Head of Labor Organization Takes Exception to Statement that Unions Cause of Race War.

(By Associated Press.) New York, July 7 .- Denial by Samuel Gompers, president of the American Federation of Labor, that trade unions had any share in the East St. Louis riots, which was met by a vehement denunciation by Theodore Roosevelt, of the murder of helpless negroes, precipitated a tumultuous demonstration at a mass meeting held in Carnegie hall last night in honor of the Russian mission to the United States.

Mr. Roosevelt was interrupted by Mr. Gompers, who rose from his seat and approached the former president. "Why don't you accuse after an investigation, the labor leader de-

With these words he returned to his seat. Roosevelt strode over to his chair and exclaimed:

Answers "Murder" Now.

"Mr. Gompers, why don't I accuse I'll answer now when murder is to be answered."

With that the colonel brought down on Mr. Gompers' shoulder his open left hand, which he had raised above his head. At this juncture many of the men on the platform leaped to their feet and there was a storm of hisses, cheers, and "boos" from all parts of the house. When Mr. Roose-velt could make himself heard above the din, he went on: 'I will go to any extreme to bring

justice to the laboring man, but when there is murder, I will put him down." When the former president had finished, Mr. Gompers, evidently deeply stirred, started to rise to make rejoinder, but was pushed back into his seat by those who sat near him, while Mayor Mitchel, who presided pounded vigorously with his gavel in an effort to restore order.

Several minutes elapsed before i was possible to introduce Boris Bakhmeteff, the Russian ambassador, and continue the meeting. As the excitement subsided Mr. Roosevelt and Mr. Gompers found themselves sitting

It was at the close of an address by Mr. Gompers that the colonel was recognized by Mayor Mitchel. Mr. Gompers had declared that many laboring men are in much the same po-sition as Russians under the old regime, read a telegram he said he had received tonight from the presi-dent of the Federation of Labor of Illinois. This message purported to explain the origin of the East St. Louis riots. It asserted that instead of labor unions being responsible for them, they resulted from employers enticing negroes from the south to the city "to break the back of labor."

I care not a snap of my finger for a telegram from the head of the labor unions of Illinois. Let there be the fullest investigation into these murders."

Refers to Riots.

It was at this point that the inter-ruption came from Mr. Gompers. Mr. Roosevelt already had departed a little earlier in the evening from the text of his formal speech of welcome to the Russians to refer to the riots.

"Before I greet the envoys of the new republic" he had said, "I wish to say a word to you in regard to something that has recently occurred inside our own boundaries.

"Before we speak of justice to others, it behooves us to do justice within our own boundaries. I refer to the race riots in East St. Louis, race riot for which, so far as we can see, there was no provocation and which resulted in such appalling brutality as to leave a stain on the American

It is our duty to demand that the governmental authorities shall use with ruthless severity every power at their command to punish those guilty of murder, whether committed by whites against blacks, or whether by blacks against whites.

"It is our duty to insist first of all, on the restoration of order and the reign of law. Upon the foundation of law and order we must build the structure of justice." Mr. Roosevelt then welcomed the

Asked if he would make a statement when he was leaving the hall, Mr. Roosevelt said:

Ten Are Lost When British

Mine Sweeper Is Destroyed London, July 7.—A British mine sweeper struck a mine and sank in the Mediterranean on Wednesday, with the probable loss of ten members of her crew, says an official announcement issued tonight.

To keep the face smooth, white and beautiful all summer there's nothing quite so good as ordinary mercolized wax. Discolored or freekled skin, so common at this season, is gently absorbed by the wax and replaced by the newer, fresher skin beneath. The face exhibits no frace of the wax, which is applied at bedtime and washed off mornings. Greasy creams, powders and rouges, on the other hand, are apt to appear more conspicuous than usual these days of excessive perspiration. Just get an ounce of mercolized wax at any drug store and use like cold cream. This will help any skin at once and in a week or so the complexion will look remarkably young and healthy.

Sun, winds and flying dust often cause squinting and other contortions which make wrinkles. You can quickly get rid of every line, however caused, by using a harmless wash lotion made by disaolving 1 oz. powdered sazolite in ½ pt. witch hazel.—Adv.

Killed by C. & N. W. Train Nuxated Iron to Make New Age of Beautiful Women and Vigorous Iron Men

Say Physicians-Quickly Puts Roses Into the Cheeks of Women and Most Astonishing Youthful Vitality Into the Veins of Men-It Often Increases the Strength and Endurance of Delicate, Nervous "Run-Down" Folks 100 Per Cent in Two Weeks' Time.

discovery of organic iron, Nuxated Iron or "Fer Nuxate," as the French call it, has taken the country by storm, it is conservatively estimated that over three million people annually are taking it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. So much se that doctors predict that we shall soon have a new age of far more beau-tiful, rosy-cheeked women and vigorous iron men.

Dr. Ferdinand King, a New York Physician and Medical Author, when interviewed on this subject, said: "There can be no vigorous iron men without iron. Pallor means anaemia. Anaemia means iron deficiency. The skin of anaemic men and women is pale; the flesh flabby. The muscles lack tone; the brain fags and the memory fails and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks.

"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, sods crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degerminated cornneal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods and silly mothods of home cookery, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss.

"Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Former Health Commissioner Wm. R. go from their cheeks.

Former Health Commissioner Wm. R. Kerr, of the City of Chicago, says: "I have taken Nuxated Iron myself and experienced its health giving, strength-building effect and in the interest of public welfare, I feel it my duty to make known the results of its Lan well past three secre years and

it my duty to make known the results of its use. I am well past three score years and want to say that I believe my own great physical activity is largely due today to my personal use of Nuxated Iron. From my own experience with Nuxated Iron, I feel it is such a valuable remedy that it ought to be used in every hospital and prescribed by every physician in this country."

Dr. E. Sauer, a Boston physician who has studied both in this country and in great European medical institutions, said: "As I have said a hundred times over, organic iron is the greatest of all strength builders."

"Not long ago a man came to me who was nearly haif a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find nim with the blood pressure of a boy of iventy and as full of vigor, vim and vitality as a young man; in fart, a young man he really was, notwithstanding his age. The secret, he said, was taking iron—Nuxated Iron had filled him with renewed life. At 30 he was in bad health; at 46 he was careworn and nearly all in. Now at 50 after taking Nuxated Iron, a miracle of vitality and his face heaming with the buoyancy of youth. Iron is absolutely necessary to enable your blood to change food into living through you without doing you any good.

Not long ago a man came to me who was nearly haif a century old and sked me to give him a preliminary examination or advice for publication, as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have the surprising and satisfactory results. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely rio themselves of all symptoms of dyspenia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit."
