaha men who attend the convention of the Northwestern Hotel Men's Association at Minneapolis, July 12, 13, 14.

Irvin A. Medlar, secretary of the association for the last twelve years, outlined yesterday an elaborate program that has been prepared, including speeches by several men of real distinction in the hotel business. Among these is John McF. Howie of the Hotel Touraine at Buffalo, who will talk on "Academic Training for Hotel Keepers." L. Stevens, hotel architect, of Chicago, will speak on "Practical Hotel Building." Edgar H. Gerber, whose articles in the Saturday Evening Post have made him well known to the reading public, will talk on "The Hotel in War Time." Harry N. Tolles, who was enthusiastically received by the hotel men's convention last year, will again address the association.

I. A. Medlar of Omaha and F. E. Zonne of Minneapolis, president of the association, comprise the program committee.

Two Special Cars.

Two special cars will leave Omaha over the Great Western Wednesday, intended especially for the Nebraska and Iowa hotel men and their wives. Delegates from this state and eastern Iowa in particular are urged to join this party.

Among the Omaha people who will make the trip are: Mr. and Mrs. Keen of the Keen hotel; Mr. and Mrs. Bryant of the Hotel Loyal; Mr. Rothery of the North American Hotel company; William B. Miller and Mrs. Mills of the Rome; Mr. and Mrs. Joe Keenan of the Henshaw; Richard Kitchen of the Paxton; Alfred Marschner, associate editor of the Mid-West Hotel Reporter; Mr. and Mrs. J. A. Medlar; Harley Conant and Mrs. N. H. Conant, of the Sanford hotel; Mrs. Thieden of the Harvard hotel; Mrs. Roush of the Drexel; Mr. and Mrs. Henry B. Paine and Manager and Mrs. Miller, of the Wellington Inn. Mr. and Mrs. Fred Castle of the Castle hotel will motor to Minneapolis for the convention. Mr. and Mrs. Baker of the Grand hotel at Council Bluffs and Mr. and Mrs. R. D. McFadden of the Hotel Pathfinder at Fremont are a few of the many from Iowa, and from Nebraska towns over in the state who expect to go.

EX-EMPLOYES OF GERMANY NOW IN U. S. MUST LEAVE

(Continued from Page One.)
them to remain in this country without attempting to send information of a military character to their government was made clear.

Schaafhausen Goes First.

Among the first to go will be Heinrich Schaafhausen, formerly attached to the German embassy, but left behind by Count von Bernstorff and since attached to the department of German interests of the Swiss legation. In addition to Schaafhausen there is a long train of clerks and servants—at least they have served in such capacities in this country—although this government has no means of knowing definitely what the exact status of most of them is with the German government. There is ground for belief that some of them are persons of more importance to the German intelligence system.

Dr. George Barthelme, the author of the much discussed dispatch to the Cologne Gazette at the time diplomatic relations were severed, still is in Washington, but is required to report to certain government officials in person twice a week.

Turks and Bulgarians.

Abdul Hak Hussein Bey, charge of the Turkish embassy, pleaded with the State department not to insist on his departure. His wife is an English woman and on the ground that her health might be affected by going to Constantinople the bey has been permitted to remain here. The Bulgarian minister also still is at his legation.

There are many indications that the government is taking steps to tighten the spy net and make even more difficult the getting of military information to Germany.

When the government agreed to allow the free transfer of many former German employees to the Swiss legation and consulates there was no state of war between the United States and Germany. But the declaration of war and the knowledge that Germany maintains an efficient spy system here have changed the government's attitude.

The Grimm-Hoffman affair in Switzerland, in which a member of the Swiss federal council was forced to resign after being discovered as a German intermediary, seeking to

A. G. WARREN MADE NAVIGATION HEAD

Is Elected President of the Omaha-Decatur Missouri River Navigation Company.

A. G. Warren of the McCord-Brady company of Omaha was yesterday elected president of the Omaha-Decatur Missouri River Navigation company at the meeting of the directors of the newly incorporated company.

Hugh Gallup of Decatur, elevator man and live stock shipper of that place, was made vice president.

W. A. Ellis, assistant commissioner of the Commercial club of Omaha, was made secretary-treasurer.

The company now owns and operates the Elk, a big steamboat which carries cargoes for seventy-five Omaha jobbing houses on its course up-stream, and brings down loads of corn, wheat and live stock regularly on its return down-stream.

The company is authorized to own and operate boats, to own, buy, sell and lease real estate; to acquire and develop terminals for shipping and receiving purposes.

To Push Shipping.

The Missouri river shipping will be pushed by this new company, and it is found to be sufficiently profitable more boats will be added.

The Julius E. Silber, also which operates between Omaha and Decatur, is a privately owned boat, owned and operated by Captain Neff.

The Elk has been chartered by the Boy Scouts of Omaha to carry the troops of scouts to Lake Quinnebaugh, south of Decatur. It will leave Omaha about July 16. The boys go there for an encampment of a week. Scout Executive English and some of his executive council visited Decatur some days ago and completed arrangements for this encampment.

Has Process to Keep Fresh Roasting Ears Year Round

Fresh roasting ears the year round, that is what L. L. Goodrich, 1678 Locust street, says he can furnish. If he cannot furnish all that may be desired he has a process whereby persons may preserve their own roasting ears for use any time of the year. Mr. Goodrich has for five years been experimenting with his process, and now claims to have it pretty well perfected. He says green corn, or roasting ears can be preserved with all their freshness and original flavor by means of his process. Last year he says he put up five barrels of green corn on the cob, with the husks even intact. He says he did not open the barrels until mid-winter and then found the corn delicious and fresh. He furnished many of his friends with roasting ears for Christmas.

Mr. Goodrich uses no chemicals or solution of any kind. His process consists of a system of wrapping and freezing. He intends to put up and preserve a great deal more green corn this year than last, providing he can find suitable cold storage room.

Three Persons Injured By Fast-Flying Motors

Little John Christophers, age 5, living with his parents at 622 1/2 South Thirtieth street, while playing in the street in front of his home, was struck by a motorcycle being driven by Walter Bucher, 4528 South Fortieth street. He sustained a three-inch scalp wound, but was otherwise uninjured. He was taken to his home.

Sidney England, 2767 Cuming street, stepped from a street car in front of his home, instead of at the intersection, and was struck by an auto truck being driven by G. A. Baker at 5:30 last night. He was carried into his home, where it was found that besides a slight scalp wound and slightly bruised legs he was uninjured.

Edgar F. Pixler, age 14, living at 2644 Dodge street, sustained a badly sprained wrist last night when he was struck by an automobile near his home. He was riding a bicycle at the time, which was completely demolished. Witnesses say the automobile was being driven on the wrong side of the street. The driver did not stop.

influence Russia towards peace, had a deep effect here in convincing officials that at least some members of neutral governments were using their positions to bring pressure on the belligerent powers. It is not desired to increase the possibility of such work through the added pressure brought by former German officials still in office here. Moreover, America's relations with some of the neutrals have become delicate through the export control provisions and Germany could easily use its position to increase friction there.

May Censor Mails.

The cleaning out of former German officials here is but the first step in a systematic attempt to root the spy system out in this country. State department officials say that an iron-bound censorship will be established on all outgoing cables, in line with President Wilson's proclamation, at the earliest hour that the machinery can be built up. They also are most urgently considering a mail censorship, beginning at first with all countries not now covered by the British, and as soon as possible including that as well.

Dr. Beck Says Hot Sun and Heat Weaken the Eyes
Tells How to Strengthen Eyesight 50% In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home.
New York, N. Y.—Do you wear glasses? Are you a victim of eyestrain or other eye weakness? If so, you will be glad to know that, according to Dr. Beck, there is real hope for you. He says that exposure to sun, smoke, dust or wind often produces eyestrain, and people living in warm climates should frequently bathe the eyes and be careful to protect them from extreme light. This prescription will prove of great value to many eye sufferers. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without my glasses and my eyes do not water any more. At night they would pain me dreadfully, now they feel me all the time. It was like a miracle to me." A lady who used it says: "The atmosphere around here was without glasses, but after using this prescription for fifteen days everything seemed clear. I can even read fine print without glasses. It is believed that thousands who wear glasses can now
